RE: Application for Repair of Hazardous Monuments

DATE: February 2, 2023

Exhibits

A) Application for Repair or Removal of Dilapidated or Disrepaired Monuments that Create a Hazardous Condition
B) Humphrey Memorials repair estimate for $79,180
C) McFee Memorials repair estimate for $84,640
D) Legal notice for ad placed in The Recorder for $867
E) Photo development receipt for $7.14

Introduction and Recommendation

I received an application (Exhibit A) for the repair of 50 hazardous monuments located in Canajoharie Falls Cemetery and Prospect Hill Cemetery near the Village of Canajoharie, Montgomery County. The application was submitted by Charles J. Tallent, Treasurer of Canajoharie Falls Cemetery Association.
Canajoharie Falls Cemetery and Prospect Hill Cemetery are contiguous cemeteries that merged in March of 2019. Included with this application were two estimates: one from Humphrey Memorials (Exhibit B) for $79,180 for repair of the hazardous monuments and foundation work; and one from McFee Memorials (Exhibit C) for $84,640 for repair of the hazardous monuments and foundation work.

Also included was a legal notice (Exhibit D) that ran for three consecutive weeks in The Recorder. The cemetery had one response to the legal notice from the family of the newest monument, dated 1991 (Canfield). The superintendent of the cemetery, Larkin Kirby, said that a member of the Canfield family said that they could not afford to pay for the repair of their monument, so the cemetery is requesting that this monument be included in the application, notwithstanding. Superintendent Kirby said the next newest monument dates from 1909. Included is a letter from Mr. Tallent stating that most of the monuments are very old and the

cemetery does not have mailing addresses for the lot owners of these monuments. Based upon the information provided, it is the Division's understanding that the cemetery has determined that the lot owners cannot be found.

I recommend approval of this application.

The Monuments

I visited the cemetery on November 28,2022 and found that all 50 monuments under application were either loose on their foundations or tipping and appeared to pose a hazard to cemetery visitors and employees. The cemetery has no funds dedicated to the restoration of monuments. Based on the advanced age of the monuments in question, it is assumed the foundations were laid privately by either the families or by monument contractors.
The Humphrey Memorials repair estimate proposes to remove, repair, and reset the monuments on new foundations set at a depth of 42", and seal all joints. They offer a ten-year warranty.
The McFee Memorials repair estimate proposes to repair and reset the monuments on new foundations set at a depth of 42". They offer a ten-year warranty.

Recommendation

The cemetery is current with its payments to the vandalism fund and with the filing of its annual reports.
All papers are in order and this appears to be a legitimate claim for $80,054.14

Re: Canajoharie Falls Cemetery Association, No. 29003

Dear Leonard:

Regarding the Application for Repair or Removal of Dilapidated or Disrepaired Monuments that Create a Dangerous Condition that was sent to you on November 10, 2022, please be advised that the Canajoharie Falls Cemetery Association ("CFCA") has researched their records to determine if they have addresses for any of the current owners of the monuments to be repaired. Unfortunately, because the monuments are so old, CFCA does not have any current addresses for the current owners of the monuments. Therefore, CFCA will need to proceed with the notice by publication to the owners, which has already been completed and the Affidavit of Publication was previously submitted to you.

If you need anything further or have any questions, please call.

Yours truly,

CANAJOHARIE FALLS CEMETERY ASSOCIATION
