

Progress Report on Actions Taken to Advance Redevelopment and Revitalization

Identify and describe projects and actions taken, including all associated public and private investments that have been leveraged, to advance redevelopment and revitalization within the study area during the current BOA Step.

Briefly describe each project (2-3 sentences), identify funding sources and amount, explain the relationship to the BOA Plan (e.g. strategic site, key recommendation, priority revitalization action, etc.), and describe all community benefits of the action (e.g. permanent/construction jobs created, increased sales/property tax revenues, new housing units, decreased vacancy, environmental improvements, etc.).

For funding source(s) and amount, identify all public (local, state, federal, other) and private (charitable organizations, private developer, other) funds used for activities that advance implementation of BOA Plan goals, objectives and recommendations.

Using the format presented below, please describe actions on a separate sheet of paper.

Strategic Sites and Other Development Sites - Describe public and private redevelopment actions leading up to and including the completion of site assessments or investigations (to understand nature and extent of contamination), site cleanup, demolition, site preparation, marketing, or site redevelopment, reuse or rehabilitation.

- Project Name and Description:
- Funding Source(s) and Amount:
- Relationship to BOA Plan:
- Community Benefits:

Infrastructure - Describe actions leading up to and including the completion of new or enhancement of existing road, rail, water, sewer, telecommunications, or other infrastructure projects supporting redevelopment and revitalization.

- Project Name and Description:
- Funding Source(s) and Amount:
- Relationship to BOA Plan:
- Community Benefits:

Public Amenities - Describe actions leading up to and including the completion of new or enhancement of existing parks, playgrounds, walkways or trails, esplanades, other community facilities, or the preservation or enhancement of open space and cultural features.

- Project Name and Description:
- Funding Source(s) and Amount:
- Relationship to BOA Plan:
- Community Benefits:

Natural Resource Restoration or Enhancements - Describe actions leading up to and including the completion of environmental cleanup, wetland preservation, habitat restoration, water quality improvements, or other projects preserving, protecting or enhancing natural resources.

- Project Name and Description:
- Funding Source(s) and Amount:
- Relationship to BOA Plan:
- Community Benefits:
