

SECTION VI

STATE AND FEDERAL ACTIONS AND  
PROGRAMS LIKELY TO AFFECT IMPLEMENTATION

State and Federal actions will affect and be affected by implementation of the LWRP. Under State law and the U.S Coastal Zone Management Act, certain State and Federal actions within or affecting the local waterfront area must be "consistent" or "consistent to the maximum extent practicable" with the enforceable policies and purposes of the LWRP. This consistency requirement makes the LWRP a unique, intergovernmental mechanism for setting policy and making decisions and helps to prevent detrimental actions from occurring and future options from being needlessly foreclosed. At the same time, the active participation of State and Federal agencies is also likely to be necessary to implement specific provisions of the LWRP.

The first part of this section identifies the actions and programs of State and Federal agencies which should be undertaken in a manner consistent with the LWRP. This is a generic list of actions and programs, as identified by the NYS Department of State; therefore, some of the actions and programs listed may not be relevant to this LWRP. Pursuant to the State Waterfront Revitalization and Coastal Resources Act (Executive Law, Article 42), the Secretary of State individually and separately notifies affected State agencies of those agency actions and programs which are to be undertaken in a manner consistent with approved LWRPs. Similarly, Federal agency actions and programs subject to consistency requirements are identified in the manner prescribed by the U.S. Coastal Zone Management Act and its implementing regulations. The lists of State and Federal actions and programs included herein are informational only and do not represent or substitute for the required identification and notification procedures. The current official lists of actions subject to State and Federal consistency requirements may be obtained from the NYS Department of State.

The second part of this section is a more focused and descriptive list of State and Federal agency actions which are necessary to further implementation of the LWRP. It is recognized that a State or Federal agency's ability to undertake such actions is subject to a variety of factors and considerations; that the consistency provisions referred to above, may not apply; and that the consistency requirements can not be used to require a State or Federal agency to undertake an action it could not undertake pursuant to other provisions of law. Reference should be made to Section IV and Section V, which also discuss State and Federal assistance needed to implement the LWRP.

B. FEDERAL AND STATE ACTIONS AND PROGRAMS NECESSARY TO FURTHER THE TOWN OF IRONDEQUOIT'S LWRP

Several of the policies and projects incorporated into Irondequoit's Waterfront Revitalization Program will be implemented through the local actions described in Section V. These local actions consist, for the most part, of the adoption of extensive changes to the Town's ordinances and zoning map, which will encourage appropriate waterfront development and protect the sensitive environmental features of the shorezone.

There are, however, a number of specific actions which must be taken by either New York State or the Federal Government in order to realize all of the Program's objectives.

I. STATE ACTIONS

a. Office of Parks, Recreation and Historic Preservation

- \* In conjunction with the Bay opening project, development of public, water-oriented facilities including: a boat launch, parking lot, and comfort stations.
- \* Creation of a natural, passive park of State-owned land at the northwest corner of Irondequoit Bay, and lease of a portion of the site for the private development of a marina complex.
- \* Completion of an agreement with Monroe County regarding the County's long-term operation and maintenance of three vacant parcels adjacent to Bay Park West, recently purchased by the State.
- \* Provision of funding assistance to both Monroe County and the Town of Irondequoit for the planning, development, construction, major renovation, or expansion of existing and planned recreational facilities located in or adjacent to Irondequoit's waterfront area.

b. Department of Transportation

- \* Realignment of the northern terminus of the Sea Breeze Expressway (Route 47) to the west of its present location.
- \* Donation to the Town of Irondequoit, without use restrictions, of the 27 acre site situated at the junction of the Sea Breeze (Route 47) and Keeler Street (Route 104) Expressways.

- \* If the decision is made by Monroe County that the Route 18 bridge should be replaced, construction by the State of new link across the bay outlet that will permit the unimpeded passage of pleasure craft between Lake Ontario and Irondequoit Bay. The Town Board strongly favors the construction of such a crossing as evidenced from several solutions adopted by it, indicating the intention and support in favor of the bridge, dating back to 1980.
- \* If the Route 18 bridge is not replaced, construction by the State of north-bound ramps connecting the Irondequoit Bay bridge (Route 104) with the Sea Breeze Expressway (Route 590). The Town is strongly opposed to the design of the ramps as presently planned with southbound traffic exiting at Titus Avenue/Seabreeze Expressway intersection because of its impact on the residential neighborhoods. An alternate design with wouth sound exit to Ridge Road East is preferred by the Town.

In addition, the State should prepare an Environmental Impact Statement (E.I.S.) and hold a public hearing on the same before taking any action.

c. Department of State

- \* Provision of funds to the Town of Irondequoit with which to implement portions of its approved LWRP including, but not limited to, funds for mapping new zoning and overlay districts, staff and board training, adoption of water surface use legislation for Irondequoit Bay, provision of staff support for monitoring LWRP projects and activities.

d. Department of Environmental Conservation

- \* Implementation and administration of Article 24 of the State's Environmental Conservation Law for Irondequoit's wetlands areas.
- \* Final mapping, adoption, and administration of the State's Section 505 Coastal Erosion Control legislation.
- \* After termination of the Newport Road Landfill, inspection of the site to determine its suitability for use as a passive recreation facility.

e. Office of General Services

Prior to any development occurring in the water or on the immediate waterfront, OGS should be consulted for a

determination at the State's interest in underwater or formerly underwater lands and to authorization to use and occupy these lands.

## II. FEDERAL ACTIONS

### a. Department of Defense - Army Corps of Engineers

- \* Completion of the opening of Irondequoit Bay to Lake Ontario through the construction of a channel including a breakwater and a jetty on opposite sides of the channel.

### b. Department of Housing and Urban Development

- \* Through Irondequoit's annual Community Development Block Grant, provision of funds to be used by the Town for commercial revitalization loans and grants, which will improve the appearance and economic viability of businesses located on Culver Road in the Sea Breeze section.
- \* Through Irondequoit's annual Community Development Block Grant, provision of funds to be used by the Town to rehabilitate substandard housing occupied by lower income home owners, as well as to upgrade deteriorated or inadequate infrastructure systems in the older sections of Irondequoit's waterfront area.
