The public is encouraged to comment on any of the proposed rules appearing in this issue. Comments must be made in writing and must be submitted to the agency that is proposing the rule. Address your comments to the agency representative whose name and address are printed in the notice of rule making. No special form is required; a handwritten letter will do. Individuals who access the online *Register* (www.dos.ny.gov) may send public comment via electronic mail to those recipients who provide an e-mail address in Notices of Proposed Rule Making. If a public hearing is required by statute, public comments are accepted for at least five days after the last such hearing. Agencies are also required to specify in each notice the last date on which they will accept public comment.

When a time frame calculation ends on a Saturday or Sunday, the agency accepts public comment through the following Monday; when calculation ends on a holiday, public comment will be accepted through the following workday. Agencies cannot take action to adopt until the day after expiration of the public comment period.

The Administrative Regulations Review Commission (ARRC) reviews newly proposed regulations to examine issues of compliance with legislative intent, impact on the economy, and impact on affected parties. In addition to sending comments or recommendations to the agency, please do not hesitate to transmit your views to ARRC:

Anti-Stacking of NSAIDs, Add Diclofenac (HA) and Delete Meclofenamic Acid From 48-Hour NSAIDs

I.D. No. SGC-45-16-00004-RP

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following revised rule:

Revised Regulatory Impact Statement

1. Statutory authority: The New York State Gaming Commission ("Commission") is authorized to promulgate these rules pursuant to Rac-

ing, Pari-Mutuel Wagering and Breeding Law (“Racing Law”) Sections 103(2), 104(1, 19), 301(1, 2) and 902(1). Under Section 103(2), the Commission is responsible for supervising, regulating and administering all horse racing and pari-mutuel wagering activities in the State. Subdivision (1) of Section 104 confers upon the Commission general jurisdiction over all such gaming activities within the State and over the corporations, associations and persons engaged in such activities. Subdivision (19) of Section 104 authorizes the Commission to promulgate any rules and regulations that it deems necessary to carry out its responsibilities. Under Section 301, which applies to only harness racing, the Commission is authorized to supervise generally all harness race meetings and to adopt rules to prevent the circumvention or evasion of its regulatory purposes and provisions, and is directed to adopt rules to prevent horses from racing under the influence of substances affecting their speed. Section 902(1) authorizes the Commission to promulgate rules and regulations for an equine drug testing program that assures the public’s confidence and continues the high degree of integrity in pari-mutuel racing and to impose administrative penalties for racing a drugged horse.

2. Legislative objectives: To enable the Commission to preserve the integrity of pari-mutuel racing while generating reasonable revenue for the support of government.

3. Needs and benefits: This revised rulemaking is necessary to adjust the Commission’s restricted time periods governing the administration of non-steroidal anti-inflammatory drugs (“NSAID”) within one week of a horse racing.

The revised proposal would allow the use of a second NSAID within one week of racing, provided it was used at least 96 hours before racing, in addition to the original proposal that would allow one NSAID to be used until 48 hours before racing. Currently, six NSAIDs may be used until 48 hours before racing under subdivision (e)(14) to 9 NYCRR § 4043.2 (thoroughbred racing) and 4120.2 (standardbred racing). As originally proposed, only one of these NSAIDs could be used as an exception to the general one-week restriction against using equine drugs at 9 NYCRR §§ 4043.2(h) and 4120.2(n). The revision will allow the use of a second NSAID, because this may provide a veterinary benefit to a race horse, within one week of racing.

Such revision will meet the original proposal’s objective of preventing concurrent (“stacking”) or other excessive administrations of NSAIDs to race horses. As revised, a person cannot combine NSAIDs in sub-clinical doses in the 48 hours before a horse’s race to conceal the impermissible administration of substances that could remain efficacious because of the synergy of combined NSAID administrations. Further, the overuse of multiple NSAIDs in the week before racing, aggressively to prepare a horse for racing, will be restricted by limiting NSAIDs to only two.

A second revision deletes meclufenamic acid from the list of NSAIDs that are permitted within one week of racing at 9 NYCRR §§ 4043.2(e)(14) and 4120.2(e)(14). This substance is no longer marketed by a pharmaceutical company and compounded forms may be efficacious for more than 48 hours. There is no veterinary necessity for its use within one week of racing and there is no national threshold for this drug.

The proposal would continue to add diclofenac to the list of permissible NSAIDs to use within one week of racing in standardbred horses by conforming 9 NYCRR § 4120.2 (e)(14) to 9 NYCRR § 4043.2(e)(14), which permits this for thoroughbred horses. This will be consistent with national threshold adopted by the Commission for standardbred horses at 9 NYCRR § 4120.3(7).

4. Costs:

(a) Costs to regulated parties for the implementation of and continuing compliance with the rule: There are no new or additional costs imposed by this rule upon regulated persons. The rule merely revises an existing rule in regard to allowable time of administration of various medications.

(b) Costs to the agency, the state and local governments for the implementation and continuation of the rule: There are no costs imposed upon the Commission, the State, or local government. The rule will be implemented using the Commission’s existing regulatory and medication testing program. There will be no costs to local governments because they do not regulate pari-mutuel racing activities.

(c) The information, including the source(s) of such information and the methodology upon which the cost analysis is based: The Commission has determined that no costs will be imposed based upon the fact that the rule does not create any new mandatory duty or obligation, utilizes an existing regulatory framework and medication testing program, and merely modifies a medication rule.

5. Local government mandates: None. The New York State Gaming Commission is the only governmental entity authorized to regulate pari-mutuel racing activities.

6. Paperwork: There will be no additional paperwork.

7. Duplication: None.

8. Alternatives. The Commission considered restricting only three NSAIDs by adopting the model anti-stacking (“secondary”) thresholds

recommended by the Association of Racing Commissioners International, Inc. (“ARCI”). This alternative was rejected because it is incomplete and restricted time periods are easier and safer for trainers to follow.

9. Federal standards: None.

10. Compliance schedule: Regulated persons will be able to achieve compliance with the rule upon publication of a Notice of Adoption in the New York State Register.

Revised Regulatory Flexibility Analysis, Rural Area Flexibility Analysis and Job Impact Statement

This rulemaking proposal does not necessitate a revision to the previously published analyses and statement and does not have an adverse effect on small businesses, local governments, jobs, or rural areas.

Assessment of Public Comment

The Commission received public comments from the New York Thoroughbred Horsemen’s Association (NYTHA) and the Racing Medication and Testing Consortium (RMTC).

NYTHA urges the Commission to consider uniformity with other jurisdictions and, while understanding the goal of simplifying the complicated national model rule of the Association of Racing Commissioners International, Inc. (ARCI), cautions against restricting horsepersons far more in New York than would the ARCI approach. Many states, particularly mid-Atlantic racing jurisdictions, have adopted the ARCI approach which, in particular, allows more than one non-steroidal anti-inflammatory drug (NSAID) to be used within one week of a race. NYTHA recommended that the Commission not take action until further discussions with RMTC and ARCI. The Commission has been in further contact with leading veterinarians and members of RMTC and ARCI and has revised its proposal to permit the use of a second NSAID within one week of racing. The Commission notes that the proposal continues the Commission’s approach of regulating equine drugs, including NSAIDs, with restricted time periods that provide clear guidance and assures trainers and veterinarians that those who abide by the time restrictions will not incur an equine drug positive. As when the Commission approved 48-hour restricted time periods to regulate six NSAIDs that are permitted within one week of racing, see December 31, 2014 State Register, p. 59, the Commission’s general restriction on equine drugs, the revised proposal is the best method that trainers may rely on when following accepted veterinary practices (e.g., clinical doses) to ensure compliance with the ARCI anti-stacking thresholds in other states. The Commission’s revised proposal also accomplishes the twin objectives of proscribing the stacking of all (the ARCI model rule regulates only three) NSAIDs and the overuse of multiple NSAIDs during race week, which is medically unnecessary and a health risk to race horses.

RMTC shares NYTHA’s concern that the Commission should allow more than one NSAID within one week of a race and similarly urges uniformity. As noted above, the Commission has revised the proposal to permit the use of a second NSAID but believes that its proposed restricted time periods are more complete than the ARCI model rule, easier to comprehend and follow, and beneficial because trainers and veterinarians can rely on the Commission’s approach to ensure that they will comply with the ARCI model rule, which only applies laboratory thresholds. RMTC also indicates that one research article disputes that stacking NSAIDs may create a greater clinical effect. This is only one aspect of the anti-stacking rule proposal, however, and RMTC does not advocate that racing commissions should no longer attempt to regulate the stacking of NSAIDs.

These comments and the Department of Health's responses are summarized below:

Comment: A joint comment received from the American Society of Addiction Medicine (ASAM) and the New York Society of Addiction Medicine (NYSAM) indicate that the proposed rulemaking to expand the authority to treat addiction patients with buprenorphine to nurse practitioners (NPs) and physician assistant (PAs) would align state law with the newly enacted Federal law. Assessment of Public Comment

The New York State Department of Health ("Department") received two public comments in response to the proposed amendment to Title 10 NYCRR Section 34-2.11, which would allow licensed laboratory physicians, under specific circumstances, to communicate test results to patients. These comments and the Department's response are summarized below:

Comment: Comments received in support of the proposed regulation stated that it will help ensure that patients are aware of, and understand, their laboratory test results. In addition, a commenter praised that having an additional avenue of communication is particularly important for criti-

cal value test results in cases where the ordering provider cannot be reached.

Response: These comments in support of the proposed regulation are noted.

Comment: One commenter stated that the proposed regulation could result in a lack of involvement and follow up with the ordering provider. An emphasis was placed on test results involving communicable diseases and sexually transmitted diseases. It was suggested that the Department of Health provide additional guidance in the form of additional rules, a frequently asked question document or a webinar.

Response: The proposed regulation does not circumvent involvement of the ordering provider; it provides an additional avenue for communication of test results to patients. Federal and State regulations and clinical laboratory standards of practice already exist that require laboratories to report results to the ordering provider. These existing requirements will ensure the continued involvement of the ordering provider. No revisions to the proposed regulation were made as a result of this comment.

PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

Employee Scheduling (Call-In Pay)

I.D. No. LAB-47-17-00011-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: Amendment of sections 142-2.3 and 142-3.3 of Title 12 NYCRR.

Statutory authority: Labor Law, sections 21(11) and 659(2)

Subject: Employee Scheduling (Call-In Pay).

Purpose: To strengthen existing call-in pay protections involving employee scheduling.

Text of proposed rule: Sections 142-2.3 and 142-3.3 of 12 NYCRR are amended to read as follows:

§ 142-2.3 Call-in pay.

(a) *Call-in pay shall be provided as set forth below.*

(1) *Reporting to work.* An employee who by request or permission of the employer reports for work on any [day] shift shall be paid for at least four hours[, or the number of hours in the regularly scheduled shift, whichever is less, at the basic minimum hourly wage] of call-in pay.

(2) *Unscheduled shift.* An employee who by request or permission of the employer reports to work for any shift for hours that have not been scheduled at least 14 days in advance of the shift shall be paid an additional two hours of call-in pay.

(3) *Cancelled shift.* An employee whose shift is cancelled within 72 hours of the scheduled start of such shift shall be paid for at least four hours of call-in pay.

(4) *On-call.* An employee who by request or permission of the employer is required to be available to report to work for any shift shall be paid for at least four hours of call-in pay.

(5) *Call for schedule.* An employee who by request or permission of the employer is required to be in contact with the employer within 72 hours of start of the shift to confirm whether to report to work shall be paid for at least four hours of call-in pay.

(b) *Calculation of call-in pay.* Call-in pay shall be calculated as follows.

(1) *Actual attendance.* Payments for time of actual attendance shall be calculated at the employee's regular rate or overtime rate of pay, whichever is applicable, minus any allowances permitted under this Part.

(2) *Minimum rate.* Payments for other hours of call-in pay shall be calculated at the basic minimum hourly rate with no allowances. Such payments are not payments for time worked or work performed and need not be included in the regular rate for purposes of calculating overtime pay.

(3) *Offsets.* Call-in pay shall not be offset by the required use of leave time, or by payments in excess of those required under this Part.

(4) *Shorter work days.* The four hours of call-in pay for reporting to work and for cancelled shifts under paragraphs (1) and (3) of subdivision (a) of this section may be reduced to the lesser number of hours that the employee normally works for that shift, as long as the employee's total hours worked, or scheduled to work, for that shift do not change from week to week.

(c) *Applicability.* This section applies to all employees, except as provided below.

(1) This section shall not apply to employees who are covered by a valid collective bargaining agreement that expressly provides for call-in pay.

(2) Paragraphs (2) through (5) of subdivision (a) of this section shall not apply to employees during work weeks when their weekly wages exceed 40 times the applicable basic hourly minimum wage rate.

(3) Paragraph (2) of subdivision (a) of this section shall not apply to any new employee during the first two weeks of employment or to any regularly scheduled employee who volunteers to cover: (i) a new and additional shift during the first two weeks that the shift is worked; or (ii) a shift that had been scheduled at least fourteen days in advance to be worked by another employee. For purposes of this and the following paragraph, “regularly scheduled employee” means an employee who is scheduled at least fourteen days in advance for shifts consistent with a written good faith estimate of hours provided by the employer at the time of hiring (or at the time this section takes effect, whichever is later), which may be amended at the employee’s request. In addition, as used in this paragraph, “volunteers to cover” means acceptance of any request from another regularly scheduled employee or of an open request from the employer that is extended to all eligible employees, with no penalty or consequence for any employee who does not extend or accept such requests.

(4) Paragraph (3) of subdivision (a) of this section shall not apply when an employer cancels a shift at the employee’s request for time off, or when operations at the workplace cannot begin or continue due to an act of God or other cause not within the employer’s control, including, but not limited to, a state of emergency declared by federal, state, or local government, provided, however, that where operations can begin or continue but staffing needs are reduced due to act of God or other cause not within the employer’s control, the 72-hour period of paragraph (3) of subdivision (a) of this section shall be reduced to 24-hours for regularly scheduled employees.

§ 142-3.3 Call-in pay.

(a) Call-in pay shall be provided as set forth below.

(4) *On-call.* An employee who by request or permission of the employer is required to be available to report to work for any shift shall be paid for at least four hours of call-in pay.

(5) *Call for schedule.* An employee who by request or permission of the employer is required to be in contact with the employer within 72 hours of start of the shift to confirm whether to report to work shall be paid for at least four hours of call-in pay.

(2) Paragraphs (2) through (5) of subdivision (a) of this section shall not apply to employees during work weeks when their weekly wages exceed 40 times the applicable basic hourly minimum wage rate.

(3) Paragraph (2) of subdivision (a) of this section shall not apply

to any new employee during the first two weeks of employment or to any regularly scheduled employee who volunteers to cover: (i) a new and additional shift during the first two weeks that the shift is worked; or (ii) a shift that had been scheduled at least fourteen days in advance to be worked by another employee. Regulatory Impact Statement

STATUTORY AUTHORITY:

Labor Law §§ 21(11) and 659(2).

LEGISLATIVE OBJECTIVES:

The Legislature, in adopting the New York State Minimum Wage Act, empowered the Commissioner of Labor to promulgate regulations as she “deems necessary or appropriate to carry out the purposes of this article and to safeguard the minimum wage” (L. 1960, Ch. 619, § 2, at Labor Law § 652(2) & (4)), to order “such modifications of or additions to any regulations as he may deem appropriate to effectuate the purposes of this article” (Labor Law § 659(2)), and to investigate hours worked (Labor Law §§ 660(b)(1) & 661).

The regulations to be amended. In 1960, based on the Legislature’s delegation of authority, the Commissioner promulgated a new Minimum Wage Order for Miscellaneous Industries and Occupations (currently codified at 12 NYCRR Part 142) (hereinafter “the Wage Order”). The Wage Order contains “Call-in pay” regulations (12 NYCRR §§ 142-2.3 & 142-3.3) that require employers to pay employees who report to work for four hours of work or the amount of their regularly scheduled shift, whichever is less, at the applicable minimum wage rate.

Public hearings. In 2017, the Commissioner published notices of hearings pursuant to Labor Law § 659(2) soliciting public testimony regarding employer scheduling practices including “just-in-time,” “call-in,” or “on-call” scheduling for employees subject to the Wage Order. The Commissioner held those hearings on September 28, October 3, October 11, and October 17, 2017, in Albany, Binghamton, Buffalo, and New York City, respectively. Recordings of those hearings, and copies of written testimony received in connection with those hearings, are available online at www.labor.ny.gov/scheduling.

The proposed rule. The proposed regulation amends the Wage Order’s Call-in pay regulations (12 NYCRR §§ 142-2.3 & 142-3.3) to strengthen the protections for employees who report to work, who report for unscheduled shifts, who have shifts cancelled at the last minute, who are required to be on-call, and who are required to call-in to be scheduled for work. The proposed regulation includes provisions addressing the calculation and applicability of call-in pay under various circumstances.

NEEDS AND BENEFITS:

Testimony received through the four public hearings referenced above demonstrated that work schedule unpredictability has a detrimental impact both employees and employers.

Employers. Business and industry advocates agreed that many industries require flexibility and employers need a mechanism to adjust to unpredictable circumstances like an employee calling out sick, a worker leaving unexpectedly, delays in the delivery of materials or inclement weather conditions. For businesses, testimony pointed to a decrease in employee

turnover and an increase in attendance and worker loyalty as likely benefits of predictable scheduling practices. In addition, these proposed regulations still allow employers, without an unfair burden, to contend with unforeseen issues, including severe weather, fluctuations due to seasonal demand and other market conditions like material supply and emergency situations.

Employees. Many workers and advocates described the precarious nature of jobs that involve schedules with little to no worker input, schedules that vary wildly day-to-day or week-to-week, and schedules that demand around-the-clock availability. Workers said they often do not find out until hours before their shift whether they will work that day and face involuntary rotation or shift extensions with little to no notice. Even as part-time workers, they must be ready to work during the amount of time equivalent to working a full-time job, but are not compensated and, in the end, do not actually work many shifts for which they're supposed to be available. The hearings revealed that low wage workers are most likely to contend with the difficulties of unpredictable work schedules as well as be severely impacted by unpredictable work scheduling practices that commonly involve announcing schedules less than a week, or sometimes less than a day, in advance. Additionally:

- Testimony at these hearings showed that unpredictable work schedules negatively impact workers' income, leaving them without the ability to hold a second job – potentially having to turn down all other opportunities for outside income – or receive a reliable and predictable paycheck. These scheduling practices prevent workers from working full-time or making overtime, budget for recurring expenses and large purchases, pursue further educational opportunities like attending college classes, and securing reliable and affordable transportation.

- Testimony showed that workers were unable to predict childcare with employees sometimes being forced to pay in advance and lose that money if the need never materialized. Such scheduling practices also impacted their eligibility for supportive services like childcare subsidies and limited their access to high-quality and reliable childcare.

- Testimony also pointed to the inability to achieve an appropriate work-life balance with unpredictable schedules that cause stress and psychological distress, which has been shown to lead to unhealthy behaviors like smoking and excessive alcohol consumption. In addition, these practices made it more difficult for individuals trying to get their life back together (as a domestic violence survivor, for example) by eliminating dependable routines. Testimony pointed to problems workers had attending important family gatherings, buying tickets to events, and attending to their own or a family member's health needs.

- Testimony also showed that unpredictable scheduling is bad for business, resulting in high turnover, which leads to lost productivity and higher unemployment insurance contributions. This, in turn, can cause reduced morale and low customer satisfaction, which, in industries like home health care, can leave patients severely impacted. Today, sophisticated technology and algorithms has changed the nature of work and how workers are notified of work hours and require the state's regulatory framework to be updated to address and acknowledge the realities of modern working conditions.

- Testimony pointed to numerous benefits of increased predictability in scheduling, including stability in workers' lives as workers get more control and are allowed a voice in setting their own schedules. Workers would be compensated for the time they give up for the sake of the employer but retain the ability to have a flexible schedule if desired and the ability to swap shifts without employer intervention – all while participating in a transparent scheduling process.

The proposed regulation updates the Wage Order's long-established call-in pay regulations (12 NYCRR §§ 142-2.3 & 142-3.3) to protect minimum wage employees from unpredictable work schedule practices, while providing for appropriate exceptions for emergency and other unforeseen circumstances.

COSTS:

This proposed regulation does not impose any mandatory costs on the regulated community, as employers may avoid call-in pay by providing sufficient notice to employees of work schedules. Additionally, the requirements of the proposed regulation provide for exceptions for unforeseeable or unavoidable changes or delays in informing employees of their work schedule, including changes necessitated due to declared states of emergency and during the initial two weeks of an employee's employment. Costs for employers who fail to comply with the requirements of the proposed regulation are limited to the payment of employees at their regular rate of pay for actual attendance at work and pay for other hours required by this proposed rule at the applicable minimum wage rate.

The Department of Labor also estimates that there will be no increased or additional costs to the Department, or to state and local governments to implement this regulation.

LOCAL GOVERNMENT MANDATES:

None. Employees of federal, state and municipal governments and po-

litical subdivisions thereof are generally excluded from coverage under the Minimum Wage Law and the Wage Order by Labor Law §§ 651(5)(n) and 12 NYCRR §§ 142-2.14(b) & 142-3.12(b).

PAPERWORK:

This rulemaking does not impact any reporting requirements currently required in either statute or regulation.

DUPLICATION:

This rulemaking does not duplicate, overlap, or conflict with any other state or federal requirements.

ALTERNATIVES:

There were no significant alternatives considered.

FEDERAL STANDARDS:

There are no federal standards relating to this rule.

COMPLIANCE SCHEDULE:

Employers who do not currently provide timely notice of scheduling changes will need up to 14 days to comply with this rulemaking.

Regulatory Flexibility Analysis

EFFECT OF RULE: The proposed regulation amends the Minimum Wage Order for Miscellaneous Industries and Occupations (12 NYCRR Part 142) (hereinafter "the Wage Order") to strengthen the Call-in pay regulation (12 NYCRR §§ 142-2.3 & 142-3.3) to protections for employees who report to work, who report for unscheduled shifts, who have shifts cancelled at the last minute, who are required to be on-call, and who are required to call-in to be scheduled for work. The proposed regulation includes provisions addressing the calculation and applicability of call-in pay under various circumstances. The proposed rule does not apply to local governments.

COMPLIANCE REQUIREMENTS: Small businesses and local governments will not have to undertake any new reporting, recordkeeping, or other affirmative act, other than providing timely notice of scheduling changes, in order to comply with this regulation.

PROFESSIONAL SERVICES: No professional services would be required to effectuate the purposes of this regulation.

COMPLIANCE COSTS: The Department estimates that there will be no costs to the small businesses or local governments to implement this regulation. See Regulatory Impact Statement, at Costs.

ECONOMIC AND TECHNOLOGICAL FEASIBILITY: The regulation does not require any use of technology to comply.

MINIMIZING ADVERSE IMPACT: The Department does not anticipate that this regulation will adversely impact small businesses or local governments. Since no adverse impact to small businesses or local governments will be realized, it was unnecessary for the Department to consider approaches for minimizing adverse economic impacts as suggested in State Administrative Procedure Act § 202-b(1).

SMALL BUSINESS AND LOCAL GOVERNMENT PARTICIPATION: The Department does not anticipate that this rule will have an adverse economic impact upon small businesses or local governments, nor will it impose new reporting, recordkeeping, or other compliance requirements upon them. Nevertheless, small businesses and local governments have an opportunity to participate in the rulemaking process by participating in public hearings that were held pursuant to Labor Law § 659 and by providing comment during the public comment period.

Rural Area Flexibility Analysis

TYPES AND ESTIMATED NUMBERS OF RURAL AREAS: The Department anticipates that this regulation will have a positive or neutral impact upon all areas of the state; there is no adverse impact anticipated upon any rural area of the state resulting from adoption of this regulation.

REPORTING, RECORDKEEPING AND OTHER COMPLIANCE REQUIREMENTS: This regulation will not impact reporting, recordkeeping or other compliance requirements.

PROFESSIONAL SERVICES: No professional services will be required to comply with this regulation.

COSTS: The Department estimates that there will be no new or additional costs to rural areas to implement this regulation. See Regulatory Impact Statement at Costs.

MINIMIZING ADVERSE IMPACT: The Department does not anticipate that this regulation will have an adverse impact upon any region of the state. As such, different requirements for rural areas were not necessary.

RURAL AREA PARTICIPATION: The Department does not anticipate that the regulation will have an adverse economic impact upon rural areas nor will it impose new reporting, recordkeeping, or other compliance requirements. Nevertheless, rural areas in the state have an opportunity to participate in the rulemaking process by participating in public hearings that were held pursuant to Labor Law § 659 and by providing comment during the public comment period.

Job Impact Statement

NATURE OF IMPACT: The Department of Labor (hereinafter "Department") projects there will be no adverse impact on jobs or employment

opportunities in the State of New York as a result of this regulation. The nature and purpose of this regulation is such that it will not have an adverse impact on jobs or employment opportunities.

CATEGORIES AND NUMBERS AFFECTED: The Department does not anticipate that this regulation will have an adverse impact on jobs or employment opportunities in any category of employment. This regulation will apply to employees covered by the Minimum Wage Order for Miscellaneous Industries and Occupations (12 NYCRR Part 142) (hereinafter "the Wage Order") and will exclude workers who are covered by collective bargaining agreements that provide for call-in pay and workers whose weekly wages exceed 40 times the applicable minimum wage. The Wage Order covers all industries and occupations other than those that are covered by the hospitality and the building services industries. The Department's Division of Research and Statistics estimates that just under one million employees will be covered by this regulation, based on the number of employees who work in industries and occupations other than hospitality and building service whose weekly wages do not exceed 40 times the hourly minimum wage.

REGIONS OF ADVERSE IMPACT: The Department does not anticipate that this regulation will have an adverse impact upon jobs or employment opportunities statewide or in any particular region of the state.

MINIMIZING ADVERSE IMPACT: Since the Department does not anticipate any adverse impact upon jobs or employment opportunities resulting from this regulation, no measures to minimize any unnecessary adverse impact on existing jobs or to promote the development of new employment opportunities are required.

SELF-EMPLOYMENT OPPORTUNITIES: The Department does not foresee a measureable impact upon opportunities for self-employment resulting from adoption of this regulation.

Additional matter required by statute: Workers' Compensation Guidelines for Determining Impairment, First Edition, November 22, 2017, effective January 1, 2018 is incorporated by reference.

Revised Regulatory Impact Statement

1. Statutory authority: The Workers' Compensation Board (hereinafter referred to as Board) is authorized to add 12 NYCRR 325-1.6. Workers' Compensation Law (WCL) Sections 141 and 117(1) authorize the Chair to adopt reasonable rules consistent with and supplemental to the provisions of the WCL. WCL section 15(x) requires the Board to adopt new permanency impairment guidelines.

2. Legislative objectives: Section 15(x) of the WCL requires the Board to consult with labor, business, medical, and insurance representatives on revisions to the permanency impairment guidelines. The Board must propose for public comment revised permanency impairment guidelines for the schedule loss of use injuries covered by paragraphs (a) through (v) of subdivision (3) of section 15 of the WCL. The revisions will reflect the advances in modern medicine that result in better outcomes. The Board must adopt the new permanency guidelines by January 1, 2018. The 2012 Permanency Guidelines paragraphs pertaining to WCL § 15(3)(a)-(v) will be repealed on January 1, 2018.

3. Needs and benefits: Section 325-1.6 incorporates by reference the proposed 2017 Workers' Compensation Guidelines for Determining Impairment.

4. Costs: There are no additional projected costs to regulated parties who may be affected by the amendment, as the regulation adopts permanency impairment guidelines designed to reflect improved healing and outcomes. There are no projected costs to the Board, State and local governments.

5. Local government mandates: The proposed amendment does not impose any additional mandate, duty or responsibility upon any municipality or governmental entity.

6. Paperwork: The proposed regulations do not require additional paperwork.

7. Duplication: The statutory authority for the revision to the impairment guidelines exists in section 15(x) of the WCL. It explicitly requires regulations to adopt revised permanency impairment guidelines.

8. Alternatives: There were no significant alternative proposals under consideration.

9. Federal standards: There are no applicable federal standards which address the standards contained in the proposed regulation.

10. Compliance schedule: There is no new compliance burden on employers.

Revised Regulatory Flexibility Analysis

1. Effect of rule:

This proposed rule applies to any claimant seeking a schedule loss of use determination. It provides impairment guidelines for conducting impairment evaluations and making schedule loss of use determinations. The rule will have no effect on local governments.

2. Compliance requirements:

Under this new rule, evaluations of permanent impairment must be completed using the Workers' Compensation Guidelines for Determining Impairment.

3. Professional services:

The Board believes that no professional services will be needed to comply with this rule. This new rule simply offers revised guidelines on making schedule loss of use determinations.

4. Compliance costs:

This proposal does not involve any new compliance costs. It offers revised guidelines for making schedule loss of use determinations.

5. Economic and technological feasibility:

No implementation or technology costs are anticipated for small businesses and local governments for compliance with the proposed rule. Therefore, it will be economically and technologically feasible for small businesses and local governments affected by the proposed rule to comply with the rule.

6. Minimizing adverse impact:

The Board does not anticipate any increased costs or adverse impact, other than revised guidelines to follow in making schedule loss of use determinations. The new rule establishes guidelines for making those determinations in response to a legislative mandate.

7. Small business and local government participation:

Pursuant to the legislative mandate the Board conferred and consulted with labor, business, medical providers, insurance carriers and self-insured employers on the draft Impairment Guidelines on August 15, 2017 at Board offices around the State.

Revised Rural Area Flexibility Analysis

1. Types and estimated numbers of rural areas:

This rule applies to any schedule loss of use determinations for claimants in New York State, regardless of geographical location. The proposed regulation provides a revised system for evaluating permanent impairment and applies to all claimants.

2. Reporting, recordkeeping and other compliance requirements:

Under this rule, the evaluations of permanent impairment must be made in the format prescribed by the Chair. There is currently a form (C-4.3) that is used for this purpose. It has simply been included with the incorporation of the Impairment Guidelines for clarity's sake.

3. Costs:

This proposal will not impose any compliance costs on rural areas. The role solely implements revised Impairment Guidelines.

4. Minimizing adverse impact:

This proposed rule is in response to a legislative mandate, and establishes revised impairment guidelines for use in schedule loss of use determinations.

5. Rural area participation:

The Board is implementing these guidelines in response to a legislative mandate.

Revised Job Impact Statement

1. Nature of Impact

The impairment guidelines proposed in these rules are not expected to have any impact on jobs in New York State. These guidelines simply create a system to help in making schedule loss of use determinations.

2. Categories and Numbers Affected

The impairment guidelines are not expected to have any adverse impact on jobs.

3. Regions of Adverse Impact

The impairment guidelines do not affect any region specifically, but impact across the state – however, these guidelines are for making schedule loss of use determinations and are not expected to have any impact on jobs.

4. Minimizing Adverse Impact

The proposed rules provide that medical examinations in determining impairment comply with the Workers' Compensation Guidelines for Determining Impairment. There is not expected to be any impact on jobs with these guidelines.

Assessment of Public Comment

The Chair and Board received approximately 400 formal written comments from Survey Monkey, emailed comments, and regular mail. Additionally, the Board received approximately 1,993 form letters from individuals using a website form, approximately 398 form letters from individuals, a petition with approximately 7,875 signatures, and approximately 17,000 postcards.

After the public comment period closed, the Board received an additional 1,100 postcards from associations objecting to the proposed changes, as well as approximately 37 additional form letters, a hard copy of a form letter with approximately 780 signatures from a labor organization, and approximately five comments from individuals.

Most of the comments received by the Board objected to the proposed changes, citing the legislative mandate to take into account advancements in modern medicine only and that the proposals were broader than necessary.

Most detailed comments, from claimant representatives and associations as well as business owners, carriers, health care providers, and in some instances individual claimants, objected to the use of pain as a factor in SLU awards, because it's too subjective.

The Board received many comments from various individuals and associations, as well as legislators, objecting to the ability of injured workers

to be questioned without counsel and the use of a questionnaire, as well as the requirement that claimants be cooperative.

Nearly all comments from claimant organizations, TPAs and law firms, as well as several comments from legislators, objected to the use of loss of earning power as a factor in determining SLU awards.

Many of the written comments from individuals objected to changing the impairment guidelines at all.

ACTION PENDING INDEX

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.

Agency code	Issue number	Year published	Serial number	Action Code

Each bid must be prepared and submitted in accordance with the Instructions to Bidders and must be accompanied by a certified check, bank check, or bid bond in the amount of \$11,300 for C.

All successful bidders will be required to furnish a Performance Bond and a Labor and Material Bond in the statutory form of public bonds required by Sections 136 and 137 of the State Finance Law, each for 100% of the amount of the Contract estimated to be between \$100,000 and \$250,000 for C.

Pursuant to State Finance Law §§ 139-j and 139-k, this solicitation includes and imposes certain restrictions on communications between OGS D&C and a bidder during the procurement process. A bidder is restricted from making contacts from the earliest posting, on the OGS website, in a newspaper of general circulation, or in the Contract Reporter of written notice, advertisement or solicitation of offers through final award and approval of the contract by OGS D&C and the Office of the State Comptroller ("Restricted Period") to other than designated staff unless it is a contact that is included among certain statutory exceptions set forth in State Finance Law § 139-j(3)(a). Designated staff are Jessica Hoffman, Carl Ruppert and Pierre Alric in the Division of Contract Management, telephone (518) 474-0203, fax (518) 473-7862 and John Lewyckyj, Deputy Director, Design & Construction Group, telephone (518) 474-0201, fax (518) 486-1650. OGS D&C employees are also required to obtain certain information when contacted during the restricted period and make a determination of the responsibility of the bidder pursuant to these two statutes. Certain findings of non-responsibility can result in rejection for contract award and in the event of two findings within a four-year period, the bidder is debarred from obtaining governmental Procurement Contracts. Bidders responding to this Advertisement must familiarize themselves with the State Finance Law requirements and will be expected to affirm that they understand and agree to comply on the bid form. Further information about these requirements can be found within the project manual or at: <http://www.ogs.ny.gov/aboutOGS/regulations/defaultAdvisoryCouncil.html>

As a condition of award, within 48 hours of receipt of the proposed Contract Agreement from the State, the low bidder shall return the Contract Agreement to the State, properly executed, along with the Bonds if required by said Agreement. Low bidders who cannot meet these provisions may be subject to disqualification and forfeiture of the bid security.

The State intends to expedite award of this Contract and the Contractor shall be prepared to proceed with the Work accordingly.

Bidders are warned that time is of the essence of the Contract and substantial completion of the Work must be within 97 days after the Agreement is approved by the Comptroller. Due to the tightness of the construction schedule, bidders should consider the necessity for an increased work force and shift operations.

The only time prospective bidders will be allowed to visit the job site to take field measurements and examine existing conditions of the project area will be at 10:00 a.m. on November 16, 2017 at Rochester Psychiatric Center, 1111 Elmwood Avenue, Work Control Center, Rochester, NY. Prospective bidders are urged to visit the site at this time. Prospective bidders or their representatives attending the pre-bid site visit will not be admitted on facility grounds without proper photo identification. For assistance pertaining to the site visit only, please phone Tom Cutter (585) 427-7430.

Date of Issuance –November 22, 2017

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant below has certified that proposed activities comply with and will be conducted in a manner consistent with the approved New York State Coastal Management Program (NYSCMP). In F-2017-0754, "Kennedy Pier Reconstruction", the applicant –The Breezy Point Cooperative (Breezy Point Co-op. or BPC) – proposes to reconstruct, in-place, the Kennedy Pier located on the western end of the north shore of Rockaway Point, NY – approximately - North of 406 Bayside, Rockaway Point, County of Queens, NY, at the Rockaway Inlet.

According to the information submitted to the Department of State:

This pier "provides fishing and viewing to the Breezy Point Community" and "the pier sustained damage during Superstorm Sandy in 2012. Action is now required to make repairs and to institute various measures designed to minimize the potential for similar damage to occur in the future."

The applicant proposes to:

- Remove in its entirety the existing fixed pier configuration consisting of 1) an approximately 18' x 26' concrete platform located at the landward end of a fixed pier; 2) a pile supported fixed pier (8' x 338') with (10) ten batter piles waterward of mean high water; 3) a 24' x 42' pier head with a 146 square feet angled access platform; and (2) two four-pile dolphins.

- Install 1) an 8' x 372' fixed pier, including a 110 square foot trapezoidal shaped access section at the waterward end, with (24) twenty four twelve-inch (12") diameter batter piles (wrapped in 0.30" thick PVC) installed waterward of mean high water; 2) a 24'-8" x 42' pier head; 3) an approximately 8' x 24' pile supported concrete ramp located at the landward end of the fixed pier above; and 4) install (2) two seven pile dolphins.

The purpose of the proposed pier reconstruction and modifications is to restore the previous level of safety and recreational functionality of the existing pier, and to reduce susceptibility of the pier to damage from ice flows and elevated water levels associated with storms. The purpose of the proposed concrete ramp is to continue to allow and improve the ability of emergency response vehicles to directly access the pier in the event of an emergency.
