EMERGENCY RULE MAKING

COVID-19 Capital Costs Tax Credit Program

I.D. No. EDV-38-22-00001-E

Filing No. 695

Filing Date: 2022-09-02

Effective Date: 2022-09-02

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

Action taken: Addition of Part 290 to Title 5 NYCRR.

Statutory authority: L. 2022, ch. 59, part E

Finding of necessity for emergency rule: Preservation of general welfare.

Specific reasons underlying the finding of necessity: The COVID-19 Capital Cost Tax Credit Program was enacted in response to the acute, and devastating impact of the COVID-19 pandemic on small businesses throughout New York State, and the additional costs these businesses have and continue to incur in order to comply with public health or other emergency orders or regulations, and to take infectious disease mitigation measures related to the COVID-19 pandemic such as retrofits, renovations, machinery and equipment, and materials and supplies related to COVID safety enhancements. The COVID-19 Capital Costs Tax Credit Program is created to provide financial assistance to small businesses to offer relief and reduce the duration and severity of the current economic difficulties.

There are over 350,000 businesses in the State that meet the Program criteria of being independently owned with less than \$2.5 million in gross receipts that could qualify for financial assistance. The sheer volume of potential applicants and the need to review receipts to verify qualified costs will present a challenge to effectively disburse tax credits in a timely manner and help alleviate the cash crunch created by these unanticipated and burdensome expenses.

These regulations must be promulgated immediately so that the Department of Economic Development can launch the Program and begin accepting applications in time for eligible small businesses to be reviewed, costs verified and tax credit certificates issued before filing their 2022 tax returns in early 2023. Pursuant to Chapter 59 of the Laws of 2022, the Commissioner of Economic Development is expressly authorized to promulgate regulations for this Program on an emergency basis.

Subject: COVID-19 Capital Costs Tax Credit program.

Purpose: To create the administrative process for the program.

Substance of emergency rule (Full text is posted at the following State website: esd.ny.gov): The regulation contained in 5 NYCRR Part 290 governs the newly created COVID 19 Capital Costs Tax Credit program and is summarized as follows:

The regulation begins by defining a host of key terms necessary to implement the tax credit program. These include, but are not limited to, the following:

(1) “authorized applicant;” (2) “certificate of tax credit;” (3) “proof of expense;” (4) “qualified COVID-19 capital costs” and (5) “third-party reviewer.”

Next, the regulation sets forth the application and review process for

the program. The Department's administrative process requires a business entity to complete a preliminary authorization form before submitting a full application. Upon receipt of this, the Department will verify that the business entity does not owe past due state taxes.

Upon verification that a business entity is in good standing as noted above, the Department will notify the applicant and Third-Party Reviewer that the business entity is an authorized applicant.

The Third-Party Reviewer will then ensure that the following criteria are met:

- (i) the application is complete;
- (ii) the applicant provided evidence of their business eligibility in a form and manner prescribed by the Department;
- (iii) the applicant agreed to allow the Department of Taxation and Finance to share the applicant's tax information with the Department;
- (iv) the applicant agreed to allow the Department of Labor to share its tax and employer information with the Department;
- (v) the applicant agreed to allow the Department and its agents access to any and all books and records the Department may require to monitor compliance;
- (vi) the applicant certified, under penalty of perjury, that it is in substantial compliance with all emergency orders or public health regulations currently required of such entity and does not owe past due state taxes or local property taxes unless the business entity is making payments and complying with an approved binding payment agreement entered into with the taxing authority; and
- (vii) the applicant agreed to provide any additional information required by the Department relevant to this program.

After determining that the applicant meets the program's eligibility criteria set forth below, the Department may admit the applicant into the Program and issue them a certificate of tax credit. The regulation also notes that for authorized applicants that are accepted into the Program, credits will be allocated based upon the date a completed application is submitted.

The regulation next outlines eligibility for the program. To be eligible for the credit, an applicant must: (1) be a small business and have two million five hundred thousand dollars or less of gross receipts in the taxable year in New York State that includes December thirty-first, two thousand twenty-one; (2) operate a business location in New York state; and (3) have at least two thousand dollars (\$2,000) in qualified COVID-19 capital costs. A business entity must also be in substantial compliance with any public health or other emergency orders or regulations related to the entity's business sector or other laws and regulations as determined by the department. In addition, a business entity may not owe past due state taxes or local property taxes unless the business entity is making payments and complying with an approved binding payment agreement entered into with the taxing authority.

Next the regulations outline the calculation of the credit and note that it is equal to fifty percent (50%) of its qualified COVID-19 capital costs. Importantly, a business entity may not receive in excess of twenty-five thousand dollars (\$25,000) in credits under this program; and shall not receive a credit less than one thousand (\$1,000) dollars.

The regulation then contains a section on retention and reporting requirements as well as a section on removal from the program. The regulation concludes by stating that the total amount of tax credits listed on certificates of tax credit issued by the commissioner pursuant to this program may not exceed two hundred fifty million (\$250,000,000) dollars.

This notice is intended to serve only as an emergency adoption, to be valid for 90 days or less. This rule expires November 30, 2022.

Text of rule and any required statements and analyses may be obtained from: Thomas P. Regan, Department of Economic Development, 625 Broadway, Albany, NY 12245, (518) 292-5123, email: thomas.regan@esd.ny.gov

Regulatory Impact Statement

STATUTORY AUTHORITY:

Section 1 of Part E of Chapter 59 of the Laws of 2022 required the Commissioner of the Department of Economic Development (the "Department") to promulgate regulations establishing the application process and eligibility criteria for the COVID 19 Capital Costs Tax Credit Program.

LEGISLATIVE OBJECTIVES:

The proposed/emergency rule gives effect to the intention of the legislature to provide critical assistance to small businesses to comply with public health or other emergency orders or regulations, and to take infectious disease mitigation measures related to the COVID-19 pandemic. The COVID-19 Capital Costs Tax Credit Program is created to provide financial assistance to economically harmed businesses to offer relief and reduce the duration and severity of the current economic difficulties.

NEEDS AND BENEFITS:

The proposed/emergency rule is necessary in order to create the administrative process for the COVID-19 Capital Costs Tax Credit Program as outlined below.

The COVID-19 Capital Cost Tax Credit Program was enacted in response to the acute, and devastating impact of the COVID-19 pandemic on small businesses throughout New York State, and the additional costs these businesses have and continue to incur in order to comply with public health or other emergency orders or regulations, and infectious disease mitigation measures related to the COVID-19 pandemic such as retrofits, renovations, machinery and equipment, and materials and supplies related to COVID safety enhancements. The COVID-19 Capital Costs Tax Credit Program is created to provide financial assistance to small businesses to offer relief and reduce the duration and severity of the current economic difficulties. It creates a tax credit equal to 50% of its qualified COVID-19 capital costs. Importantly, a business entity may not receive in excess of twenty-five thousand dollars (\$25,000) in credits under this program; and shall not receive a credit less than one thousand (\$1,000) dollars.

There are over 350,000 businesses in the State that meet the Program criteria of being independently owned with less than \$2.5 million in gross receipts that could qualify for financial assistance. The sheer volume of potential applicants and the need to review receipts to verify qualified costs will present a challenge to effectively disburse tax credits in a timely manner and help alleviate the cash crunch created by these unanticipated and burdensome expenses.

These regulations must be promulgated immediately so that the Department of Economic Development can launch the Program and begin accepting applications in time for eligible small businesses to be reviewed, costs verified and tax credit certificates issued before filing their 2022 tax returns in early 2023.

COSTS:

I. Costs to private regulated parties (the business applicants): None. The proposed/emergency rule will not impose any additional costs to eligible business applicants.

II. Costs to the regulating agency for the implementation and continued administration of the rule: None, other than those listed in section III below.

III. Costs to the State government: Given the large expected volume of the program applicants, the Department will need to contract with an outside vendor to assist in running the program. The cost will depend on the number of applications received. A key requirement for bidders will be to provide quotes that allow for a minimum fixed bid price and a variable maximum price based on the applications received. The cost is estimated at between \$5 and \$12 million.

IV. Costs to local governments: None. The proposed/emergency rule will not impose any costs on local governments.

LOCAL GOVERNMENT MANDATES:

None. There are no local government mandates associated with this program.

PAPERWORK:

The rule amends the administrative process of a tax credit program. The rule entails certain paperwork burdens including materials to be submitted as part of applications for tax credits, additional documents the Department may request from applicants as part of its evaluation of applications, and certain records that must be maintained by program participants for auditing purposes.

DUPLICATION:

The proposed/emergency rule adds the tax credit program in Part 290 of 5 NYCRR. Accordingly, there is no risk of duplication in the adoption of the proposed/emergency rule.

ALTERNATIVES:

No alternatives were considered with regard to creating a new rule in response to the statutory requirement.

FEDERAL STANDARDS:

There are no federal standards applicable to this program; it is purely a state program that offers tax benefits to certain small businesses who have a demonstrated economic loss due to COVID-19. Therefore, the proposed/emergency rule does not exceed any federal standard.

COMPLIANCE SCHEDULE:

The affected agency (Department of Economic Development) and any applicants to the tax credit program will be able to achieve compliance with the regulation as soon as it is implemented.

Regulatory Flexibility Analysis

Participation in the COVID-19 Capital Costs Tax Credit Program is entirely at the discretion of qualifying small business entities. Neither statute nor the proposed/emergency rule impose any obligation on any local government or business entity to participate in the program. The rule does not impose any adverse economic impact or compliance requirements on small businesses or local governments. In fact, the proposed/emergency rule may have a positive economic impact on small businesses.

Because it is evident from the nature of the rule that it will have either no impact or a positive impact on small businesses and local government, no further affirmative steps were needed to ascertain that fact and none were taken. Accordingly, a regulatory flexibility analysis for small busi-

nesses and local governments is not required and one has not been prepared.

Rural Area Flexibility Analysis

Under the COVID-19 Capital Costs Tax Credit program, certain small businesses in rural areas of New York State may be eligible to apply to participate in the program entirely at their discretion. Municipalities are not eligible to participate in the Program. The proposed/emergency rule does not impose any special reporting, recordkeeping or other compliance requirements on private entities in rural areas. Therefore, the rule will not have a substantial adverse economic impact on rural areas nor on the reporting, record keeping or other compliance requirements on public or private entities in such rural areas. Accordingly, a rural area flexibility analysis is not required and one has not been prepared.

Job Impact Statement

The proposed/emergency rule creates the administrative process for the COVID-19 Capital Costs Tax Credit Program. The program aims to assist small businesses negatively impacted by the COVID-19 pandemic and will not have a substantial adverse impact on jobs and employment opportunities; rather, the program is intended to increase employment opportunities.

Because it is evident from the nature of the rulemaking that it will have either no impact or a positive impact on job and employment opportunities, no further affirmative steps were needed to ascertain that fact and none were taken. Accordingly, a job impact statement is not required and one has not been prepared.

Metropolitan Transportation Agency

EMERGENCY RULE MAKING

Requiring Mask Wearing Covering When Mandated for Indoor Facilities and Conveyances of the MTA and its Affiliates and Subsidiaries

I.D. No. MTA-16-22-00008-E

Filing No. 699

Filing Date: 2022-09-06

Effective Date: 2022-09-06

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

Action taken: Amendment of Part 1030 of Title 21 NYCRR.

Statutory authority: Public Authorities Law, section 1266(4) and (5)

Finding of necessity for emergency rule: Preservation of public health, public safety and general welfare.

Specific reasons underlying the finding of necessity: The emergency rule, which complies with the New York State Department of Health regulation mandating the wearing of masks on public transportation conveyances and indoor premises is necessary to safeguard public health and safety and to ensure through proper mask wearing that the public, health care providers, first responders, and other essential workers who rely on the Metropolitan Transportation Authority's subways, buses, and commuter trains to get to and from work, as well as the Metropolitan Transportation Authority's employees are protected during COVID-19 outbreaks.

As ridership increases it is imperative that all persons on the Metropolitan Transportation Authority's subways, buses, and commuter trains fully comply with the Centers for Disease Control and Prevention's Order(s), Executive Orders of the Governor of the State of New York and/or New York State or Federal regulations requiring them to properly wear a mask covering their nose and mouth while on public transportation conveyances and while indoors on public transportation premises. Research has found that wearing a mask can reduce the rate of COVID-19 transmission significantly.

Subject: Requiring mask wearing covering when mandated for indoor facilities and conveyances of the MTA and its affiliates and subsidiaries.

Purpose: To safeguard the public health and safety by adding a rule requiring the use of masks in facilities and conveyances when mandated.

Text of emergency rule: Part 1030 Rules Governing the Conduct and Safety of the Public in the Use of the Terminals, Stations, Trains, Facilities, or Conveyance of the Metropolitan Transportation Authority

1030.1 Authorities covered by the rules of this Part

The rules set forth in this Part 1030 are established by the Metropolitan Transportation Authority (MTA) and applicable to it and to each of its affiliates and subsidiaries and each of their affiliates and subsidiaries including without limitation the New York City Transit Authority, the Manhattan and Bronx Surface Transit Operating Authority, the Staten Island Rapid Transit Operating Authority, the MTA Bus Company, the Long Island Rail Road Company, and Metro-North Commuter Railroad Company (each an "authority").

1030.2 Requiring Persons to Wear Masks

(a) At all times required by Order of the Centers for Disease Control and Prevention, Executive Order of the Governor of the State of New York, and/or New York State or Federal Regulation every person on or in any terminal, station, train, facility, or conveyance (as those terms are defined in Parts 1040, 1044, 1050, 1085, and 1097 of this Subchapter) of any authority covered by this Part shall wear a mask that completely covers their mouth and nose. A mask should fit snugly but comfortably against the face and be secured to the head, with ties, ear loops, or elastic bands behind the head. A gaiter must have two layers of fabric or be folded to make two layers. Masks may be either manufactured or homemade and must be a solid piece of material without slits, exhalation valves, or punctures. Cloth masks should be made with two or more layers of breathable fabric that is tightly woven (i.e., fabrics that do not let light pass through when held up to a light source). Masks may be reusable or disposable. Medical masks and N-95 respirators fulfill this requirement.

The following do *not* meet this requirement:

(1) masks worn in a way that does not cover the nose and mouth;

(2) face shields or goggles (though face shields or goggles may be worn to supplement a mask that meets the above required attributes);

(3) scarves, ski masks, balaclavas, or bandannas;

(4) shirt or sweater collars (i.e., turtleneck collars) pulled up over the mouth and nose;

(5) masks made from loosely woven fabric or that are knitted (i.e., fabrics that let light pass through);

(6) masks made from material that is hard to breathe through (such as vinyl, plastic or leather);

(7) masks containing slits, exhalation valves or punctures.

(b) The requirement to wear a mask shall not apply under the following circumstances:

(1) while eating or drinking for brief periods, but only in locations where eating and drinking otherwise are permitted, or while taking medication; prolonged periods of mask removal are not permitted for eating or drinking, the mask must be worn between bites and sips;

(2) while communicating with a person who is hearing impaired when the ability to see the mouth is essential for communication;

(3) while a person is unconscious (for reasons other than sleeping), incapacitated, unable to be awakened, or otherwise unable to remove the mask without assistance;

(4) when necessary to temporarily remove the mask to verify one's identity or when asked to do so by any police officer, peace officer, or authority employee;

(5) when in outdoor areas of terminals, stations or facilities.

(c) The following categories of persons are not required to wear a mask:

(1) a child under the age of two years;

(2) a person with a disability who cannot wear a mask, or cannot safely wear a mask, because of the disability as defined by the Americans with Disabilities Act;

(3) a person for whom wearing a mask would create a risk to workplace health, safety, or job duty as determined by applicable workplace safety guidelines or federal regulations.

(d) Any person who does not comply with the requirement to wear a mask that completely covers their mouth and nose may be barred from entering or remaining on or in any terminal, station, train, facility, or conveyance of any authority covered by this Part and also may be fined \$50 per occurrence. This rule shall be enforced by each of the authorities on or in its terminals, stations, trains, facilities, or conveyances by any person authorized by such authority to enforce its own rules and pursuant to the procedures established by such authority for enforcing violations of its rules.

This notice is intended to serve only as a notice of emergency adoption. Regulatory Impact Statement

Statutory authority: Section 1266(4) of the Public Authorities Law provides that the Metropolitan Transportation Authority may adopt rules and regulations governing the conduct and safety of the public as it may deem necessary, convenient or desirable for the use of any transportation facility and related services operated by it or any of its operating agencies. New York State Department of Health requires the wearing of masks while on public transit.

Legislative objectives: The Legislature has conferred on the Metropolitan Transportation Authority and its operating agencies the authority to ensure the safety of their passengers and employees. They have previously exercised that authority to adopt emergency rules of conduct governing the conduct and safety of the public in the use of their facilities by requiring persons to wear masks. The Legislature also expects that the Metropolitan Transportation Authority and its operating agencies will comply with applicable federal law including CDC Orders and/or the Executive Orders of the Governor of the State of New York, which this new emergency rule will ensure going forward.

Needs and benefits: The proposed rule is necessary to safeguard public health and safety to ensure that persons who rely on the Metropolitan Transportation Authority's subways, buses, and commuter trains to get to and from work and to travel around the New York City metropolitan area fully comply with all CDC Orders, Executive Orders and/or New York State or Federal regulations requiring that persons wear masks over the mouth and nose when traveling on trains, subways, buses and conveyances and while indoors at terminals, stations or facilities to try to limit the transmission of COVID-19 when necessary.

Costs:

(a) Regulated parties. The proposed rule governing conduct and safety does not impose new costs on passengers or others.

(b) State and local government. The proposed rule governing conduct and safety will not impose any new costs on State or local governments.

Local government mandates: The proposed rule does not impose any new programs, services, duties or responsibilities on local government. The New York City Police Department's Transit Bureau is already responsible with others in enforcing the New York City Transit Authority's Rules Governing the Conduct and Safety of the Public, and the MTA Police Department is responsible for enforcing the comparable rules and regulations governing the conduct and safety of the public on trains and stations operated by the Metropolitan Transportation Authority's two commuter railroads.

Paperwork: The proposed rule does not impose any new reporting requirements.

Duplication: The proposed rule does not duplicate, overlap, or conflict with any State or Federal rule.

Alternatives: No significant alternatives to this rule was considered.

Federal standards: The proposed amended rule does not exceed any Federal minimum standards.

Compliance schedule: There is no compliance schedule imposed by these proposed amended rules. Once adopted, the emergency rule governing the conduct and safety of the public will be effective immediately.

Regulatory Flexibility Analysis, Rural Area Flexibility Analysis and Job Impact Statement

A regulatory flexibility statement for small business and local governments, a rural area flexibility analysis, and a job impact statement are not required for this rulemaking proposal because it will not adversely affect small businesses, local governments, rural areas, or jobs.

PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

A Debt Financing Arrangement with Respect to a Proposed Solar Generation Project

I.D. No. PSC-38-22-00003-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering a petition filed by Hecate Energy Cider Solar, LLC, seeking flexible financing authorization under lightened regulation.

Statutory authority: Public Service Law, sections 5, 64, 65, 66 and 69

Subject: A debt financing arrangement with respect to a proposed solar generation project.

Purpose: To consider the requested financing arrangement, and if approved, what regulatory conditions should apply.

Substance of proposed rule: The Public Service Commission (Commission) is considering a petition filed by Hecate Energy Cider Solar, LLC (Hecate) on August 25, 2022, requesting flexible financing approval under Section 69 of the Public Service Law.

According to the petition, Hecate is the owner of the Hecate Energy Cider Solar Farm, an approximately 500 megawatt solar generating facility in the Towns of Elba and Oakfield, Genesee County, New York (the Project). Hecate seeks authorization to issue up to \$350 million of long-term debt (the Financing). Hecate also seeks authority to guarantee and pledge ownership interests in itself and its assets as collateral security for the repayment of that debt at some time after the Commercial Operation Date of the Project. The petition states that the proposed Financing is for a statutory purpose – the construction and operation of a new, Major Renewable Energy Generating Facility. The petition also asserts that approval of the Financing will ultimately strengthen Hecate's creditworthiness, and ability to provide cost-effective, safe, and reliable service.

Hecate also seeks flexibility to modify, without prior Commission approval, the identity of the financing entities, payment terms, and the amount financed, up to the proposed \$350 million limit. Hecate asserts that approval of such flexibility is consistent with existing Commission precedent regarding lightly regulated entities.

The full text of the petition and the full record of the proceeding may be reviewed online at the Department of Public Service web page: www.dps.ny.gov. The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

I.D. No. PSC-38-22-00008-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering whether the Long Island Offshore Wind Export Public Policy Transmission Need (PPTN) evalu-

Statutory authority: Public Service Law, sections 4(1), 5(1)(b), (2), 65(1), 66(1), (2) and (5)

Subject: Consideration of a Long Island Offshore Wind Export PPTN under the NYISO's planning process.

Purpose: To determine whether the NYISO should proceed to select a solution to the identified Long Island Offshore Wind Export PPTN.

Substance of proposed rule: The Public Service Commission (Commission) is considering the results of the Long Island Offshore Wind Export Public Policy Transmission Need (PPTN) Viability and Sufficiency Assessment (Assessment) filed by the New York Independent System Operator, Inc. The PPTN Assessment addresses the proposed solutions the NYISO received upon soliciting responses to the PPTN for increasing transmission capability from Long Island into Southeastern New York related to the export of offshore wind, as was initially identified by the Commission in its "Order Addressing Public Policy Requirements for Transmission Planning Purposes," issued in this proceeding on March 19, 2021.

The full text of the Assessment and the full record of the proceeding may be reviewed online at the Department of Public Service web page: www.dps.ny.gov. ACTION PENDING INDEX

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.

Agency code	Issue number	Year published	Serial number	Action Code

In F-2022-0309 or the "Hempstead Bay - Hassocks Restoration Project", the applicant – Nassau County Department of Public Works – proposes the removal of abandoned sewage infrastructure and restoration of deteriorated marsh habitat. Additional low marsh habitat would be created behind an existing bulkhead at Pearsalls Hassock, and mosquito ditches on South Black Banks Hassock would be strategically filled to improve tidal hydrology and facilitate marsh resiliency. The project includes the following components:

- Pearsalls Hassock: Demolition of a former sludge loading dock and associated inland infrastructure related to historic sludge storage (i.e., sludge tanks, control structures, generator building) on Pearsalls Hassock. This component also includes stabilization of failing shoreline banks and restoration of native habitats, including a fringe low marsh habitat behind an existing bulkhead. All disturbed vegetated areas will be restored with native maritime plant species. Hereafter, this component is referred to as the Pearsalls Restoration.
- South Black Banks Hassock: Ditch remediation and targeted runnel construction in an area of dense mosquito ditches on South Black

Banks Hassock to promote the natural resiliency of this sensitive tidal marsh habitat to future sea level rise. Hereafter, this project is referred to as the South Black Banks Restoration.

The proposed project will take place on Pearsalls Hassock, South Black Banks Hassock and low lying salt marsh island situated in West Hempstead Bay in the Town of Hempstead, Nassau County Channel. The purpose of this project is to restore historic site conditions within the Western Bays to enhance the ecological functions and services of this tidal estuary. The project is part of a transformative environmental and water quality initiative known as the Western Bays Resiliency Initiative, which aims to enrich the Western Bays as a recreational, economic, social, and environmental resource to Long Island and the State of New York.

The Project includes the removal and replacement of existing assets for an overall line conductor clearance to meet National Electric Safety Code (NESC). The Project involves minor maintenance at multiple structures, the replacement of seventeen (17) structures, and the full removal of three (3) structures. Additionally, a new switch structure, Structure 3A, on the Maplewood-Riverside transmission line and associated permanent access road will be installed. Existing gravel access roads that may require additional stone will be used throughout the project. The installation of one (1) new access road to access the new switch structure will also be needed. No tree clearing is anticipated to be required for this Project, only minor brush clearing. Structures to be replaced will be in-kind, at the same location of the previously located structure. Steel pole structures will be installed by the hole being augured to about 10-feet deep, and excavated soils will be segregated and stored on site. Once the pole is installed the excavated material will be backfilled around the structure. No additional fill will be needed for the installation of the structures.

road to proposed Structure 3A off Simmons Lane in the Village of Menands, this will result in +/-21,305-sq ft (0.49-ac) of fill and grading in the regulated 100-ft upland adjacent area, and +/-1,377-sq ft (0.03-ac) of permanent fill to Fisher Wetland 001 (NYSDEC TS-9).
