State agencies must specify in each notice which proposes a rule the last date on which they will accept public comment. Agencies must always accept public comment: for a minimum of 60 days following publication in the *Register* of a Notice of Proposed Rule Making, or a Notice of Emergency Adoption and Proposed Rule Making; and for 45 days after publication of a Notice of Revised Rule Making, or a Notice of Emergency Adoption and Revised Rule Making in the *Register*. When a public hearing is required by statute, the hearing cannot be held until 60 days after publication of the notice, and comments must be accepted for at least 5 days after the last required hearing. When the public comment period ends on a Saturday, Sunday or legal holiday, agencies must accept comment through the close of business on the next succeeding workday.

***For notices published in this issue:***

- the 60-day period expires on June 25, 2023
- the 45-day period expires on June 10, 2023
- the 30-day period expires on May 26, 2023

## Be a part of the rule making process!

The public is encouraged to comment on any of the proposed rules appearing in this issue. Comments must be made in writing and must be submitted to the agency that is proposing the rule. Address your comments to the agency representative whose name and address are printed in the notice of rule making. No special form is required; a handwritten letter will do. Individuals who access the online *Register* ([www.dos.ny.gov](http://www.dos.ny.gov)) may send public comment via electronic mail to those recipients who provide an e-mail address in Notices of Proposed Rule Making. This includes Proposed, Emergency Proposed, Revised Proposed and Emergency Revised Proposed rule makings.

To be considered, comments should reach the agency before expiration of the public comment period. The law provides for a minimum 60-day public comment period after publication in the *Register* of every Notice of Proposed Rule Making, and a 45-day public comment period for every Notice of Revised Rule Making. If a public hearing is required by statute, public comments are accepted for at least five days after the last such hearing. Agencies are also required to specify in each notice the last date on which they will accept public comment.

When a time frame calculation ends on a Saturday or Sunday, the agency accepts public comment through the following Monday; when calculation ends on a holiday, public comment will be accepted through the following workday. Agencies cannot take action to adopt until the day after expiration of the public comment period.

The Administrative Regulations Review Commission (ARRC) reviews newly proposed regulations to examine issues of compliance with legislative intent, impact on the economy, and impact on affected parties. In addition to sending comments or recommendations to the agency, please do not hesitate to transmit your views to ARRC:

# RULE MAKING ACTIVITIES

Each rule making is identified by an I.D. No., which consists of 13 characters. For example, the I.D. No. AAM-01-96-00001-E indicates the following:

- AAM -the abbreviation to identify the adopting agency  
01 -the *State Register* issue number  
96 -the year  
00001 -the Department of State number, assigned upon receipt of notice.  
E -Emergency Rule Making—permanent action not intended (This character could also be: A for Adoption; P for Proposed Rule Making; RP for Revised Rule Making; EP for a combined Emergency and Proposed Rule Making; EA for an Emergency Rule Making that is permanent and does not expire 90 days after filing.)

Italics contained in text denote new material. Brackets indicate material to be deleted.

### EMERGENCY RULE MAKING

#### Violations, Hearings and Enforcement

**I.D. No.** OCM-49-22-00024-E

**Filing No.** 301

**Filing Date:** 2023-04-06

**Effective Date:** 2023-04-06

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

**Action taken:** Addition of Part 133 to Title 9 NYCRR.

**Statutory authority:** Cannabis Law, section 13

**Finding of necessity for emergency rule:** Preservation of public health, public safety and general welfare.

**Specific reasons underlying the finding of necessity:** Emergency action is necessary for the preservation of the public health, safety and general welfare to ensure that Cannabis Control Board (Board) can take punitive action against any person issued a license, registration, or permit by the Board who is found to be in violation of Cannabis Law or other applicable regulations.

The Legislature intended to decriminalize, regulate, control, and tax adult-use cannabis and cannabis products, generate significant new revenue, make substantial investments in communities and people most impacted by cannabis criminalization, and reduce participation of otherwise law-abiding citizens in the unlawful market. The emergency regulations accomplish this objective by authorizing the Office of Cannabis Management (the Office) to initiate investigations against licensed entities that result in a range of categorized violation by severity, where

the violation is an immediate and severe threat to public health and safety and emergency action is warranted, including summary suspension, to where the violation is inconsistent with the orderly operation of a regulated business. The emergency regulations will also enable the Office and Board to take action against unlicensed entities that are engaged in unlawful cannabis related activities that poses an immediate threat to the public health or safety. The Office would be further empowered to seize any and all cannabis and cannabis products from unlicensed entities, as well as require such entity to cease all cannabis related activity. The Office may also refer such investigations to the Department of Taxation and Finance, the district attorney, or any other civil or criminal investigative or enforcement agencies. This will also provide the Office with the ability to hold hearings in response to violations of the Cannabis Laws, related regulations or guidance, or of this emergency rule.

The emergency addition of Part 133 addresses many issues by ensuring that there are regulations in place regarding violations, hearings and enforcement of Cannabis Law before the issuance of Conditional Adult-Use Retail Dispensary licenses and before laboratory-tested adult-use cannabis products are sold to the general public. This addition further ensures actions to protect public health and safety can be taken regarding the Cannabis Laboratories permitted under 9 NYCRR Part 130. This addition protects the public safety and general welfare by ensuring the Board can take punitive action against any person issued a license, registration or permit by the Board who is found to be in violation of Cannabis Law or other applicable regulations.

Therefore, emergency action is necessary at the November 21st Board meeting for the preservation of the public health, safety and general welfare to ensure that Board can take punitive action against any person issued a license, registration or permit by the Board who is found to be in violation of Cannabis Law or other applicable regulations. This emergency action will be effective for 120 days pursuant to Cannabis Law § 13(5) and will expire on August 3, 2023.

**Subject:** Violations, Hearings and Enforcement.

**Purpose:** The proposed rule establishes the parameters around violations, hearings, and enforcement which accords with the Cannabis Law and creates requirements that are intended to further protect public health, safety, and welfare by preventing unlawful cannabis or unsafe practices from permeating the marketplace.

**Substance of emergency rule (Full text is posted at the following State website: [cannabis.ny.gov](http://cannabis.ny.gov)):** As required by section 13, 16, 17, 89, 132, and 133 of the Cannabis Law, Chapter II of Subtitle B of Title 9 (Executive) of the Official Compilation of Codes, Rules and Regulations of the State of New York is amended, and new Part 133 added, to be effective upon filing with the Department of State.

#### § 133.1 Definitions

Defines all terms used for Part 133, including but not limited to, administrative law judge (ALJ), debarment, investigation, and party.

#### § 133.2 Denial of Requests for Change of License or Renewals of License

Establishes a process in which the Office may approve or deny a change to a license. Requires the Office to notify the licensee whether the request was approved. If such request was not approved, requires the Office to identify the reasons, including any person or a particular offense or incident that does not satisfy requirements under the Cannabis Law, applicable regulations, or related guidance. Licensees shall have the opportunity to cure or request a conciliation conference. Such conciliation conference includes requirements for timely filing for such request and potential inspections for compliance by the conferee or the Office. Establishes a process for a hearing before an ALJ, but only after the licensee and the Office fail to agree on a proposed resolution. Requires the licensee to specifically identify facts and issues in dispute and state the position before the ALJ at the hearing.

#### § 133.3 Compliance, Inspections, and Enforcement Investigation

Authorizes the Office to conduct compliance inspections or enforce-

ment investigations of the licensee and any premises licensed by the Board, and any affiliated vehicles owned, leased, or utilized by the licensee. Authorizes the Office to examine and inspect any records held or maintained by the licensee. Examination and inspection may include interviews of individuals who under operation of a subpoena could be compelled to produce papers or other documents necessary for an investigation. The premises would be subject to inspection by authorized representatives of the Office, any peace officer, or a police officer. Requires licensees to make themselves available and present for inspections and investigations required by the Office. Establishes the ability of Office representatives to direct licensees to send any cannabis, cannabis samples or products to a laboratory for testing. Provides for immediate summary suspension of a license in the case of a licensee not making themselves available for an inspection or an investigation, for not providing any documents and information requested by the Office, or by not allowing access to the licensed premises or not cooperating with Office representatives. Provides for seizure of cannabis or cannabis products and a stop order being issued during an inspection or investigation by authorized OCM representatives.

#### § 133.4 Violations

Creates five categories of violations, ranging in severity at Category 1 where the violation is an immediate and severe threat to public health and safety and emergency action is warranted, including summary suspension, to Category 5 where the violation is inconsistent with the orderly operation of a regulated business. Establishes standards where a licensee may not destroy, damage, or conceal potential evidence of a violation unless they are engaged in a corrective action plan or remediation as approved by the Office. Authorizes the Office to implement enforcement actions upon license holders in response to violations of the Cannabis Law or related regulations, and sanctions may include but are not limited to civil penalties, fees, suspension, debarment, or referral to law enforcement. The Office may impose multiple enforcement actions or sanctions under Part 133 that may be applied concurrently or consecutively.

#### § 133.5 Corrective Action Plan

Requires the Office to document any violations or noncompliance identified through inspection or investigation in a statement of findings, which shall be responded to by the licensee in a written corrective action plan within fifteen calendar days of the date of the statement. Such plan must address all violations and areas of noncompliance cited, an assessment and analysis of the violation, a procedure of how the licensee will correct such violation, an explanation of how proposed corrective actions will be implemented and maintained, and the proposed date violations will be corrected. Requires licensees to submit corrective action plans to the Office within 24 hours of notification of such deficiency if such violation immediately jeopardizes the health and safety of the public. Failure by licensees to comply with these requirements may result in revocation, a civil penalty, or permanent disbarment from engaging in a business transaction with any person licensed under the Cannabis Law.

#### § 133.6 Summary Suspension and Stop Work Orders

Authorizes the Office to issue summary suspension orders or stop work orders to any licensee that has committed a Category 1 violation, any violation that posed a severe and imminent risk to public health or safety, or failed to make themselves or any documents available during an inspection or investigation by the Office. Requires a licensee to immediately cease all business activity and the licensee must submit a corrective action plan. Allows licensees to request an expedited hearing. Failure to comply with the summary suspension order or stop work order may result in the immediate revocation of any license possessed by the licensee and may prohibit the issuance or any new or renewal of any existing license. Authorizes the Office to issue a stop work order to any unlicensed person engaged in any cannabis related activity that poses an immediate threat to the public health or safety, where such activity may be further referred to the Department of Taxation and Finance, the district attorney, or any other civil or criminal investigative or enforcement agencies. Requires such unlicensed person to immediately cease all cannabis related activity and authorizes the Office to seize any and all cannabis and cannabis related products.

§ 133.7 Grounds for Suspension, Cancellation, Revocation, or Debarment of a License, and Denial of Renewal or Change of Licenses

Authorizes the Office to suspend, cancel, or revoke a license, or debar a person from licensure, and deny the renewal of a license or change of license where the information from such licensee was deceptive, false, or fraudulent or they failed to implement a corrective action plan. Additionally, the Office may suspend, debar, or deny renewal of such licensee if they committed or conspired to commit activity unauthorized by the Cannabis Law, including the diversion of cannabis or cannabis products.

#### § 133.8 Notice of Hearing and Statement of Charges

Requires the Office to provide a licensee charged with a violation(s) with a reference to any applicable statutes and regulations that serve as the basis of the violation and a statement of the matters declared comprising

the statement of charges. The notice shall also include the time, date, and place of the hearing, and shall be served at least 30 days prior to such hearing. If the licensee does not seek conciliation conference prior to the date of the hearing, the licensee shall have been deemed to have waived that right and the hearing will be held as scheduled.

#### § 133.9 Request for Adjournment

Allows for an adjournment of a hearing, provided it is made in writing and submitted to the ALJ and other parties prior to the hearing. Adjournments are only granted by the ALJ and only after consultation with all parties.

#### § 133.10 Answer or Responsive Pleadings

Provides for serving or answering pleadings, provided they are signed by the party or their attorney, and must specify which allegations are admitted, which are denied, and which the party has insufficient information to form an opinion. Such answers or responsive pleadings must be served no later than seven days before the hearing date.

#### § 133.11 Amendment of Pleadings

Allows for any party to amend or supplement a pleading at any time prior to the issuance of the ALJ's determination upon approval of the ALJ.

#### § 133.12 Service of Papers

Allows for all notices and papers connected with a hearing, other than the notice of hearing and statement of charges, to be served by ordinary mail.

#### § 133.13 Disclosure

Provides that there shall be no disclosure between parties, including but not limited to documents, witness lists, depositions, or other discovery. The ALJ is not bound by the rules of discovery observed by the courts and may not require disclosure. Requires any party to disclose certain information, including, but not limited to, names of witnesses, list of documentary evidence, or other materials the ALJ demands, to other parties to the hearing if the Office is intending to suspend, cancel, or revoke such license, deny such license renewal, or debar.

#### § 133.14 Responsibilities of the Administrative Law Judge

Establishes responsibilities for the ALJ, including scheduling and conducting all hearings. The ALJ will oversee all statements of charges and motions filed under Part 133 and make any such determinations. Requires the ALJ to conduct hearings in a fair and impartial manner and have the power to rule upon requests, administer oaths and affirmations, issue subpoenas, summon and examine witnesses, admit and exclude evidence, hear testimony, dismiss charges, among other powers.

#### § 133.15 Administrative Law Judge Hearings

Allows for parties to appear in person or through representation by an attorney and provides for the structure of how hearings will be conducted by the ALJ, including but not limited to the swearing in of witnesses, the acceptance of evidence, and how the official record will be recorded, consolidation and severance, intervention of another party, and the record to be kept.

#### § 133.16 Subpoenas

Requires that any subpoena(s) issued by the Office as authorized by the Board, shall be governed by the Civil Practice Law and Rules.

#### § 133.17 Stipulations and Consent Orders

Provides for a stipulation where parties may enter for the resolution of any or all issues prior to a Board decision, and it also provides the Office an opportunity to issue a consent order upon agreement or stipulation of the parties which will have the same force and effect as an order. Such stipulations will require licensees to admit guilt to at least one of the acts of misconduct alleged, agree not to contest the allegations, or assert they cannot successfully defend themselves and they will either surrender their license or agree to a penalty.

#### § 133.18 Administrative Law Judge's Determination

Requires the ALJ to prepare a determination following a hearing, including findings of facts, legal conclusions, and a proposed penalty, if any, to be submitted to all parties and the Board.

§ 133.19 Filing of Exceptions to Administrative Law Judge's Determination

Allows for any party to submit exceptions to the determination to the Board for review within 30 days of the ALJ determination. Exceptions may include findings of fact, general comments on the appropriateness of the determination, and an alternative proposed determination for consideration by the Board.

#### § 133.20 Decision of the Board

Requires the Board to issue decisions, embodied in a written order and within 120 days, after reviewing the ALJ's determinations if an exception to the determination has been taken, however, the Board may delegate that authority to the Office.

#### § 133.21 Appeal of the Decision of the Board

Granting all parties the right to appeal the decision of the Board by commencing an Article 78 proceeding.

#### § 133.22 Cannabis Laboratory and Sampling Firm Specific Actions

Provides for specific actions related to cannabis laboratories and

sampling firms, including a final determination being provided within 30 days from the date of notice of denial. The Board is empowered to reconsider affirm, revoke, or modify the denial, allow issuance of a permit conditional on maintenance of corrective action, or require that a cannabis laboratory or sampling firm take corrective action. Within ten business days of receipt of the order, the laboratory or firm may submit additional material to the Office or a demand a hearing, or both. Cannabis laboratories or sampling firms' licenses may be suspended or revoked following a hearing.

§ 133.23 Severability

Provides for the independent treatment of one provision to another such that in the event any provision or its application is found to be invalid the remaining provisions continue to be valid.

**This notice is intended** to serve only as a notice of emergency adoption. This agency intends to adopt the provisions of this emergency rule as a permanent rule, having previously submitted to the Department of State a notice of proposed rule making, I.D. No. OCM-49-22-00024-EP, Issue of December 7, 2023. The emergency rule will expire August 3, 2023.

**Text of rule and any required statements and analyses may be obtained from:** Diana Yang, Office of Cannabis Management, 1220 Washington Avenue, Albany, NY 12207, (888) 626-5151, email: regulations@ocm.ny.gov

**Regulatory Impact Statement**

Statutory Authority:

Sections 13, 16, 17, 89, 132, and 133 of the Cannabis Law provides that the Cannabis Control Board (Board) shall propose such rules and regulations as the Board may deem necessary or proper to fully effectuate the provisions of the Cannabis Law. This emergency rule shall include the enhancement of violations and the bolstering of hearings and enforcement processes by the Office.

Legislative Objectives:

The Legislature intended to decriminalize, regulate, control, and tax adult-use cannabis and cannabis products, generate significant new revenue, make substantial investments in communities and people most impacted by cannabis criminalization, and reduce participation of otherwise law-abiding citizens in the unlawful market. The emergency regulations accomplish this objective by authorizing the Office to initiate investigations against licensed entities that result in a range of categorized violation by severity, where the violation is an immediate and severe threat to public health and safety and emergency action is warranted, including summary suspension, to where the violation is inconsistent with the orderly operation of a regulated business. The emergency regulations will also enable the Office and Board to take action against unlicensed entities that are engaged in unlawful cannabis related activities that poses an immediate threat to the public health or safety. The Office would be further empowered to seize any and all cannabis and cannabis products from unlicensed entities, as well as require such entity to cease all cannabis related activity. The Office may also refer such investigations to the Department of Taxation and Finance, the district attorney, or any other civil or criminal investigative or enforcement agencies. This will also provide the Office with the ability to hold hearings in response to violations of the Cannabis Laws, related regulations or guidance, or of this emergency rule.

Needs and Benefits:

The emergency rule establishes the parameters around violations, hearings, and enforcement. Rules proposed for violations, hearings, and enforcement accords with the Cannabis Law and creates requirements that are intended to further protect public health, safety, and welfare by preventing unlawful cannabis or unsafe practices from permeating the marketplace. This emergency rule includes additional violations in addition to those already included in the Cannabis Law, Tax Law, and Penal Law and any related regulations and guidance. Such additional violations include penalties and ameliorative relief for licensed entities, including conciliation conferences, fair hearings, stipulations and consent orders, and an appeal process. The emergency rule also allows the Office to take any additional required action against unlicensed entities engaged in unlawful cannabis-related activities to ensure licensed businesses that properly follow all laws, regulations, and guidance will flourish.

Costs:

Costs for the Implementation of, and Continuing Compliance with the Regulation to the Regulated Entity:

The Office discussed anticipated costs for violations, hearings, and enforcement with other states who have already implemented and currently oversee existing legalized cannabis programs. Violation penalty costs will vary significantly and will fall primarily on individual licensees, not oversight entities. There are statutorily outlined penalties in the Cannabis Law ranging in cost from \$50 to \$10,000. There are also statutorily outlined criminal penalties in the Cannabis Law, as well as in the Tax Law and Penal Law, ranging from a violation to felony-level offenses, which may also be accompanied by a fine.

Costs to State and Local Governments:

The emergency rule does not require the state or local government to perform any additional tasks beyond those contemplated under the Cannabis Law. When the Cannabis Law was enacted, it was anticipated a certain level of collaboration may be needed by state and local enforcement entities for the Office to effectuate its duties.

Costs to the Office of Cannabis Management:

The Office of Cannabis Management anticipates that violations, hearings, and enforcement initiatives will require Office resources to support the development and review and ongoing monitoring, compliance, and enforcement of licensees, as well as unlicensed entities engaged in unlawful cannabis-related activities. Staff will be required to inspect, investigate, review, and determine potential violations by licensees and if they rise to the level of summary suspension or proposed revocation. However, the Office anticipated these costs and is in line with the legislative intent of the Cannabis Law.

Local Government Mandates:

The emergency rule does not impose any new programs, services, duties or responsibilities on local government. However, when the Cannabis Law was enacted, it was anticipated a certain level of collaboration may be needed by local law enforcement entities for the Office to effectuate its duties.

Paperwork:

The paperwork associated with violations, hearings, and enforcement of licensees and unlicensed entities engaged in unlawful cannabis-related activities New York State will include maintaining records of inspections, any investigations, conciliation conferences, violations, summary suspensions, hearing records, among other requirements. It is anticipated that inspections will be ongoing.

Duplication:

The emergency rule does not duplicate any existing State or federal requirements that are applicable to regulated cannabis violations, hearings, or enforcement.

Alternatives:

There were no significant alternatives proposals to be considered for the adoption of the emergency regulations during the regulatory process as the alternative would have been to do nothing or to establish a more flexible violation, hearing, and enforcement schematic which did not have rules, but policy decisions. Doing nothing was not a significant alternative because there was a need to provide licenses for adult-use purposes to address the legislative intent to regulate, control, and tax cannabis, generate significant new revenue, make substantial investments in communities and people most impacted by cannabis criminalization, reduce participation of otherwise law-abiding citizens in the illicit market, end the racially disparate impact of existing cannabis laws, create new industries, and increase employment. To establish such a lofty violation, hearing, and enforcement process, SAPA would have mandated that where there are hard and fast rules and the flexibility of establishing the procedure through guidance was also not a significant alternative because there were going to be things required of each applicant where there would be no flexibility.

Federal Standards:

Federal requirements do not include provisions for regulated cannabis violations, hearings, or enforcement.

Compliance Schedule:

The emergency regulations will take effect upon filing with the Department of State.

**Regulatory Flexibility Analysis, Rural Area Flexibility Analysis and Job Impact Statement**

A Regulatory Flexibility Analysis, Rural Area Flexibility Analysis and Job Impact Statement are not being submitted with these rules because there have been no changes to the language and therefore do not necessitate any changes to the previously published Regulatory Flexibility Analysis, Rural Area Flexibility Analysis and Job Impact Statement.

## Education Department

### EMERGENCY RULE MAKING

#### Continuing Education Requirements for Licensed Optometrists Certified to Prescribe and Use Therapeutic Pharmaceutical Agents

**I.D. No.** EDU-04-23-00004-E

**Filing No.** 305

**Filing Date:** 2023-04-10

**Effective Date:** 2023-04-10

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

**Action taken:** Repeal of section 66.6; and addition of new section 66.6 to Title 8 NYCRR.

**Statutory authority:** Education Law, sections 207, 6504, 6507, 7101, 7101-a; L. 2021, ch. 506

**Finding of necessity for emergency rule:** Preservation of public health and general welfare.

**Specific reasons underlying the finding of necessity:** Optometrists may, since the enactment of Chapter 517 of the Laws of 1995 (Chapter 517), obtain a specialty certification to use topically applied therapeutic pharmaceutical agents for the treatment or prevention of ocular disease. Pursuant to Education Law § 7101-a(2), certified optometrists are held to the same standard of care in the diagnosis and treatment of patients, including the use of pharmaceutical agents, as that degree of skill and proficiency commonly exercised by a physician in the same community. Since Chapter 517's enactment, New Yorkers have had more access to primary eye care services provided by optometrists who have obtained this specialty certification.

Chapter 506 of the Laws of 2021 (Chapter 506) builds upon the authority established in Chapter 517 and authorized licensed and certified optometrists to treat patients with additional topical and oral medications for certain ocular diseases. This amendment aligns New York with the rest of the country that have granted optometrists this flexibility. It also establishes requirements to assist in ensuring that the prescribing optometrists are prepared for this responsibility.

As detailed below, Chapter 506 amends the Education Law by, among other things, requiring licensed optometrists seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents<sup>1</sup> to obtain additional continuing education and complete a course and examination approved by the Department.<sup>2</sup> Additionally, Chapter 506 permits the Department, under certain circumstances, to: issue a conditional registration to an optometrist who fails to meet the continuing education requirements; make an adjustment to the continuing education requirements; and exempt optometrists not engaged in practice from the continuing education requirements. Chapter 506 also establishes fees associated with continuing education.

Section 9 of Chapter 506, effective January 1, 2023, amends Education Law § 7101-a(7) by establishing the new continuing education requirements described above. However, the remainder of Chapter 506's sections are not effective until October 25, 2023.<sup>3</sup>

The proposed amendment repeals the existing section 66.6 of the Commissioner's regulations and adds a new section 66.6 to the Commissioner's regulations. This new provision implements section 9 of Chapter 506 by establishing updated continuing education requirements for licensed optometrists, including applicability of requirements, the number of continuing education hours required, proration, acceptable formal continuing education, types of learning activities, and prohibitions. It also describes how the requirements apply to renewal of certification and for licensees with a lapse in practice and for a conditional registration. Other provisions address the requirements pertaining to continuing education records and the maintenance thereof; the measurement of continuing education studies; the process by which the department will review and approve sponsors of continuing education; and fees associated with continuing education.

The proposed amendment was presented to the Professional Practice Committee for recommendation to the Full Board for adoption as an emergency rule at the January 2023 meeting of the Board of Regents, effective January 10, 2023. Since the Board of Regents meets at fixed intervals, the earliest that the proposed rule can be presented for adoption, after expira-

tion of the required 60-day comment period provided for in the State Administrative Procedure Act (SAPA) sections 201(1) and (5), would be the May 15-16, 2023 Regents meeting. Furthermore, pursuant to SAPA section 203(1), the earliest effective date of the proposed rule, if adopted at the May meeting, would be May 31, 2023, the date the Notice of Adoption would be published in the State Register.

However, the emergency rule will expire on April 9, 2023. Therefore, a second emergency action is necessary at the March 2023, effective April 10, 2023, for the preservation of the public health and general welfare in order to enable the New York State Education Department (Department) to timely implement section 9 of Chapter 506, which became effective January 1, 2023 and to ensure the emergency action taken at the January 2023 meeting remains continuously in effect.

It is anticipated that the proposed rule will be presented to the Board of Regents for adoption as a permanent rule at the May 2023 meeting, which is the first scheduled meeting, after expiration of the 60-day public comment period mandated SAPA for state agency rule making.

<sup>1</sup> Section 1 of Chapter 506, effective October 25, 2023, defines three types of therapeutic pharmaceutical agents: topical therapeutic pharmaceutical agents, therapeutic pharmaceutical agents for the treatment of glaucoma and ocular hypertension, and oral therapeutic pharmaceutical agents.

<sup>2</sup> The applicant would be required to complete the course and pass the examination within five years of the Department's approval of the initial certification course or the initial examination, whichever is later.

<sup>3</sup> Implementing regulatory amendments for these provisions of Chapter 506 will be brought before the Board of Regents at a later date.

**Subject:** Continuing education requirements for licensed optometrists certified to prescribe and use therapeutic pharmaceutical agents.

**Purpose:** To implement section 9 of chapter 506 of the Laws of 2021.

**Substance of emergency rule (Full text is posted at the following State website: <http://www.counsel.nysed.gov/rules/full-text-indices>):** The proposed amendment repeals the existing section 66.6 of the Commissioner's regulations and adds a new section 66.6 to the Commissioner's regulations. This new provision implements section 9 of Chapter 506 of 2022 by establishing updated continuing education requirements for licensed optometrists, including applicability of requirements, the number of continuing education hours required, proration, acceptable formal continuing education, types of learning activities, and prohibitions. It also describes how the requirements apply to renewal of certification and for licensees with a lapse in practice and for a conditional registration. Other provisions address the requirements pertaining to continuing education records and the maintenance thereof; the measurement of continuing education studies; the process by which the department will review and approve sponsors of continuing education; and fees associated with continuing education. A summary of the specific provisions of the new section 66.6 is as follows:

- Subdivision (a) defines the phrase "acceptable accrediting agency".
- Subdivision (b) sets forth the applicability of continuing education requirements, including exemptions and adjustments to the requirements.
- Subdivision (c) sets for the mandatory continuing education requirements including the general requirements for each triennial registration period; proration; acceptable formal continuing education, including acceptable subjects, types of learning activities, and courses of learning, and prohibitions; and requires that continuing education programs be approved in advance by the department.
- Subdivision (d) sets forth requirements for renewals of certification.
- Subdivision (e) sets forth continuing education requirements for lapses in practice.
- Subdivision (f) provides that the department may issue a conditional registration to a licensee who does not meet the continuing education requirements provided such licensee meets certain requirements.
- Subdivision (g) sets forth requirements for maintaining records of completed continuing education by licensees.
- Subdivision (h) sets forth the measurement of credits for continuing education study.
- Subdivision (i) sets forth requirements for sponsor approval.
- Subdivision (j) sets forth fees for the mandatory continuing education, licensees applying for a conditional registration, and organizations desiring to offer continuing education to licensee based on department review.

**This notice is intended** to serve only as a notice of emergency adoption. This agency intends to adopt the provisions of this emergency rule as a permanent rule, having previously submitted to the Department of State a notice of proposed rule making, I.D. No. EDU-04-23-00004-EP, Issue of January 25, 2023. The emergency rule will expire June 8, 2023.

**Regulatory Impact Statement****1. STATUTORY AUTHORITY:**

Section 207 of the Education Law grants general rule-making authority to the Board of Regents to carry into effect the laws and policies of the State relating to education.

Section 6504 of the Education Law authorizes the Board of Regents to supervise the admission to and regulation of the practice of the professions.

Paragraph (a) of subdivision (2) of section 6507 of the Education Law authorizes the Commissioner of Education to promulgate regulations in administering the admission to and the practice of the professions.

Section 7101 of the Education Law defines the practice of optometry.

Section 7101-a of the Education Law as amended by section 9 of Chapter 506 of the Laws of 2021 (Chapter 506) builds upon the authority established in Chapter 517 and authorized licensed and certified optometrists to treat patients with additional topical and oral medications for certain ocular diseases. Additionally, Chapter 506 permits the Department, under certain circumstances, to: issue a conditional registration to an optometrist who fails to meet the continuing education requirements; make an adjustment to the continuing education requirements; and exempt optometrists not engaged in practice from the continuing education requirements. Chapter 506 also establishes fees associated with continuing education.

**2. LEGISLATIVE OBJECTIVES:**

The proposed rule implements section 9 Chapter 506 of the Laws of 2021 (Chapter 506) effective January 1, 2023 by repealing the existing section 66.6 of the Commissioner's regulations and adding a new section 66.6 to the Commissioner's regulations. This new provision implements Chapter 506 by establishing updated continuing education requirements for licensed optometrists, including applicability of requirements, the number of continuing education hours required, proration, acceptable formal continuing education, types of learning activities, and prohibitions. It also describes how the requirements apply to renewal of certification and for licensees with a lapse in practice and for a conditional registration. Other provisions address the requirements pertaining to continuing education records and the maintenance thereof; the measurement of continuing education studies; the process by which the department will review and approve sponsors of continuing education; and fees associated with continuing education.

**3. NEEDS AND BENEFITS:**

The purpose of the proposed rule is to conform the Commissioner's regulations to Chapter 506, which amended the Education Law, by, among other things, requiring licensed optometrists seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents<sup>1</sup> to obtain additional continuing education and complete a course and examination approved by the Department.<sup>2</sup>

**4. COSTS:**

(a) Costs to State government: There are no additional costs to state government.

(b) Costs to local government: There are no additional costs to local government.

(c) Cost to private regulated parties: There are no mandatory costs to private regulated parties.

(d) Cost to the regulatory agency: There are no additional costs to the Department.

**5. LOCAL GOVERNMENT MANDATES:**

The proposed rule does not impose any program service, duty, responsibility, or other mandate on local governments.

**6. PAPERWORK:**

The proposed rule does not impose any paperwork mandates.

**7. DUPLICATION:**

There are no other state or federal requirements on the subject matter of the proposed rule. Therefore, the amendment does not duplicate other existing state or federal requirements.

**8. ALTERNATIVES:**

The proposed rule implements statutory requirements (Chapter 506). There are no significant alternatives to the proposed rule and none were considered.

**9. FEDERAL STANDARDS:**

Since there are no applicable federal standards, the proposed rule does not exceed any minimum federal standards for the same or similar subject areas.

**10. COMPLIANCE SCHEDULE:**

The proposed rule will take effect as an emergency rule on January 10, 2023. It is anticipated that the proposed rule will be presented to the Board of Regents for permanent adoption at the May 2023 Regents meeting. If adopted at the January 2023 Regents meeting, the proposed amendment to section 66.6 of the Commissioner's regulations will become effective on May 31, 2023. It is anticipated that the regulated parties will be able to comply with the proposed rule by the effective date.

<sup>1</sup> Section 1 of Chapter 506, effective October 25, 2023, defines three types of therapeutic pharmaceutical agents: topical therapeutic pharmaceutical agents, therapeutic pharmaceutical agents for the treatment of glaucoma and ocular hypertension, and oral therapeutic pharmaceutical agents.

<sup>2</sup> The applicant would be required to complete the course and pass the examination within five years of the Department's approval of the initial certification course or the initial examination, whichever is later.

**Regulatory Flexibility Analysis**

The purpose of the proposed rule is to implement section 9 of Chapter 506 of the Laws of 2021 (Chapter 506) which effective January 1, 2023 amends the Education Law by, among other things, requiring licensed optometrists seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents<sup>1</sup> to obtain additional continuing education and complete a course and examination approved by the Department.<sup>2</sup> Additionally, Chapter 506 permits the Department, under certain circumstances, to: issue a conditional registration to an optometrist who fails to meet the continuing education requirements; make an adjustment to the continuing education requirements; and exempt optometrists not engaged in practice from the continuing education requirements. Chapter 506 also establishes fees associated with continuing education.

The proposed amendment repeals the existing section 66.6 of the Commissioner's regulations and adds a new section 66.6 to the Commissioner's regulations. This new provision implements section 9 of Chapter 506 by establishing updated continuing education requirements for licensed optometrists, including applicability of requirements, the number of continuing education hours required, proration, acceptable formal continuing education, types of learning activities, and prohibitions. It also describes how the requirements apply to renewal of certification and for licensees with a lapse in practice and for a conditional registration. Other provisions address the requirements pertaining to continuing education records and the maintenance thereof; the measurement of continuing education studies; the process by which the department will review and approve sponsors of continuing education; and fees associated with continuing education.

The proposed rule does not impose any new reporting, recordkeeping, or other compliance requirements on local governments or have any adverse economic impact on small businesses or local governments. Because it is evident from the nature of the proposed amendment that it will not adversely affect small businesses or local governments, no affirmative steps were needed to ascertain that fact and none were taken. Accordingly, a regulatory flexibility analysis for small businesses and local governments is not required, and one has not been prepared.

<sup>1</sup> Section 1 of Chapter 506, effective October 25, 2023, defines three types of therapeutic pharmaceutical agents: topical therapeutic pharmaceutical agents, therapeutic pharmaceutical agents for the treatment of glaucoma and ocular hypertension, and oral therapeutic pharmaceutical agents.

<sup>2</sup> The applicant would be required to complete the course and pass the examination within five years of the Department's approval of the initial certification course or the initial examination, whichever is later.

**Rural Area Flexibility Analysis****1. TYPES AND ESTIMATED NUMBERS OF RURAL AREAS**

The proposed rule will apply to all optometrists, who are seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents to treat patients, regardless of their geographic location and includes such optometrists located in the 44 rural counties with less than 200,000 inhabitants and the 71 towns in urban counties with a population density of 150 per square mile or less. There are approximately 3,757 optometrists licensed and registered to practice in New York State and 394 of them (10.5%) reported that their permanent address of record is in a rural county of the State.

**2. REPORTING, RECORDKEEPING AND OTHER COMPLIANCE REQUIREMENTS, AND PROFESSIONAL SERVICES:**

The proposed amendment does not impose any reporting, recordkeeping or other requirements on optometrists seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents other than those required by statute. Optometrists seeking certification to use oral therapeutic pharmaceutical agents must meet the certification requirements for such certification, which, include among other things, completing a course and examination approved by the Department, submitting an application to the Department and paying a fee.

The proposed rule does not impose any professional services requirements on individuals or entities in rural areas.

**3. COSTS:**

The proposed rule will not impose any costs on optometrists certified to

use oral therapeutic pharmaceutical agents, other than those fees required by statute on all such optometrists in rural and other areas of this State.

#### 4. MINIMIZING ADVERSE IMPACT:

The proposed rule implements Chapter 506, which amends section 7101-a of the Education Law by requiring licensed optometrists seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents to obtain additional continuing education and complete a course and examination approved by the Department. Additionally, Chapter 506 permits the Department, under certain circumstances, to: issue a conditional registration to an optometrist who fails to meet the continuing education requirements; make an adjustment to the continuing education requirements; and exempt optometrists not engaged in practice from the continuing education requirements. Chapter 506 also establishes fees associated with continuing education. The statutory requirements do not make exceptions for individuals who live or work in rural areas. Thus, the Department has determined that the proposed rule's requirements should apply to all optometrists, regardless of their geographic location, to help ensure a uniform standard of continuing competency across the State.

Because of the nature of the proposed rule, alternative approaches for rural areas were not considered.

#### 5. RURAL AREA PARTICIPATION:

The proposed rule was developed to implement chapter 506 of the Laws of 2021 (Chapter 506) which is effective January 1, 2023 as a result of discussions with organizations, including statewide organizations, representing all parties having an interest in the practice of optometry. These organizations included the state board for optometry and professional associations representing the optometry profession. These groups have members who live or work in rural areas.

#### Job Impact Statement

The purpose of the proposed rule is to implement chapter 506 of the Laws of 2021 (Chapter 506) which effective January 1, 2023 amends the Education Law by, among other things, requiring licensed optometrists seeking to obtain and/or maintain their certification to prescribe and use oral therapeutic pharmaceutical agents to obtain additional continuing education and complete a course and examination approved by the Department. Additionally, Chapter 506 permits the Department, under certain circumstances, to: issue a conditional registration to an optometrist who fails to meet the continuing education requirements; make an adjustment to the continuing education requirements; and exempt optometrists not engaged in practice from the continuing education requirements. Chapter 506 also establishes fees associated with continuing education. This proposed amendment will improve the public's access to healthcare.

The proposed amendment repeals the existing section 66.6 of the Commissioner's regulations and adds a new section 66.6 to the Commissioner's regulations. This new provision implements section 9 of Chapter 506 by establishing updated continuing education requirements for licensed optometrists, including applicability of requirements, the number of continuing education hours required, proration, acceptable formal continuing education, types of learning activities, and prohibitions. It also describes how the requirements apply to renewal of certification and for licensees with a lapse in practice and for a conditional registration. Other provisions address the requirements pertaining to continuing education records and the maintenance thereof; the measurement of continuing education studies; the process by which the department will review and approve sponsors of continuing education; and fees associated with continuing education.

The proposed amendment will not have a substantial impact on jobs and employment opportunities. Because it is evident from the nature of the proposed rule that it will have no impact on jobs or employment opportunities attributable to its adoption or only potentially a positive impact, no further steps were needed to ascertain that fact and none were taken. Accordingly, a job impact statement is not required and one was not prepared.

### EMERGENCY RULE MAKING

**Removes Requirement That a Postdoctoral General Practice or Specialty Dental Residency Program Experience be Clinically Based**

**I.D. No.** EDU-04-23-00006-E

**Filing No.** 303

**Filing Date:** 2023-04-10

**Effective Date:** 2023-04-10

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

**Action taken:** Amendment of section 61.18 of Title 8 NYCRR.

**Statutory authority:** Education Law, sections 207, 6504, 6506, 6507, 6601, 6604; L. 2022, ch. 613

**Finding of necessity for emergency rule:** Preservation of public health and general welfare.

**Specific reasons underlying the finding of necessity:** The proposed rule is necessary to implement Chapter 613 of the Laws of 2022, which became effective November 21, 2023. The proposed rule conforms the Commissioner's regulations to Chapter 613, which amends Education Law § 6604(3) by removing the requirement that the postdoctoral general practice or specialty dental residency program experience required for dental licensure needs to be clinically based. Chapter 613 was designed to address that fact that certain well-recognized accredited dental residency programs in oral medicine, orofacial pain, and dental public health are excluded from satisfying the experience requirement for dentist licensure because they are not deemed to be 50 percent clinically based specialty residencies. This prevents qualified dental school graduates with accredited residency training from obtaining a license after spending two to three years in a dental specialty program. Chapter 613 eliminates this unnecessary restriction on dental residency programs. It recognizes that the Department is responsible for all formal outcome assessments evaluating all residencies for dentistry and related specialties. This will expand access to much needed dental services by increasing the number of dentists in New York.

The proposed rule implements the provisions of Chapter 613 by:

- removing the "clinical" definition;
- removing the requirement that the postdoctoral clinical dental residency program be completed in a nationally accredited "dental facility" for dental teaching purposes. This requirement may now be met by completing such residency program in a community health center or facility that is nationally accredited for teaching purposes;
- adding dental public health, orofacial pain, and oral medicine to the list of accredited residency programs in a dental specialty that can be used for meeting the experience requirement for licensure; and
- removing the requirement that, for each accredited residency program in a specialty of dentistry, at least 50 percent of the accredited residency program consist of clinical training in certain areas.

Additionally, the proposed amendment removes the requirement that the written statement for completion of the residency or specialty program be notarized. Instead, it requires that such written statement attest to the applicant's competence to practice the "completed dental specialty."

The proposed amendment was presented to the Professional Practice Committee for recommendation to the Full Board for adoption as an emergency rule at the January 2023 meeting of the Board of Regents, effective January 10, 2023. Since the Board of Regents meets at fixed intervals, the earliest that the proposed rule can be presented for adoption, after expiration of the required 60-day comment period provided for in the State Administrative Procedure Act (SAPA) sections 201(1) and (5), would be the May 15-16, 2023 Regents meeting. Furthermore, pursuant to SAPA section 203(1), the earliest effective date of the proposed rule, if adopted at the May meeting, would be May 31, 2023 the date the Notice of Adoption would be published in the State Register.

However, the emergency rule will expire on April 9, 2023. Therefore, a second emergency action is necessary at the March 2023 Regents meeting, effective April 10, 2023, for the preservation of the public health and general welfare in order to timely implement the provisions of Chapter 613 of the Laws of 2022, which became effective November 21, 2022 and to ensure the emergency action taken at the January 2023 meeting remains continuously in effect.

It is anticipated that the proposed rule will be presented to the Board of Regents for adoption as a permanent rule at the May 2023 meeting, which is the first scheduled meeting after expiration of the 60-day public comment period mandated by SAPA for state agency rule making.

**Subject:** Removes requirement that a postdoctoral general practice or specialty dental residency program experience be clinically based.

**Purpose:** To implement chapter 613 of the Laws of 2022.

**Text of emergency rule:** 1. Section 61.18 of the Regulations of the Commissioner of Education is amended to read as follows:

Section 61.18 Residency program requirement for dental licensure

(a) Definitions. As used in this section:

(1) ...

(2) [Clinical means relating to or involving the direct examination and treatment of patients.

(3) [Competent to practice dentistry means the level of knowledge and skills necessary to perform safely and independently the practice of dentistry consistent with the definition of the practice of dentistry in section 6601 of the Education Law.

(b) Residency program. To be acceptable to the department for purposes of licensure under section 6604 of the Education Law, a residency program shall meet the requirements of this section.

(1) The residency program shall be a postdoctoral [clinical] dental residency program in either general dentistry, or a specialty of dentistry as defined in paragraph (2) of this subdivision, of at least one year's duration in a hospital or [dental] facility accredited for teaching purposes by an acceptable national accrediting body, which is completed successfully by the applicant prior to the submission to the department of the application for licensure.

(2) The accredited residency program in a specialty of dentistry shall be in the specialty of endodontics, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, pediatric dentistry, periodontics, prosthodontics, oral and maxillofacial pathology, oral and maxillofacial radiology, dental anesthesiology, *dental public health, orofacial pain, oral medicine*, or another specialty of dentistry, as determined by the department [for which at least 50 percent of the accredited residency program consists of clinical training in one or more of the following areas: general dentistry, endodontics, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, pediatric dentistry, periodontics, prosthodontics, oral and maxillofacial pathology, oral and maxillofacial radiology, and/or dental anesthesiology].

(3) The accredited residency program shall include a formal written outcome assessment which is acceptable to the department.

(i) ...

(a) an acceptable [notarized] written statement by the residency program director attesting that the applicant has completed successfully the accredited residency program and is in the director's judgment competent to practice dentistry; and

(b) acceptable [notarized] written statement(s) by the residency program director who supervised the dental procedures performed by the applicant, and/or the attending dentist(s) who supervised the dental procedures performed by the applicant if different from the residency program director, attesting that the applicant completed independently, and to generally accepted professional standards for dentistry, two full crowns, two endodontically treated teeth, four restorations (two anterior, two posterior) and one periodontal case during the accredited residency program.

(ii) For an accredited residency program in a specialty of dentistry, as defined in paragraph (2) of this subdivision, the formal written outcome assessment used by the residency program shall be acceptable to the department if it includes an acceptable [notarized] written statement by the residency program director attesting that the applicant has successfully completed the accredited residency program in a specialty of dentistry, as defined in paragraph (2) of this subdivision, and is in the director's judgment competent to practice [dentistry] *the completed dental specialty*.

**This notice is intended** to serve only as a notice of emergency adoption. This agency intends to adopt the provisions of this emergency rule as a permanent rule, having previously submitted to the Department of State a notice of proposed rule making, I.D. No. EDU-04-23-00006-EP, Issue of March 14, 2023. The emergency rule will expire June 8, 2023.

**Regulatory Impact Statement**

**1. STATUTORY AUTHORITY:**

Section 207 of the Education Law grants general rule-making authority to the Board of Regents to carry into effect the laws and policies of the State relating to education.

Section 6504 of the Education Law authorizes the Board of Regents to supervise the admission to and regulation of the practice of the professions.

Paragraph (a) of subdivision (2) of section 6507 of the Education Law authorizes the Commissioner of Education to promulgate regulations in administering the admission to and the practice of the professions.

Section 6601 of the Education Law defines the practice of dentistry.

Section 6604 of the Education Law, as amended by Chapter 613 of the Laws of 2022, updates the dental residency program requirements for dental licensure by removing the requirement for a "clinically based" postdoctoral general practice or specialty dental residency program.

**2. LEGISLATIVE OBJECTIVES:**

The proposed rule implements Chapter 613 of the Laws of 2022 (Chapter 613), which effective November 21, 2022, amended the Education Law to update the dental residency program requirements for dental licensure by removing the requirement for a "clinically based" postdoctoral general practice or specialty dental residency program.

The proposed rule amends section 61.18 of the Commissioner's regulations to implement the provisions of Chapter 613 by:

- removing the "clinical" definition;
- removing the requirement that the postdoctoral clinical dental

residency program be completed in a nationally accredited "dental facility" for dental teaching purposes. This requirement may now be met by completing such residency program in a community health center or facility that is nationally accredited for teaching purposes;

- adding dental public health, orofacial pain, and oral medicine to the list of accredited residency programs in a dental specialty that can be used for meeting the experience requirement for licensure; and

- removing the requirement that, for each accredited residency program in a specialty of dentistry, at least 50 percent of the accredited residency program consist of clinical training in certain areas.

Additionally, the proposed amendment removes the requirement that the written statement for completion of the residency or specialty program be notarized. Instead, it requires that such written statement attest to the applicant's competence to practice the "completed dental specialty."

**3. NEEDS AND BENEFITS:**

The purpose of the proposed rule is to conform the Commissioner's regulations to Chapter 613, which amended the Education Law, update the dental residency program requirements for dental licensure by removing the requirement for a "clinically based" postdoctoral general practice or specialty dental residency program.

**4. COSTS:**

(a) Costs to State government: There are no additional costs to state government.

(b) Costs to local government: There are no additional costs to local government.

(c) Cost to private regulated parties: There are no mandatory costs to private regulated parties.

(d) Cost to the regulatory agency: There are no additional costs to the Department.

**5. LOCAL GOVERNMENT MANDATES:**

The proposed rule does not impose any program service, duty, responsibility, or other mandate on local governments.

**6. PAPERWORK:**

The proposed rule does not impose any paperwork mandates.

**7. DUPLICATION:**

There are no other state or federal requirements on the subject matter of the proposed rule. Therefore, the amendment does not duplicate other existing state or federal requirements.

**8. ALTERNATIVES:**

The proposed rule implements statutory requirements (Chapter 613). There are no significant alternatives to the proposed rule and none were considered.

**9. FEDERAL STANDARDS:**

Since there are no applicable federal standards, the proposed rule does not exceed any minimum federal standards for the same or similar subject areas.

**10. COMPLIANCE SCHEDULE:**

The proposed rule will take effect as an emergency rule on January 10, 2023. It is anticipated that the proposed rule will be presented to the Board of Regents for permanent adoption at the May 2023 Regents meeting. If adopted at the January 2023 Regents meeting, the proposed amendment to section 61.18, of the Commissioner's regulations will become effective on May 31, 2023. It is anticipated that the regulated parties will be able to comply with the proposed rule by the effective date.

**Regulatory Flexibility Analysis**

The purpose of the proposed rule is to implement Chapter 613 of the Laws of 2022 (Chapter 613), which effective November 21, 2022, amended the Education Law to update the dental residency program requirements for dental licensure by removing the requirement for a "clinically based" postdoctoral general practice or specialty dental residency program.

The proposed amendment of paragraph (2) of subdivision (b) of section 61.18 of the Regulations of the Commissioner of Education adds oral medicine, orofacial pain and dental public health to the list of accredited residency programs in a specialty of dentistry that can be used to meet the residency program requirement for dental licensure in order to remove a potential barrier to licensure for otherwise well qualified dental licensure candidates, who have completed accredited dental specialty programs. This will increase the number of licensed dentists in this State and improve the public's access to these dental specialties while ensuring public protection.

The proposed rule does not impose any new reporting, recordkeeping, or other compliance requirements on local governments or have any adverse economic impact on small businesses or local governments. Because it is evident from the nature of the proposed amendment that it will not adversely affect small businesses or local governments, no affirmative steps were needed to ascertain that fact and none were taken. Accordingly, a regulatory flexibility analysis for small businesses and local governments is not required, and one has not been prepared.

**Rural Area Flexibility Analysis**

The purpose of the proposed rule is to implement Chapter 613 of the Laws of 2022 (Chapter 613), which effective November 21, 2022,

amended the Education Law to update the dental residency program requirements for dental licensure by removing the requirement for a “clinically based” postdoctoral general practice or specialty dental residency program. The proposed rule amends section 61.18 of the Commissioner’s regulations to implement the provisions of Chapter 613 by:

- removing the “clinical” definition;
- removing the requirement that the postdoctoral clinical dental residency program be completed in a nationally accredited “dental facility” for dental teaching purposes. This requirement may now be met by completing such residency program in a community health center or facility that is nationally accredited for teaching purposes;
- adding dental public health, orofacial pain, and oral medicine to the list of accredited residency programs in a dental specialty that can be used for meeting the experience requirement for licensure; and
- removing the requirement that, for each accredited residency program in a specialty of dentistry, at least 50 percent of the accredited residency program consist of clinical training in certain areas.

Additionally, the proposed amendment removes the requirement that the written statement for completion of the residency or specialty program be notarized. Instead, it requires that such written statement attest to the applicant’s competence to practice the “completed dental specialty.”

The proposed amendment to the list of accredited residency programs in a specialty of dentistry that can be used to meet the residency program requirement for dental licensure to include dental public health, oral medicine and orofacial pain is applicable to individuals seeking dental licensure in New York State. One of the purposes of the proposed amendment is to increase access to these dental services in New York State, including rural areas of this State. Thus, the proposed amendment does not adversely impact entities in rural areas of New York State. Accordingly, no further steps were needed to ascertain the impact of the proposed amendment on entities in rural areas and none were taken. Thus, a rural flexibility analysis is not required, and one has not been prepared.

#### **Job Impact Statement**

It is not anticipated that the proposed amendment will impact jobs or employment opportunities. This is because the proposed amendment of paragraph (2) of subdivision (b) of section 61.18 of the Regulations of the Commissioner of Education adds oral medicine, orofacial pain and dental public health to the list of accredited residency programs in a specialty of dentistry that can be used to meet the residency program requirement for dental licensure in order to remove a potential barrier to licensure for otherwise well qualified dental licensure candidates, who have completed accredited dental specialty programs, which will increase the number of licensed dentists in this State and improve the public’s access to these dental specialties while ensuring public protection.

Because it is evident from the nature of the proposed amendment that it will have no impact on jobs or employment opportunities attributable to its adoption or only a positive impact, no affirmative steps were needed to ascertain these facts and none were taken. Accordingly, a job impact statement is not required and one has not been prepared.

**Statutory authority:** Education Law, sections 107, 207, 305, 3214, 4403, 4404 and 4410

**Finding of necessity for emergency rule:** Preservation of general welfare.

**Specific reasons underlying the finding of necessity:** On December 1, 2021, the Department and the New York City Department of Education (NYCDOE) entered into a Memorandum of Agreement (MOA) (Attachment C) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers (IHOs) to effectively manage NYCDOE’s current caseload. The parties agreed that handling of the special education impartial hearing system would be transferred to OATH in order to facilitate the effective management of current and future due process complaint filings.<sup>1</sup> The parties recognized the need to establish an appropriate transi-

tion period during which both current IHOs (per-diem independent contractors) and OATH IHOs (after hiring staff) will conduct impartial hearings. The transition period is ongoing. To date, OATH has hired 43 attorneys who are certified and trained by the Department to be IHOs, in addition to settlement officers and administrative staff.

In addition, the MOA indicates that “[the Department] will take steps to propose amendments to regulations to support the use of hearing officers hired by OATH and the ability of OATH to assign cases to its impartial hearing officers as OATH deems appropriate” (MOA at paragraph 14). Consistent with the MOA, at the September 2022 Board meeting, the Board of Regents adopted amendments to section 200.2(e) of the Commissioner’s regulations to address the rotational selection process for assignment of IHOs to due process complaints in New York City.

The MOA also states that “[t]o the extent necessary, OATH will promulgate rules for special education due process hearings that will be presided over by OATH IHOs” and that OATH is responsible for “[r]ulemaking to establish procedures for the efficient administration of the Unit” (MOA at sections 11, 16[b]).

In furtherance of the Department’s obligations under the MOA, the Department now proposes to add a new subdivision (p) to section 200.5 of the Commissioner’s regulations to allow a permanent standing administrative tribunal that employs IHOs, or to which IHOs report, to promulgate regulations related to special education due process hearings. Amending the regulations to allow for OATH to promulgate its own special education due process hearing regulations is consistent with the MOA and will promote the efficient resolution of due process complaints. As indicated in the proposed amendment, OATH must ensure that all proposed regulations are consistent with state and federal laws and regulations.

Additionally, the Department proposes to amend the definition of “impartial hearing officer” in section 200.1(x) of the Commissioner’s regulations to contemplate IHOs employees by OATH.

The proposed amendment was presented to the P-12 Education Committee for recommendation to the Full Board for adoption as an emergency rule at the January 2023 meeting of the Board of Regents, effective January 10, 2023. Since the Board of Regents meets at fixed intervals, the earliest the proposed amendment could be adopted by regular (non-emergency) action after the department holds public hearings as required by the Individuals with Disabilities Education Act (IDEA) and expiration of the public comment period provided for in the State Administrative Procedure Act (SAPA) sections 201(1) and (5) would be the May 2023 Regents meeting. Furthermore, pursuant to SAPA 203(1), the earliest effective date of the proposed rule, if adopted at the May meeting, would be May 31, 2023, the date the Notice of Adoption would be published in the State Register.

However, the emergency rule will expire on April 9, 2023. Therefore, a second emergency action is necessary at the March 2023 Regents meeting, effective April 10, 2023, for the preservation of the general welfare to immediately permit OATH to promulgate regulations and to limit excessive extensions of due process cases to ensure the timely and efficient resolution of due process complaints for students and families in New York State and to ensure that the emergency action taken at the January 2023 meeting remains continuously in effect until the rule can be permanently adopted.

It is anticipated that the proposed rule will be presented to the Board of Regents for adoption as a permanent rule at the May 2023 meeting, which is the first scheduled meeting after expiration of the public comment period mandated by SAPA for state agency rulemaking.

<sup>1</sup>As stated in the Department’s September 2022 item adopting regulatory amendments relating to due process procedures, New York City has experienced an unprecedented volume of special education due process complaints and cases in the past several years that shows no signs of abating.

**Subject:** Special education due process system procedures.

**Purpose:** To implement the Department’s and the New York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers.

**Text of emergency rule:** 1. Subdivision (X) of section 200.1 of the Regulations of the Commissioner of Education is amended to read as follows:

(x) Impartial hearing officer means an individual assigned by a board of education pursuant to Education Law, section 4404(1), or by the commissioner in accordance with section 200.7(d)(1)(i) of this Part, to conduct a hearing and render a decision. *In a city school district having a population of one million or more inhabitants, impartial hearing officer also means individuals who are assigned to a permanent, standing administrative tribunal employing impartial hearing officers.* No individual employed by a school district, school, or program serving students with disabilities placed there by a school district committee on special education may serve as an impartial hearing officer and no individual employed by such schools

or programs may serve as an impartial hearing officer for two years following the termination of such employment, provided that a person who otherwise qualifies to conduct a hearing under this section shall not be deemed an employee of the school district, school or program serving students with disabilities solely because he or she is paid by such schools or programs to serve as an impartial hearing officer. An impartial hearing officer shall:

- (1)...
- (2)...
- (3)...
- (4)...

2. Section 200.5 of the Regulations of the Commissioner of Education is amended by adding a new subdivision (p) to read as follows:

*(p) Authority of standing administrative tribunals. Notwithstanding any other provision of this Part, in a city school district having a population of one million or more, a standing administrative tribunal employing impartial hearing officers is authorized to promulgate regulations, in consultation with the Department, related to the procedure and efficiency of impartial due process hearings, which provisions may differ from subdivision (j) of this section, provided such regulations are consistent with all other applicable state and federal laws and regulations.*

**This notice is intended** to serve only as a notice of emergency adoption. This agency intends to adopt the provisions of this emergency rule as a permanent rule, having previously submitted to the Department of State a notice of proposed rule making, I.D. No. EDU-04-23-00007-EP, Issue of January 25, 2023. The emergency rule will expire June 8, 2023.

**Regulatory Impact Statement**

1. STATUTORY AUTHORITY:

Education Law § 101 (not subdivided) charges the Department with the general management and supervision of all public schools and of all the educational work of the state.

Education Law § 207 (not subdivided) grants general rule-making authority to the Regents to carry into effect State educational laws and policies.

Education Law § 305(1) authorizes the Commissioner to enforce laws relating to the State educational system and execute Regents educational policies. Section 305(2) provides the Commissioner with general supervision over schools and authority to advise and guide school district officers in their duties and the general management of their schools.

Education Law § 3214(3)(g) establishes the authority of an impartial hearing officer relating to a change in placement to interim alternative educational settings.

Education Law § 4403 outlines the Department’s responsibilities regarding special education programs and services to students with disabilities. Section 4403(3) authorizes the Department to adopt regulations as the Commissioner deems in their best interest.

Education Law § 4404 establishes the appeal procedures for students with disabilities. Subdivision (1) authorizes and requires the Commissioner to promulgate regulations relating to the qualifications, procedures and timelines for impartial hearings, as well as procedures for the suspension or revocation of impartial hearing officer certification for good cause.

Education Law § 4410(7) provides that a parent may file a written request with the board of education for an impartial hearing with respect to any matter relating to the identification, evaluation or educational placement of, or provision of a free appropriate public education to preschool students with disabilities. Subdivision (14) authorizes the Commissioner to adopt regulations to implement such statute.

2. LEGISLATIVE OBJECTIVES:

Consistent with the above statutory authority, the proposed rule implements the Department’s and the New York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” (IHO) to contemplate IHOs employed by OATH.

3. NEEDS AND BENEFITS:

On December 1, 2021, the Department and the New York City Department of Education (NYCDOE) entered into a Memorandum of Agreement (MOA) (Attachment C) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers (IHOs) to effectively manage NYCDOE’s current caseload. The parties agreed that handling of the special education impartial hearing system would be transferred to OATH in order to facilitate the effective management of current and future due process complaint

filings.<sup>1</sup> The parties recognized the need to establish an appropriate transition period during which both current IHOs (per-diem independent contractors) and OATH IHOs (after hiring staff) will conduct impartial hearings. The transition period is ongoing. To date, OATH has hired 43 attorneys who are certified and trained by the Department to be IHOs, in addition to settlement officers and administrative staff.

In addition, the MOA indicates that “[the Department] will take steps to propose amendments to regulations to support the use of hearing officers hired by OATH and the ability of OATH to assign cases to its impartial hearing officers as OATH deems appropriate” (MOA at paragraph 14). Consistent with the MOA, at the September 2022 Board meeting, the Board of Regents adopted amendments to sections 200.2(e) of the Commissioner’s regulations to address the rotational selection process for assignment of IHOs to due process complaints in New York City.

The MOA also states that “[t]o the extent necessary, OATH will promulgate rules for special education due process hearings that will be presided over by OATH IHOs” and that OATH is responsible for “[r]ule-making to establish procedures for the efficient administration of the Unit” (MOA at paragraphs 11, 16[b]).

In furtherance of the Department’s obligations under the MOA, the Department now proposes to add a new subdivision (p) to section 200.5 of the Commissioner’s regulations to allow a permanent standing administrative tribunal that employs IHOs, or to which IHOs report, to promulgate regulations related to special education due process hearings. Amending the regulations to allow for OATH to promulgate its own special education due process hearing regulations is consistent with the MOA and will promote the efficient resolution of due process complaints. As indicated in the proposed amendment, OATH must ensure that all proposed regulations are consistent with state and federal laws and regulations.

Additionally, the Department proposes to amend the definition of “impartial hearing officer” in section 200.1(x) of the Commissioner’s regulations to contemplate IHOs employed by OATH.

4. COSTS:

(a) Costs to State government: There are no additional costs to State government beyond those inherent in statute.

(b) Costs to local government: There are no additional costs to local government beyond those inherent in statute.

(c) Cost to private regulated parties: There are no additional costs to private regulated parties.

(d) Cost to the regulatory agency: There are no additional costs to the State Education Department.

5. LOCAL GOVERNMENT MANDATES:

The proposed rule does not impose any program service, duty, responsibility, or other mandate on local governments.

6. PAPERWORK:

The proposed rule imposes no new reporting or other paperwork requirements beyond those imposed by statute.

7. DUPLICATION:

The proposed amendment does not duplicate any other existing State or federal requirements.

8. ALTERNATIVES:

The proposed amendment is necessary to implement the Department’s and the NYCDOE MOA OATH to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” to contemplate IHOs employed by OATH. There are no significant alternatives to the proposed rule available and none were considered.

9. FEDERAL STANDARDS:

There are no applicable Federal standards.

10. COMPLIANCE SCHEDULE:

The proposed rule will take effect as an emergency rule on January 10, 2023. It is anticipated that the proposed amendments will be presented for permanent adoption at the May 2023 Regents meeting. Because the emergency action will expire before May 2023 Regents meeting, it is anticipated that an additional emergency action will be presented for adoption at the March 2023 meeting. If adopted at the May 2023 meeting, the proposed rule will become effective as a permanent rule on May 31, 2023. It is anticipated that regulated parties will be able to comply with the proposed rule on its effective date.

<sup>1</sup> As stated in the Department’s September 2022 item adopting regulatory amendments relating to due process procedures, New York City has experienced an unprecedented volume of special education due process complaints and cases in the past several years that shows no signs of abating.

**Regulatory Flexibility Analysis**

(a) Small businesses:

The proposed amendment implements the Department’s and the New

York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” (IHO) to contemplate IHOs employed by OATH. Because it is evident from the nature of the proposed amendments that they do not affect small businesses, no further measures were needed to ascertain that fact, and none were taken. Accordingly, a regulatory flexibility analysis for small businesses is not required and one has not been prepared.

- (b) Local governments:
  1. EFFECT OF RULE:

The purpose of the proposed amendment is to implement the Department’s and the New York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” (IHO) to contemplate IHOs employed by OATH. The proposed amendment applies to the city school district of the city of New York.

- 2. COMPLIANCE REQUIREMENTS:

The proposed addition of subdivision (p) to section 200.5 of the Commissioner’s regulations allows a permanent standing administrative tribunal that employs IHOs, or to which IHOs report, to promulgate regulations related to special education due process hearings.

The proposed amendment of section 200.1(x) of the Commissioner’s regulation amends the definition of “impartial hearing officer” to contemplate IHOs employed by OATH.

- 3. PROFESSIONAL SERVICES:

The proposed amendment does not require any additional professional service requirement on local governments.

- 4. COMPLIANCE COSTS:

The proposed amendment will not impose any additional program, service, duty, responsibility or costs on local governments.

- 5. ECONOMIC AND TECHNOLOGICAL FEASIBILITY:

The proposed rule does not impose any technological requirements on local governments. See compliance costs section above regarding economic feasibility.

- 6. MINIMIZING ADVERSE IMPACT:

The purpose of the proposed amendment is to implement the Department’s and the New York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” (IHO) to contemplate IHOs employed by OATH. Therefore, it is evident from the nature of the proposed rule that it will have no adverse economic impact on local governments.

- 7. LOCAL GOVERNMENT PARTICIPATION:

One in person and two virtual public hearings will be conducted to obtain comment on the proposed rule. In addition, copies of the proposed amendment have been provided to school districts through the offices of the district superintendents of each supervisory district in the State and to the chief school officers of the five big city school districts.

**Rural Area Flexibility Analysis**

The proposed amendment implements the Department’s and the New York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” (IHO) to contemplate IHOs employed by OATH. Because the proposed amendment applies to OATH and impartial hearing officers employed by OATH in the city of New York, the proposed rule does not affect parties located in areas. Accordingly, a rural area flexibility analysis is not required, and one has not been prepared.

**Job Impact Statement**

The purpose of the proposed amendment is to implement the Department’s and the New York City Department of Education’s (NYCDOE) Memorandum of Agreement (MOA) with New York City’s Office of Administrative Trials and Hearings (OATH) to establish an administrative team of full-time impartial hearing officers by: (1) allowing OATH to promulgate regulation related to special education due process hearing; and (2) amending the definition of “impartial hearing officer” (IHO) to contemplate IHOs employed by OATH.

Because it is evident from the nature of the proposed amendment that it

will have no impact on jobs or employment opportunities attributable to its adoption or only a positive impact, no affirmative steps were needed to ascertain these facts and none were taken. Accordingly, a job impact statement is not required and one has not been prepared.

**ERRATUM**

A Notice of Proposed Rule Making, I.D. No. ENV-15-23-00006-P, pertaining to Class SA, SB, SC and I saline waters of the State, published in the April 12, 2023 issue of the State Register contained two typographical errors. The table in subdivision (d) of section 703.4 of the proposed rule inadvertently omitted the “I” water body class, and the first footnote of the Summary of Regulatory Impact Statement inadvertently included “Most Probable Number.” The corrected Notice of Proposed Rule Making is reprinted here in its entirety.

**PROPOSED RULE MAKING HEARING(S) SCHEDULED**

**Class SA, SB, SC and I Saline Waters of the State I.D. No. ENV-15-23-00006-P**

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** Amendment of Parts 701 and 703 of Title 6 NYCRR.

**Statutory authority:** Environmental Conservation Law, sections 3-0301 and 17-0301

**Subject:** Class SA, SB, SC and I saline waters of the State.

**Purpose:** Amend the water quality standards protective of shellfishing and recreation in the State’s saline waters.

**Public hearing(s) will be held at:** 2:00 p.m., June 13, 2023 at Region 2, Long Island City; 2:00 p.m., June 15, 2023 at Virtual via WebEx.

**Interpreter Service:** Interpreter services will be made available to hearing impaired persons, at no charge, upon written request submitted within reasonable time prior to the scheduled public hearing. The written request must be addressed to the agency representative designated in the paragraph below.

**Accessibility:** All public hearings have been scheduled at places reasonably accessible to persons with a mobility impairment.

**Text of proposed rule:** Section 701.26 is renumbered to section 701.27 and a new section 701.26 is added to read as follows:

701.26 *Wet Weather Limited Use Waters (WW).*

(a) *The symbol (WW), appearing in an entry in the “standards” column in the classification tables of Parts 800 through 941 of this Title, means that the classified waters in that specific item are influenced by wet weather discharges from CSOs. Any water quality standard, guidance value, or thermal criterion that specifies a (WW) exception would apply to waters where the (WW) symbol is listed in the standard column, otherwise the base water quality standard, guidance value, or thermal criterion assigned to the Class are applicable.*

703.4 Water quality standards for coliforms, enterococci, and E. coli.

Total and fecal coliform, enterococci, and E. coli standards for specific classes are provided in this section.

- (a) Total coliforms (number per 100 ml).

Classes	Standard
AA	The monthly median value and more than 20 percent of the samples, from a minimum of five examinations, shall not exceed 50 and 240, respectively.
A, B, C, D, SB, SC, I, SD	The monthly median value and more than 20 percent of the samples, from a minimum of five examinations, shall not exceed 2,400 and 5,000, respectively.
SA	The median most probable number (MPN) value in any series of representative samples shall not be in excess of 70.
A-Special	The geometric mean, of not less than five samples, taken over not more than a 30-day period shall not exceed 1,000.
GA	The maximum allowable limit is 50.

(b) Fecal coliforms (number per 100 ml).

A, B, C, D, SB, SC, I, SD The monthly geometric mean, from a minimum of five examinations, shall not exceed 200.

A-Special The geometric mean, of not less than five samples, taken over not more than a 30-day period shall not exceed 200.

SA *In any series of representative samples, the median (or geometric mean) MPN per 100 milliliters of sample shall not exceed 14 and no more than 10 percent of the samples shall have MPN per 100 milliliters of sample in excess of 49 when using a multiple dilution fermentation tube test which examines three 10-milliliter sample portions, three one-milliliter sample portions and three one-tenth (0.1) milliliter sample portions.*

(c) The total and fecal coliform standards for classes B, C, D, SB, SC and I shall be met during all periods:

(1) when disinfection is required for SPDES permitted discharges directly into, or affecting the best usage of, the water; or

(2) when the department determines it necessary to protect human health.

(d) Enterococci (number per 100 mL [colony-forming units or most probable number]).

Classes	Standard
[Coastal recreation waters of the following classes:] SA, [and] SB, SC	The geometric mean of samples collected over any consecutive 30-day period shall not exceed 35, and no more than 10 percent of the samples collected in the same 30-day period shall exceed 130. <i>For waters with the wet weather (WW) standard designation, these standards will apply during periods of dry weather with exceedances allowed per an approved Use Attainability Analysis (UAA) as required by 40 CFR 131.10.</i>

I *The geometric mean of samples collected over any consecutive 30-day period shall not exceed 72, and no more than 10 percent of the samples collected in the same 30-day period shall exceed 266.*

(e) E. coli (number per 100 mL [colony-forming units or most probable number]).

Classes	Standard
Coastal recreation waters of the following classes: A, A-Special, AA, AA-Special, and B	The geometric mean of samples collected over any consecutive 30-day period shall not exceed 126, and no more than 10 percent of the samples collected in the same 30-day period shall exceed 410.

(f)

(1) The enterococci standards for Class SA[ and], SB, and SC [coastal recreation] waters shall apply:

(i) during the period of May 1st through October 31st;

(ii) in any other instance where the department determines it necessary to protect human health or the best usages of the waters; and

(iii) where required by State or Federal law or interstate compact.

(2) *The enterococci standards for Class I waters shall apply on a year-round basis.*

[(2)](3) The E. coli standards for Class A, A-Special, AA, AA-Special and B coastal recreation waters shall apply:

(i) during the period of May 1st through October 31st;

(ii) in any other instance where the department determines it necessary to protect human health or the best usages of the waters; and

(iii) where required by State or Federal law or interstate compact.

Section 703.4(g) is repealed.

**Data, views or arguments may be submitted to:** Same as above.

**Public comment will be received until:** Five days after the last scheduled public hearing.

**This rule was not under consideration at the time this agency submitted its Regulatory Agenda for publication in the Register.**

**Summary of Regulatory Impact Statement (Full text is posted at the following State website: <https://www.dec.ny.gov/regulations/127310.html>):**

The New York State Department of Environmental Conservation (the Department) is proposing revisions to New York’s regulations in Title 6 New York Codes, Rules and Regulations (NYCRR) Parts 701 and 703. The proposed regulatory updates include amended water quality standards (WQS) to protect the shellfishing best use in Class SA waters; protect the primary contact recreation (PCR) best use in Class SA and SB waters; maintain water quality suitable for PCR in Class SC<sup>1</sup> waters; protect the secondary contact recreation (SCR) best use in Class I waters; and add a wet weather (WW) limited use designation for waters impacted by combined sewer overflow (CSO) discharges.

1. Statutory Authority

The statutory authority for these updates is found in the Environmental Conservation Law (ECL) Articles 3 and 17. ECL Article 3 provides that the Commissioner of the Department may adopt regulations to carry out the purposes of the ECL in general. ECL Section 17-0301 provides that the Department “shall group the designated waters of the state into classes. Such classification shall be made in accordance with considerations of best usage in the interest of the public” and “shall adopt and assign standards of quality and purity for each such classification necessary for the public use or benefit contemplated by such classification.” ECL 17-0301(2), (4).

Specific to the proposed WQS for protection of SCR in Class I waters, ECL § 17-0301(5)(c)(7) authorizes the Department to “adopt and assign more restrictive standards for the best usages of the waters of the state.” Using that authority, the Department is proposing new WQS using Enterococci as a fecal indicator bacteria (FIB) to protect SCR in Class I waters.

2. Legislative Objectives

The legislative objectives related to these proposed regulatory updates are “to conserve, improve and protect [the State’s] natural resources and environment and to prevent, abate and control water, land, and air pollution, in order to enhance the health, safety and welfare of the people of the state and their overall economic and social wellbeing.” ECL 1-0101(1). Furthermore, it is the policy of the State to guarantee that the “widest range of beneficial uses of the environment is attained without risk to health or safety, unnecessary degradation or other undesirable or unintended consequences.” ECL 1-0101(3)(b). In furtherance of these broad policies, specific objectives are to “maintain reasonable standards of purity of the waters of the state consistent with public health and public enjoyment thereof...” ECL 17-0101.

Although the proposed rule will likely result in an increase in energy use at treatment facilities, it is not inconsistent with and will not interfere with the attainment of the statewide greenhouse gas emissions limits established in Article 75 of the ECL, provided that the increased energy demand is met through clean energy that meets the targets in the Climate Leadership and Community Protection Act.

3. Needs and Benefits

The Department is proposing new WQS for Class SA waters to align with the current standards for certification of shellfish lands identified in 6 NYCRR Part 47. The proposed amendments include WQS for fecal coliform (FC) in Class SA waters of a geometric mean (GM) of 14 MPN<sup>2</sup>/100 mL and no more than 10 percent of samples shall exceed FC of 49 MPN/100 mL.

The proposed rule amends the WQS for Class SA, SB, and SC waters to include Enterococci as a FIB. The proposed Enterococci WQSs are consistent with the United States Environmental Protection Agency’s (USEPA’s) 2012 Recreational Water Quality Criteria (RWQC). The proposed WQSs for Class SA, SB, and SC waters are an Enterococci 30-day GM of 35 CFU<sup>3</sup>/100 mL and a statistical threshold value (STV) of 130 CFU/100 mL.

The Department is proposing Enterococci WQS for the protection of the SCR best use in Class I waters. The proposed WQSs include an Enterococci 30-day GM of 72 CFU/100 mL and a STV of 266 CFU/100 mL. The proposed WQSs were derived based on an ingestion risk comparison to the 2012 RWQC as recommended by “An Approach for Applying EPA’s 2012 Recreational Water Quality Criteria Recommendation to Non-primary Contact Exposure Scenarios White Paper” (USEPA 2022). The application of the STV in the proposed WQS

makes them more stringent and more protective of the SCR use than the site-specific GM-only WQSs adopted by the Department in 2021.

For waters subject to short-term, periodic impairment of best usages due to untreated or partially treated CSO discharges, the Department proposes to establish a wet weather (WW) limited use designation. For waters assigned the (WW) limited use designation, the underlying WQS applicable to their assigned classification would be applied during periods of dry weather, with limited exceedances of select WQS permissible during periods of wet weather. At this time, no waterbodies are being assigned the (WW) designation with these proposed regulatory updates.

It is acknowledged that certain waterbodies impacted by this proposed rule making may not satisfy the section 101(a)(2) goals of the Clean Water Act (CWA). The Department's May 2020 clarification rule making removed the "water quality shall be suitable for primary contact recreation" language from 6 NYCRR Part 701.13 (Class I) and "water quality shall be suitable for primary and secondary contact recreation" from Part 701.14 (Class SD). These "suitable" clauses did not define a best usage for the waters but did align waters with the CWA swimmable goal. Therefore, consistent with the Code of Federal Regulations (CFR) (Title 40, Chapter I, Subchapter D, Part 131.10 and/or Part 131.14), the Department will eventually draft use attainability analyses (UAAs) and/or variances for all non-CWA 101(a)(2) compliant waterbodies. This includes those waters of Class I, Class SD, and any water with a (WW) designation.

Following a decision to adopt this rule, the Department will immediately begin work on a second planned rule making, with the goal to be publicly noticed no later than December 2024, that will modify classifications of the State's saline waters to better align with existing uses and water quality improvement goals for those waters. Due to present uncertainties regarding waters that will be reclassified to Class SC or higher in the second rule, and may not require a UAA and/or variance, the necessary UAAs and/or variances will be part of that latter rule making. The combined content of both rule makings along with the UAAs/variances will bring the saline waters of the State into compliance with the CWA goals.

#### 4. Costs

The proposed WQS for FC protective of shellfishing for Class SA waters are effectively equivalent to the current Class SA TC WQS. It is not anticipated that State Pollutant Discharge Elimination System (SPDES) permits for discharges to Class SA would incur a regulatory impact due to the proposed FC WQS.

The Department identified twenty-four facilities discharging to waters subject to proposed Enterococcus WQS amendments for Class SA, SB, SC, and I waters. Under the proposed Enterococci WQSs, the impacted facilities will incur a collective capital cost of approximately \$2.4 million to construct chlorination/de-chlorination. Additionally, all twenty-four impacted facilities will incur O&M costs, to cover increased chlorine dosing or increased UV intensity, as applicable, collectively totaling approximately \$4.5 million per year.

Additional costs for laboratory analysis of up to \$81,300 per year across all facilities may occur, depending on how the Department implements the proposed Enterococci WQSs for dischargers to saline waters. Should the Department supplant TC or FC effluent limitations in SPDES permits with Enterococci, there will be no additional impact because the analytical cost for all three FIBs is roughly the same.

Certain waters, subject to the proposed Enterococci WQS, are impacted by CSOs. Most of the CSO impacts that occur in Class SB and Class I waters are in and around New York City (NYC). NYC's CSO control program is implemented through the development of Long Term Control Plans (LTCPs). The yet to be completed cost of projects detailed in the approved<sup>4</sup> LTCPs is \$2.3 billion. The LTCPs will not be immediately opened or renegotiated to attain compliance with the proposed WQS but will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through post-construction compliance monitoring (PCCM).

The CSO-impacted waters projected not to attain the proposed Enterococci WQS include: Hutchinson River (SB), Alley Creek (I), Bronx River(I), Coney Island Creek(I), Flushing Creek(I), tributaries of Jamaica Bay(I), and Westchester Creek (I).

Using 100% CSO capture, a highly conservative approach with respect to water quality, the Department estimated increased control costs for outfalls discharging to the listed CSO-impacted waters. The total cost of 100% capture for these receiving waters is \$9.7 billion, but this impact is deferred. No other CSO communities will incur financial impacts from the proposed WQS amendments.

The (WW) designation being proposed with these regulatory updates will not be immediately applicable and, therefore, has no associated costs. Future rule makings that apply the (WW) designation will detail costs associated with its application.

#### 5. Local Government Mandates

As described in this document, these proposed regulatory updates will revise and update New York State's WQS, which in turn will be incorporated into SPDES permits issued under Titles 7 and 8 of Article 17 of the ECL. Beyond the estimated costs discussed above, the Department has determined these proposed regulatory updates do not impose any additional program, service, duty, or responsibility upon any county, city, town, village, school district, fire district, or other special district.

#### 6. Paperwork

The proposed regulations are not expected to increase or decrease the number of significant SPDES permittees (for permit classifications see the Department's Technical & Operational Guidance Series 1.2.2).

As part of the SPDES program, all significant permittees are already required to periodically report monitoring data for pollutants not included in their SPDES permits. These proposed regulatory updates do not require the submission of any new forms.

#### 7. Duplication

Under federal law, promulgation of surface WQSs is primarily a state responsibility. USEPA provides oversight and guidance and approves state WQSs for surface water but does not promulgate WQSs that apply nationwide. As such, none of the proposed WQS amendments duplicate Federal law.

#### 8. Alternatives

The "no action" alternative for updating the WQS for shellfishing protection in Class SA waters was rejected because these proposed regulatory updates are already included elsewhere in State regulation (6 NYCRR Part 47).

The "no action" alternative regarding the proposed Enterococci WQS for Class SA, SB, and SC waters was rejected as it fails to satisfy USEPA 304(a) recommendations or requirements, as applicable.

The Department considered the "no action" alternative regarding Class I WQS amendments for the protection of SCR. While there are currently no criteria recommendations for SCR, the "no action" alternative does not provide needed public protection for those participating in SCR in Class I waters.

Although not applied to any specific waters with this proposal, the Department considered the "no action" alternative for the wet weather limited designated use (WW). Absent the (WW) designation, waters nearing attainment of higher best usages would not make any progress towards attaining those higher best usages and lack the dry weather protections of the higher classification.

#### 9. Federal Standards

The proposed regulatory changes do not exceed any federal minimum standards.

#### 10. Compliance Schedule

These proposed regulatory updates will take effect on the date specified in the Notice of Adoption. After these regulatory updates become effective, they will be implemented in SPDES permits as they are issued or renewed in accordance with Department's Environmental Benefit Permit Strategy.

Waters subject to CSO discharges from permitted CSO outfalls will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through PCCM. After PCCM is completed and compliance with the WQS are assessed, new CSO control goals may be applied to discharges to waters that fail to meet WQS.

<sup>1</sup> Class SC waters do not have a best use of primary contact recreation assigned to them in 6 NYCRR Part 701, but must be maintained as suitable for that activity.

**Summary of Regulatory Flexibility Analysis (Full text is posted at the following State website: <https://www.dec.ny.gov/regulations/127310.html>):**

The New York State Department of Environmental Conservation (the Department) is proposing revisions to New York's water quality standard (WQS) regulations in Title 6 New York Codes, Rules and Regulations

(NYCRR) Parts 701 and 703. The proposed regulatory updates include amended WQS to protect the shellfishing best use in Class SA waters; protect the primary contact recreation best use in Class SA and SB waters; maintain water quality suitable for primary contact recreation in Class SC<sup>1</sup> waters; protect the secondary contact recreation best use in Class I waters; and add a wet weather (WW) limited use designation for waters impacted by CSO discharges.

#### 1. Effect of Rule

The Department reviewed the proposed WQS amendments and identified facilities that may be impacted by the proposed regulatory updates. The Department identified twelve municipal wastewater treatment facilities, ranging from 0.24 million gallons per day (MGD) to 120 MGD treatment capacity. Additionally, ten Private, Commercial, and Institutional (PCI) facilities were identified as surface water sanitary dischargers to the subject saline waters. Two industrial facilities were also identified with sanitary discharges to saline waters impacted by the proposed WQS. Of the ten PCIs and two industrial facilities identified, four may meet the qualifications of being a Small Business as defined in Section 131 of New York State (NYS) Economic Development Law.

The proposed updates to WQS are protective of shellfishing for Class SA waters and all discharges to SA waters. Per regulations at 6 NYCRR 47.3, samples collected from waters overlying certified shellfish lands shall have a total coliform (TC) geometric mean of 70 MPN/100ml or less or a fecal coliform (FC) geometric mean of 14 MPN/100ml or less, as these two criteria are equally protective. Since the TC geometric mean of 70 MPN/100ml is the current WQS and basis for current SPDES effluent limits, it is not anticipated that SPDES permits for discharges to Class SA waters would need to be amended to include an additional WQBEL for FC since this is equivalent to the WQBEL for TC that is already in place.

Under the proposed Enterococci WQS, twelve municipal wastewater treatment facilities, ten PCI facilities, and two industrial facilities discharging to saline waters will likely need to upgrade their existing disinfection systems or incur increased operation and maintenance (O&M) costs. The Department analyzed the costs associated with disinfection using both chlorination and ultraviolet radiation (UV).

#### 2. Compliance Requirements

There are numerous municipal wastewater treatment facilities and several other regulated entities that discharge into waters affected by the proposed Enterococci WQS. All currently permitted sanitary wastewater dischargers disinfect their effluent to meet WQS. It is anticipated that some of these dischargers will need to upgrade those existing disinfection systems, and in some cases add dichlorination, to meet the proposed Enterococci WQS. The need for compliance schedules for small businesses and local governments will be evaluated on a case-by-case basis.

New York City (NYC) owns and operates numerous combined sewer overflows (CSOs) that discharge to waters affected by the proposed Enterococci WQS. NYC is already obligated, through an administrative consent order, to implement its Long Term Control Plans (LTCPs) to meet current WQS. It is anticipated that some CSO impacted waters may not meet the proposed WQS post-LTCP implementation. Waters subject to CSO discharges from permitted CSO outfalls will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through post-construction compliance monitoring (PCCM). After PCCM is completed and compliance with the WQS are assessed, new CSO control goals may be applied to discharges to waters that fail to meet WQS.

#### 3. Professional Services

There may be professional engineering services needed for the facilities potentially affected by the proposed regulatory updates, as mentioned above, to upgrade existing disinfection systems.

#### 4. Compliance Costs

The Department reviewed the proposed regulatory updates and identified the likely anticipated costs that are set forth in this section.

The Department estimates that two municipal facilities and seven PCI facilities will incur a collective capital cost of approximately \$2.4 million to construct chlorination/de-chlorination. Additionally, all twenty-four impacted facilities will incur increased O&M costs, collectively totaling approximately \$4.5 million per year, to cover increased chlorine dosing or increased UV intensity, as applicable to their current disinfection practices.

Additional costs for laboratory analysis of up to \$81,300 per year across all facilities may occur, depending on how the Department implements the proposed Enterococci WQS for dischargers to saline

waters. Should the Department supplant TC or FC effluent limitations in SPDES permits with Enterococci, there will be no additional impact because the analytical cost for all three fecal indicator bacteria (FIB) is roughly the same.

The Department does not plan on repealing the existing TC and FC WQS, and SPDES permits subject to issuance and renewal will be evaluated individually to determine the most appropriate discharge effluent limitations.

Certain waters subject to the proposed WQS are impacted by CSOs. Most of the CSO impacts occur in Class SB and Class I waters in and around NYC. NYC's CSO control program is implemented through the development of LTCPs. The LTCPs must meet the regulatory requirements of the United States Environmental Protection Agency's (USEPA's) CSO Control Policy as per the Clean Water Act section 402(q) and must adhere to the terms of the 2005 Consent Order between the Department and NYC (Case No. CO2-20000107-8), as modified in 2008, 2009, 2012, 2015, 2016, and 2017 (collectively the "Consent Order"), and NYC's SPDES permits. LTCPs evaluate the cost-effectiveness of a range of control options/strategies, including up to 100% CSO capture. The LTCPs are reviewed and approved by the Department based on currently applicable WQS. The cost of yet to be completed projects detailed in the approved LTCPs is \$2.3 billion. The LTCPs will not be immediately opened or renegotiated to attain compliance with the proposed WQS but will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through PCCM.

NYCDEP provided some water quality model runs to the Department to assess compliance with the proposed Enterococci WQS in the CSO-impacted waters. The model runs indicated that the proposed Enterococci WQS will not be attained in some waters; thus, additional water quality improvements may be needed after the LTCP projects are completed. The Hutchinson River is the only CSO-impacted water projected not to attain the proposed Enterococci WQS for Class SB. CSO-impacted waters projected not to attain the proposed Enterococci WQS for Class I include: Alley Creek, Bronx River, Coney Island Creek, Flushing Creek, tributaries of Jamaica Bay and Westchester Creek.

Although such impacts are not immediate, as noted above, costs for CSO-impacted waters to comply with the proposed Enterococci WQS must still be estimated. Using 100% CSO capture, a highly conservative approach with respect to water quality, the Department estimated increased control costs for outfalls discharging to Alley Creek, Bronx River, Coney Island Creek, Flushing Creek, Hutchinson River, tributaries of Jamaica Bay and Westchester Creek to meet the proposed Enterococci WQS for Class SB and Class I waters. The total cost of 100% capture for these receiving waters is \$9.7 billion. No other CSO communities will incur financial impacts from the proposed WQS.

The (WW) designation being proposed with these regulatory updates will not be immediately applicable to any waters and, therefore, has no associated costs. Future rule makings that apply the (WW) designation will detail costs associated with its application.

#### 5. Economic and Technological Feasibility

The Department concluded that compliance by parties regulated under SPDES permits is both economically and technologically feasible. Under the proposed Enterococci WQS twelve municipal wastewater treatment facilities, ten PCI facilities, and two industrial facilities discharging to marine coastal recreation waters will likely need to upgrade their existing disinfection systems or incur increased O&M costs resulting from higher dosing.

Economic and technological feasibility for additional CSO controls is difficult to assess at this time, but such costs are deferred until currently approved LTCP projects are completed.

#### 6. Minimizing Adverse Impact

In developing these regulatory updates, the Department considered approaches that would minimize adverse economic impacts on small businesses and local governments such as differing requirements, outcome standards, and potential exemptions from coverage. Given the nature of these proposed regulatory updates, and in order to adequately protect the waters of the State, in compliance with both State and federal law, differing regulatory requirements or potential exemptions for small businesses and local governments were not feasible. However, for the potentially impacted facilities subject to these proposed regulatory updates, the Department will allow necessary time to achieve compliance.

The proposed regulatory updates will take effect on the date specified in the Notice of Adoption. However, the Department recognizes that it may be unreasonable, both physically and fiscally, to expect regulated

parties to comply with the regulations immediately. After the regulatory updates become effective, they will be implemented in SPDES permits when the permits are initially issued or renewed. Permit renewals and integration of the proposed WQS will follow the Department's Environmental Benefit Permit Strategy that prioritizes renewals to permits having the greatest potential for environmental impact. If additional new or modified treatment is required to meet the proposed WQS, a compliance schedule may be included in the permit on a case-by-case basis and may require the permittee to submit a report describing their alternative treatment strategy to meet the WQS and include a schedule for construction. Under such a scenario, the Department would review and, if appropriate, approve the report before construction could commence.

Waters subject to CSO discharges from permitted CSO outfalls will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through PCCM. After PCCM is completed and compliance with the WQS are assessed, new CSO control goals may be applied to discharges to waters that fail to meet WQS.

#### 7. Small Business and Local Government Participation

The Department will inform the public about the proposed regulatory updates through the Department website, letters to dischargers and municipalities, and notices in the Environmental Notice Bulletin and the State Register. During the public comment period, the Department will hold a public hearing on the proposed rule making. The public will have the opportunity to comment on the proposed regulatory updates by attending a public hearing or by submitting written comments to the Department.

<sup>1</sup> Class SC waters do not have a best use of primary contact recreation assigned to them in 6 NYCRR Part 701, but 701.12 does specify "The water quality shall be suitable for primary and secondary contact recreation..." in Class SC waters. Absent a primary contact recreation best use, Class SC waters are still protected by standards aligning with the swimmable goal of the Clean Water Act.

#### **Rural Area Flexibility Analysis**

The New York State Department of Environmental Conservation is proposing revisions to New York's water quality standard (WQS) regulations in Title 6 New York Codes, Rules and Regulations (NYCRR) Parts 701 and 703. The proposed regulatory updates include amended WQS to protect the shellfishing best use in Class SA waters; protect the primary contact recreation best use in Class SA and SB waters; maintain water quality suitable for primary contact recreation in Class SC<sup>1</sup> waters; protect the secondary contact recreation best use in Class I waters; and add a wet weather (WW) limited use designation for waters impacted by combined sewer overflow (CSO) discharges. The proposed regulatory updates would impact waters in and around the counties of Bronx, Kings, Nassau, New York, Queens, Richmond, Rockland, Suffolk, and Westchester. The counties listed are not rural areas as defined in New York State Administrative Procedure Act section 102(10) and Executive Law section 481(7) and, therefore, the proposed regulatory updates have no associated rural impact.

<sup>1</sup> Class SC waters do not have a best use of primary contact recreation assigned to them in 6 NYCRR Part 701, but 701.12 does specify "The water quality shall be suitable for primary and secondary contact recreation..." in Class SC waters. Absent a primary contact recreation best use, Class SC waters are still protected by standards aligning with the swimmable goal of the Clean Water Act.

#### **Job Impact Statement**

The New York State Department of Environmental Conservation (the Department) is proposing revisions to New York's water quality standard (WQS) regulations in Title 6 New York Codes, Rules and Regulations (NYCRR) Parts 701 and 703. The proposed regulatory updates include amended WQS to protect the shellfishing best use in Class SA waters; protect the primary contact recreation best use in Class SA and SB waters; maintain water quality suitable for primary contact recreation in Class SC<sup>1</sup> waters; protect the secondary contact recreation best use in Class I waters; and add a wet weather (WW) limited use designation for waters impacted by combined sewer overflow (CSO) discharges.

##### 1. Nature of Impact

The only businesses or entities that could potentially be adversely impacted by the proposed regulatory updates are those that hold State Pollutant Discharge Elimination System (SPDES) permits and/or operate collection systems with CSOs. New WQS for Class SA waters for the protection of shellfish harvesting best use are not anticipated to have an adverse fiscal or job impact.

##### 2. Categories and Numbers Affected

The Department reviewed the proposed regulatory updates and identified the likely anticipated costs that are set forth in this section. The Department identified twelve municipal wastewater treatment facilities, ranging from 0.24 million gallons per day (MGD) to 120 MGD treatment capacity, discharging to waters subject to Class SA, SB, SC, and I Enterococci WQS amendments in this proposal. Additionally, ten Private, Commercial, and Institutional (PCI) facilities were identified as surface water sanitary dischargers to the subject saline waters. Two industrial facilities were also identified with sanitary discharges to saline primary contact recreation waters. An additional nine facilities, owned and operated by the New York City (NYC) Department of Environmental Protection (DEP), were identified but not included in the regulatory impact analysis, because they already have an Enterococci water quality based effluent limitations (WQBELs) included in their SPDES permits. The proposed fecal coliform WQS for class SA waters do not have regulatory impact costs.

The estimated unit cost for building a UV disinfection system is \$634,008/MGD<sup>2</sup> design flow in capital costs with an estimated O&M cost of \$12,367/MGD per year. Given that the total capital cost for conversion to UV disinfection is significantly higher than other alternatives, the estimated financial impact assumes that the impacted facilities will not choose the UV option. For facilities that already have an existing UV disinfection system, the most cost-effective alternative is to double the UV light intensity or dosing; thus, the financial impact of \$12,367/MGD per year will result solely from increased O&M expenditures. As many of the facilities considered in this analysis are currently using chlorination for disinfection, these proposed regulatory updates will likely require additional chlorination, which may result in a need to add de-chlorination to the treatment system. Because of the likelihood that additional de-chlorination will be needed, the Department determined the capital costs for constructing a de-chlorination facility. Construction of a de-chlorination facility is estimated to cost \$272,066/MGD. The Department used the approximately \$23,002/MGD per year average O&M cost to determine the potential financial impact associated with O&M for facilities utilizing chlorination and de-chlorination, and \$34,503/MGD per year for facilities that currently chlorinate but will need to add de-chlorination facilities. The Department estimates that two municipal facilities and seven PCI facilities will incur a collective capital cost of approximately \$2.4 million to construct chlorination/de-chlorination. Additionally, all twenty-four impacted facilities will incur increased O&M costs collectively totaling approximately \$4.5 million per year, to cover increased chlorine dosing or increased UV intensity, as applicable to their current disinfection practices.

Although these costs are not de minimis, they are spread across a large number of facilities over time and are not likely to impact in any measurable way job opportunities in New York State. To the contrary, these proposed regulatory updates may create job opportunities for engineers and construction firms to design and construct necessary wastewater treatment facility retrofits.

Certain waters subject to the proposed Enterococci WQS are impacted by CSOs that occur in Class SB and Class I waters in and around NYC. NYC's CSO control program is implemented through the development of Long Term Control Plans (LTCPs). The LTCPs must meet the regulatory requirements of the United States Environmental Protection Agency's (USEPA) CSO Control Policy as per the Clean Water Act section 402(q), and must adhere to the terms of the 2005 Consent Order between the Department and NYC (Case No. CO2-20000107-8), as modified in 2008, 2009, 2012, 2015, 2016, and 2017 (collectively the "Consent Order"), and NYC's SPDES permits. LTCPs evaluate the cost-effectiveness of a range of control options/strategies, including up to 100% CSO capture. The LTCPs are reviewed and approved by the Department, based on currently applicable WQS. The yet to be completed cost of projects detailed in the approved<sup>3</sup> LTCPs is \$2.3 billion. The LTCPs will not be immediately opened or renegotiated to attain compliance with the proposed WQS but will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through post-construction compliance monitoring (PCCM).

NYC DEP provided water quality model runs to the Department to assess compliance with the proposed Enterococci WQS in the CSO-impacted waters. The model runs indicated that the proposed Enterococci WQS will not be attained in some waters; thus, additional water quality improvements may be needed after the LTCP projects are completed. CSO-impacted waters projected not to attain the proposed Enterococci WQS for Class SB are limited to the Hutchinson River. CSO-impacted

waters projected not to attain the proposed Enterococci WQS for Class I include: Alley Creek, Bronx River, Coney Island Creek, Flushing Creek, tributaries of Jamaica Bay and Westchester Creek.

Estimating costs for these CSO-impacted waters to achieve the proposed WQS is difficult because pollutant concentrations at the overflows are unknown and variable, unlike a traditional SPDES outfall where the pollutant concentrations are monitored and the necessary controls to achieve compliance are easily calculated. Although such impacts are not immediate, as noted above, costs for CSO-impacted waters to comply with the proposed Enterococci WQS must still be estimated. Using 100% CSO capture, a highly conservative approach with respect to water quality, the Department estimated increased control costs for outfalls discharging to Alley Creek, Bronx River, Coney Island Creek, Flushing Creek, Hutchinson River, tributaries of Jamaica Bay and Westchester Creek to meet the proposed Enterococci WQS for Class SB and Class I waters. The total cost of 100% capture for these receiving waters is \$9.7 billion.

The (WW) designation being proposed with the regulatory updates will not be immediately applicable to any waters and therefore has no associated costs. Future rule makings that apply the (WW) designation will detail costs associated with its application.

### 3. Regions of Adverse Impact

These proposed regulatory updates would set forth new WQS protecting recreation and shellfishing, as applicable, in saline waters of the State. These waters are found along the shores of Bronx, Kings, Nassau, New York, Queens, Richmond, Rockland, Suffolk, and Westchester counties. However, as mentioned above, the proposed regulatory updates are not likely to negatively impact, in any measurable way, job opportunities in the state of New York. To the contrary, these proposed regulatory updates may create job opportunities for engineers and construction firms to design and construct necessary wastewater treatment facility retrofits. The proposed regulatory updates may also result in fewer beach closures which, in turn, would potentially increase tourism revenue for the affected areas.

### 4. Minimizing Adverse Impact

The proposed regulatory updates will take effect on the date specified in the Notice of Adoption. However, the Department recognizes that it may be unreasonable, both physically and fiscally, to expect regulated parties to comply with the regulations immediately. After the regulatory updates become effective, they will be implemented in SPDES permits when they are initially issued or renewed. Permit renewals and integration of the proposed WQS will follow the Department's Environmental Benefit Permit Strategy that prioritizes permit renewals having the greatest environmental impact. If additional new, or modified, treatment is required to meet the proposed WQS, a compliance schedule may be included in the permit on a case-by-case basis and may require the permittee to submit a report describing their alternative treatment strategy to meet the WQS, including a schedule for construction. Under such a scenario, the Department would review and, if appropriate, approve the report before construction could commence.

Waters subject to CSO discharges from permitted CSO outfalls will be assessed for compliance with the new WQS after completion of the LTCP and validation of LTCP controls through PCCM. After PCCM is completed and compliance with the WQS are assessed, new CSO control goals may be applied to discharges to waters that fail to meet WQS.

### 5. Conclusion

The Department determined that this potential impact is not a "substantial adverse impact on jobs and employment opportunities" as that term is defined in section 201-a(6)(c) of the New York State Administrative Procedure Act. In addition, these proposed regulatory updates will not have a measurable impact on self-employment. Therefore, the Department determined that a Job Impact Statement is not required.

<sup>1</sup> Class SC waters do not have a best use of primary contact recreation assigned to them in 6 NYCRR Part 701, but 701.12 does specify "The water quality shall be suitable for primary and secondary contact recreation..." in Class SC waters. Absent a primary contact recreation best use, Class SC waters are still protected by standards aligning with the swimmable goal of the Clean Water Act.

<sup>2</sup> All '\$/MGD' and '\$/MGD per year' rates were adjusted for inflation from 2016 to 2022 values (<https://www.usinflationcalculator.com/>).

<sup>3</sup> The "Combined Sewer Overflow Long Term Control Plan for Citywide/Open Waters" (September 2020) is still under review and has not been approved by the Department. The waters covered by this LTCP were not

included in the cost calculations because they were not impacted by the proposed regulatory updates (Class SD waters), or current projections show present or future attainment of the proposed WQS.

### PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

#### Tariff Filing

**I.D. No.** PSC-17-23-00002-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** The Commission is considering the filing of Saratoga Water Services, Inc. to revise its tariff, P.S.C. No. 4 — Water, to clarify its terms for discontinuance of service.

**Statutory authority:** Public Service Law, sections 4(1), 5(1)(f), 89-b, 89-c(1) and 89-c(10)

**Subject:** Tariff filing.

**Purpose:** To consider whether the proposed tariff revisions are in the public interest.

**Substance of proposed rule:** The Commission is considering tariff revisions filed by Saratoga Water Services, Inc. (Saratoga), on March 28, 2023, designed to clarify that water service, for all customer classifications, may be discontinued for failure to provide access to or damaging Saratoga's water supply equipment, including meters.

Saratoga states that its tariff filing will have no effect on the Company's revenue. Saratoga proposes revisions to its tariff, P.S.C. No. 4 – Water, Leaf Nos. 3, 18, 27, 28, 29, 31, 33, and 39 to incorporate a new section labeled “Discontinuance of Service – Other” as well as other formatting and housekeeping updates resulting from the additional language. Saratoga states the language in the proposed section is identical to the language included in standard tariffs approved for many small water companies. The effective date of these tariff amendments would be August 1, 2023. Saratoga also requests waiver of the requirements for newspaper publication pursuant to Public Service Law § 89-c(10), stating it will notify customers of the filing and proposed changes by letter on or before July 1, 2023.

The full text of the tariff filing and the full record of the proceeding may be reviewed online at the Department of Public Service web page: [www.dps.ny.gov](http://www.dps.ny.gov). The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

**Text of proposed rule and any required statements and analyses may be obtained by filing a Document Request Form (F-96) located on our website <http://www.dps.ny.gov/f96dir.htm>. ## PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

### Issuance of Securities and Other Forms of Indebtedness

**I.D. No.** PSC-17-23-00003-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** The Commission is considering the petition of Wellesley Island Water Corp. (WIWC) for authorization to enter into a loan agreement with the United States Department of Agriculture and CoBank to borrow \$3,400,000 dollars for system improvements.

**Statutory authority:** Public Service Law, sections 89-b(1), 89-c(1), 89-c(10) and 89-f

**Subject:** Issuance of securities and other forms of indebtedness.

**Purpose:** To determine if the issuance of funding for capital needs and a surcharge mechanism is in the public interest.

**Substance of proposed rule:** The Public Service Commission is considering a petition by Wellesley Island Water Corp. (WIWC), filed on March 15, 2023, seeking Commission authorization to issue long-term indebtedness pursuant to Public Service Law (PSL) § 89-f. Specifically, WIWC requests approval to enter into a loan agreement with the United States Department of Agriculture – Rural Development (USDA-RD) and CoBank, ABC of Colorado (CoBank), under which it would borrow \$3,400,000.

The requested approval would permit WIWC to finance the following capital projects: the construction of a raw water pump station and filtration plant; a 150,000-gallon low profile water storage tank with a booster pump station; 4200 lineal feet of water main; an emergency power generator; and electrical/control work along with individual metering with electronic meter readings. Additionally, WIWC's petition seeks approval to adopt two surcharges. WIWC states that the first surcharge is to cover the interest on the interim loan, which would be applied in 2023, while the second surcharge is to cover the amorti-

zation of the permanent loan, which would be applied in 2024. The Petition also requests a waiver of the newspaper publication requirements pursuant to PSL § 89-c(10) and Title 16 of the New York Codes, Rules and Regulations § 720-8.1. on the grounds that WIWC would notify all customers of the proposed surcharges by letter and for that reason.

## PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

### Waiver of Certain Commission Requirements Related to the Distribution of Telephone Directories

**I.D. No.** PSC-17-23-00004-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** The Commission is considering a petition by Newport Telephone Company, Inc. for a waiver of 16 NYCRR 602.10(b), pertaining to the distribution of telephone directories.

**Statutory authority:** Public Service Law, section 94(2)

**Subject:** Waiver of certain Commission requirements related to the distribution of telephone directories.

**Purpose:** To ensure performance in accordance with applicable telecommunications laws, regulations and standards and the public interest.

**Substance of proposed rule:** The Commission is considering a petition, filed by Newport Telephone Company, Inc. (Newport) on March 28, 2023, for a waiver of New York Code of Rules and Regulations, Title 16, Section 602.10(b) pertaining to the distribution of telephone directories. In accordance with this rule, Newport annually publishes and delivers to all customers a printed directory of residential and business white page listings along with yellow page listings.

Newport requests authorization to discontinue the blanket distribution of “hard copy” directories to all customers. If granted, the requested waiver would allow Newport to make residential, business, and yellow page directory listings available to customers online, at no charge, or in electronic or printed formats, upon request, at no charge. Newport asserts that the waiver will preserve and protect the environment while maintaining the availability of telephone listings at no charge to customers. The same relief has been requested by and granted to Verizon New York, Frontier Communications, Nicholville Telephone Company, State Telephone Company, Pattersonville Telephone Company, Middleburgh Telephone Company and Oneida County Rural Telephone Company in Case Nos. 16-C-0186, 17-C-0013, 20-C-0127, 20-C-0281, 21-C-0054, 21-C-0492 and 22-C-0585, respectively.

The full text of the petition and the full record of the proceeding may be reviewed online at the Department of Public Service web page: [www.dps.ny.gov](http://www.dps.ny.gov). The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

### NOTICE OF ADOPTION

#### Certification and Training of Code Enforcement Personnel

**I.D. No.** DOS-05-23-00018-A

**Filing No.** 307

**Filing Date:** 2023-04-11

**Effective Date:** 2023-04-27

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

**Action taken:** Amendment of Part 1208 of Title 19 NYCRR.

**Statutory authority:** Executive Law, sections 376-a and 381(1)

**Subject:** Certification and training of code enforcement personnel.

**Purpose:** To amend the existing certification and training regulations to comply with recent amendments to Executive Law section 376-a.

**Substance of final rule:** This rule making would amend Part 1208 of Title 19 of the NYCRR as follows:

Section 1208-1.2(c), (d):

Amended definitions of the following:

(c) Certified building safety inspector.

(d) Certified code enforcement official.

Section 1208-2.1 (b), (c):

Added references to new section 1208-5.5.

Section 1208-2.2 (a):

Added reference to new section 1208-5.5.

Section 1208-2.2(b)(1):

(1) A person who has successfully completed at least one-third of the required building safety inspector basic training program described in section 1208-3.2(b) of this Part may, during such person's basic training period (as that term is defined in paragraph (3) of this subdivision), perform building safety inspector enforcement activities on behalf of the local government, county, or State agency by which such person is employed, provided that:

(i) such local government, county, or State agency designates such person to perform building safety inspector enforcement activities on behalf of such local government, county, or State agency; and

(ii) such person is progressing toward completion of the building safety inspector basic training program at a rate which, in the judgment of the local government, county, or State agency by which such person is employed, will assure that such person will complete such program within such person's basic training period.

If such person fails to complete the building safety inspector basic training program within their basic training period, they shall not be permitted to perform any building safety inspector enforcement activities until and unless an extension is granted pursuant to section 1208-3.2(d) of this Part.

Section 1208-2.2 (b)(2):

(2) A person who has successfully completed at least one-sixth of the required code enforcement official basic training program described in section 1208-3.2(c) of this Part may, during the such person's basic training period (as that term is defined in paragraph (3) of this subdivision), perform building safety inspector enforcement activities on behalf of the local government, county, or State agency by which such person is employed; and a person who has completed at least two-thirds of the required code enforcement official basic training program described in section 1208-3.2(c) of this Part may, during the such person's basic training period (as that term is defined in paragraph (3) of this subdivision), perform code enforcement official enforcement activities on behalf of the local government, county, or State agency by which such person is employed, provided that:

(i) such local government, county, or State agency designates such person to perform code enforcement official enforcement activities on behalf of such local government, county, or State agency; and

(ii) such person is progressing toward completion of the code enforcement official basic training program at a rate which, in the judgment of the local government, county, or State agency by which such person is employed, will assure that such person will complete such program within such person's basic training period.

If such person fails to complete the code enforcement official basic training program within their basic training period, they shall not be permitted to perform any code enforcement official enforcement activities or building safety inspector enforcement activities until and unless an extension is granted pursuant to section 1208-3.2(d) of this Part.

Section 1208-3.2(a):

Added reference to new section 1208-5.5.

Section 1208-3.2(d):

(1) For building safety inspectors, a person must complete the entire basic training program applicable to building safety inspectors within six months of the date on which such person attended the first training course included in that basic training program. However, a person who is or who becomes employed as a building safety inspector by a local government, county, or State agency must complete that basic training program within six months from the date of appointment.

(2) For code enforcement officials, a person must complete the entire basic training program applicable to code enforcement officials within 12 months of the date on which such person attended the first training course included in that basic training program. However, a person who is or who becomes employed as a code enforcement official by a local government, county, or State agency must complete that basic training program within 12 months from the date of appointment.

Failure to complete a basic training program within the time period established in this subdivision shall result in the forfeiture of any and all accrued basic code enforcement training credit.

The time period established in this subdivision for the completion of a basic training program may be extended by the secretary for good cause shown. An application for such an extension shall set forth the reason(s) supporting such a grant of an extension, or extensions may be granted at the discretion of the secretary or the secretary's designee. Any such extension shall be in writing, signed by the secretary or the secretary's designee, and shall be subject to such terms and conditions as the secretary may prescribe.

Section 1208-3.3(b)(1):

(1) Code enforcement and administration - including changes in law, advancements in construction techniques, or detection and remediation of common violations of the uniform code and/or energy code (suggested sub-topics include, but are not limited to):

(i) code enforcement practices and organization (suggested sub-topics include, but are not limited to: inspection techniques; building system technology; legal issues affecting the building safety inspector; and the building safety inspector and diplomacy);

(ii) public policy considerations affecting building construction and maintenance (suggested sub-topics include, but are not limited to: historic preservation; handicap accessibility issues; energy conservation; temporary structures; fire inspections and fire protection features; review of the reference standards; and means of egress issues);

(iii) occupancy classification and hazard recognition (suggested sub-topics include, but are not limited to: occupancy classification; fire safety issues; hazardous materials storage; solid fuel-burning equipment; and unvented heaters); and

(iv) code interpretations and application (suggested sub-topics include, but are not limited to: Uniform Code update; legal interpretations, and technical bulletins).

Section 1208-3.5(d):

To be reclassified with active certification as a building safety inspector or as a code enforcement official following an inactive certification status pursuant to subdivision (a) of this section for a period of three or more consecutive years, a person must repeat, and successfully complete, the applicable basic training program described in section 1208-3.2 of this Subpart within the time period determined pursuant to section 1208-3.2(d) of this Subpart. The requirement that the basic training program be repeated may be waived, at the discretion of the secretary, if the person seeking re-certification takes an examination for each basic training course for the desired category of certification and achieves a passing score on each such examination.

Section 1208-3.5(e):

To be re-certified as a certified building safety inspector or as a certified code enforcement official following revocation of certification pursuant to subdivision (b) of this section, a person must repeat, and successfully complete, the applicable basic training program described in section 1208-3.2 of this Subpart within the time period determined pursuant to section

1208-3.2(d) of this Subpart. The procedures outlined in section 1208-5.5 of this Part may not be utilized to obtain re-certification after revocation. The requirement that the basic training program be repeated may be waived, at the discretion of the secretary, if the person seeking re-certification takes an examination for each basic training course for the desired category of certification and achieves a passing score on each such examination.

Section 1208-3.5(f):

(f) An individual whose certification has been classified as inactive or revoked pursuant to this section shall not be permitted to perform any building safety inspector enforcement activities or any code enforcement official enforcement activities until and unless such individual has satisfied the reclassification or recertification requirements of this section. Pursuant to Executive Law § 376-a(2)(j), nothing in this section shall be deemed to diminish the rights, privileges, or remedies of any applicant or current or former employee under any other law or regulation or under any collective bargaining agreement or employment contract.

Section 1208-5.5:

1208-5.5 Nationally Recognized Certification Alternatives.

(a) Nationally Recognized Certification Alternatives to Building Safety Inspector Basic Training.

(1) A person may be certified as a certified building safety inspector if they:

(i) possess a current nationally recognized certification approved by the secretary, or their designee, as an equivalent to the basic training program included in section 1208-3.2(b) of this Part; and

(ii) have successfully taken and passed the New York State Code Enforcement Principles and Practice Exam as identified in subdivision (c) of this section.

(2) To maintain certification granted pursuant to this subdivision, the person receiving such certification must satisfy the building safety inspector in-service training requirements described in section 1208-3.3(b) of this Part for each calendar year, starting with the calendar year following the initial approval and continuing every calendar year thereafter, and any and all building safety inspector advanced in-service training requirements made applicable pursuant to section 1208-3.4 of this Part. Maintenance of the approved alternative nationally recognized certification shall not be required for continued certification as a building safety inspector.

(3) The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee.

(b) Nationally Recognized Certification Alternatives to Code Enforcement Official Basic Training.

(1) A person may be certified as a certified code enforcement official if they:

(i) possess a current nationally recognized certification approved by the secretary, or their designee, as an equivalent to the basic training program included in section 1208-3.2(c) of this Part; and

(ii) have successfully taken and passed the New York State Code Enforcement Principles and Practice Exam as identified in subdivision (c) of this section.

(2) To maintain certification granted pursuant to this subdivision, the person receiving such certification must satisfy the code enforcement official in-service training requirements described in section 1208-3.3(c) of this Part for each calendar year, starting with the calendar year following the initial approval and continuing every calendar year thereafter, and any and all code enforcement official advanced in-service training requirements made applicable pursuant to section 1208-3.4 of this Part. Maintenance of the approved alternative nationally recognized certification shall not be required for continued certification as a code enforcement official.

(3) The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list.

(c) New York State Code Enforcement Principles and Practice Exam.

(1) Any person seeking to obtain certification as a building safety inspector or a code enforcement official pursuant to this section shall be required to take and pass a New York State Code Enforcement Principles and Practice Exam. Said exam shall be developed by the department and include New York specific administrative, technical, and legal topics.

(2) Applications for the New York State Code Enforcement Principles and Practice Exam shall be in accordance with section 1208-5.1 of this Subpart. Upon receipt of an application and following the department's approval of the application, the person shall be permitted to take the exam. Upon achievement of a passing score on the exam, the department shall issue a certificate of completion for the exam, and such individual shall be certified in accordance with section 1208-3.1(a) or (b) of this Part, as appropriate.

(d) Except where otherwise specifically provided in this Part, any person

seeking to obtain certification as a building safety inspector or a code enforcement official pursuant to this section shall not be permitted to perform any enforcement activity until and unless they have obtained their certification from the department.

**Final rule as compared with last published rule:** Nonsubstantial changes were made in sections 1208-2.2(b)(1), 1208-3.2(d), 1208-3.5(f), 1208-5.5(b)(3), 1208-2.2(b)(2), 1208-3.5(e), 1208-5.5(a)(3) and (c)(2).

**Revised Regulatory Impact Statement, Regulatory Flexibility Analysis and Rural Area Flexibility Analysis**

The Department of State has determined that the changes made to the last published rule are non-substantive and do not necessitate a revision of the original Regulatory Impact Statement, Regulatory Flexibility Analysis and Rural Area Flexibility Analysis published in the Notice of Proposed Rule Making in the State Register on February 1, 2023.

Non-substantive changes were made in [Parts, sections, subdivisions, or paragraphs] as follows:

1. In the last sentence of section 1208-2.2(b)(1), the word "waiver" was replaced with "extension."

2. In section 1208-2.2(b)(2), the first sentence was modified by removing the word "the."

3. In the last sentence of section 1208-2.2(b)(2), the word "waiver" was replaced with "extension."

4. In section 1208-3.2(d), a new paragraph break was added after the sentence "Failure to complete a basic training program within the time period established in this subdivision shall result in the forfeiture of any and all accrued basic code enforcement training credit."

5. In the last paragraph of section 1208-3.2(d), the second sentence was updated to read as follows: "An application for such an extension shall set forth the reason(s) supporting such a grant of an extension, or extensions may be granted at the discretion of the secretary or the secretary's designee."

6. In section 1208-3.5(e), the following sentence was inserted before the last sentence: "The procedures outlined in section 1208-5.5 of this Part may not be utilized to obtain re-certification after revocation."

7. In section 1208-3.5(f), the section symbol was replaced with the word "section."

8. In section 1208-5.5(a)(3), the section was modified to read: "The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list."

9. In section 1208-5.5(b)(3), the section was modified to read: "The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list."

10. In section 1208-5.5(c)(2) the word "Subpart" replaced the word "Part" and the last sentence was modified to read: "Upon achievement of a passing score on the exam, the department shall issue a certificate of completion for the exam, and such individual shall be certified in accordance with 1208-3.1(a) or (b) of this Part, as appropriate."

**Revised Job Impact Statement**

The Department of State has determined that the changes made to the last published rule are non-substantive and do not necessitate a revision of the original Job Impact Statement published in the Notice of Proposed Rule Making in the State Register on February 1, 2023.

The changes made to the previously published rule text provide clarification as to the application of the proposed text and will not have a substantial adverse impact on jobs and employment opportunities in New York State.

Non-substantive changes were made in [Parts, sections, subdivisions, or paragraphs] as follows:

1. In the last sentence of section 1208-2.2(b)(1), the word "waiver" was replaced with "extension."

2. In section 1208-2.2(b)(2), the first sentence was modified by removing the word "the."

3. In the last sentence of section 1208-2.2(b)(2), the word "waiver" was replaced with "extension."

4. In section 1208-3.2(d), a new paragraph break was added after the sentence "Failure to complete a basic training program within the time period established in this subdivision shall result in the forfeiture of any and all accrued basic code enforcement training credit."

5. In the last paragraph of section 1208-3.2(d), the second sentence was

updated to read as follows: “An application for such an extension shall set forth the reason(s) supporting such a grant of an extension, or extensions may be granted at the discretion of the secretary or the secretary’s designee.”

6. In section 1208-3.5(e), the following sentence was inserted before the last sentence: “The procedures outlined in section 1208-5.5 of this Part may not be utilized to obtain re-certification after revocation.”

7. In section 1208-3.5(f), the section symbol was replaced with the word “section.”

8. In section 1208-5.5 (a)(3), the section was modified to read: “The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list.”

9. In section 1208-5.5(b)(3), the section was modified to read: “The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list.”

10. In section 1208-5.5(c)(2) the word “Subpart” replaced the word “Part” and the last sentence was modified to read: “Upon achievement of a passing score on the exam, the department shall issue a certificate of completion for the exam, and such individual shall be certified in accordance with 1208-3.1(a) or (b) of this Part, as appropriate.”

#### **Initial Review of Rule**

As a rule that requires a RFA, RAFA or JIS, this rule will be initially reviewed in the calendar year 2026, which is no later than the 3rd year after the year in which this rule is being adopted.

#### **Assessment of Public Comment**

This proposed rule amends Part 1208 of Title 19 of the Official Compilation of the Rules and Regulations of the State of New York (Part 1208), which establishes basic training and examination requirements for code enforcement personnel and provides for certification of persons who satisfy those requirements. The Proposed Rule Making was published in the State Register on February 1, 2023. A public hearing was held on April 5, 2023, and the public comment period ended on April 10, 2023.

The Department of State (DOS) did not receive any comments during the public hearing and received two comment letters during the public comment period. Some of the comments received either requested clarification or indicated that some provisions had been misunderstood. As a result, editorial clarifications were made to the proposed rule and minor changes were made to correct typographical errors.

COMMENT 1: A comment was received requesting that the terms “certification” and “certified official” be added to the definitions section.

RESPONSE TO COMMENT 1: DOS determined that the proposed term “certification” was unnecessary, as one main purpose of Part 1208 is to specify what certification entails, including requirements and proof of certification. A definition specifying that certification means compliance with the requirements of Part 1208 would be redundant and would not provide clarity.

The terms “certified building inspector” and “certified code enforcement official” are already included in the definitions section. The suggested term, “certified official,” is not a term utilized by DOS, and is not found in Part 1208. Therefore, it was determined that the addition of the term “certified official” would not add clarity and might cause confusion.

COMMENT 2: Comments were received requesting that sections 1208-2.2(b)(1), 1208-2.2(b)(2), and 1208-3.2(d) be changed to allow a person to start the building safety inspector or code enforcement official training over in lieu of obtaining a waiver, and to provide a stay of the deadline for training completion should the Department be unable to provide the training. A typo was also identified in the first sentence of section 1208-2.2(b)(2) as follows (in strikethrough): “...during the such person’s basic training period...”

RESPONSE TO COMMENT 2: The training completion deadline revisions were made in accordance with Chapter 797 of the Laws of 2022 and Chapter 88 of the Laws of 2023, which include provisions that restrict the training completion deadlines as specified in the revised Part 1208. Accordingly, an individual who is appointed as a building safety inspector or a code enforcement official would not be permitted by law to start the training over in an effort to restart their timeframes, because the timeframes are based on their date of appointment. However, nothing in Part 1208 prohibits an individual who has not been appointed as a building safety inspector or code enforcement official from retaking the basic training.

Part 1208 includes provisions allowing extensions to the training completion deadlines for “good cause shown.” These provisions allow an individual to apply for an extension under any number of potential circumstances, including the potential event of the Department being unable

to provide training within the timeframes. Since 2020, training courses have been offered remotely, making the basic training easier to access for many people. The average time for an individual to complete basic code enforcement official training has decreased from 12-18 months (depending on location) to approximately 5 months (without variation for location) and building safety inspector training times have decreased by a similar percentage. However, in the unlikely event that the Department is unable to provide a training class within the timeframes, the Secretary may grant an extension to those individuals impacted. To clarify that such extensions are permitted, in the last paragraph of section 1208-3.2(d), the second sentence was updated to read as follows: “An application for such an extension shall set forth the reason(s) supporting such a grant of an extension, or extensions may be granted at the discretion of the secretary or the secretary’s designee.”

The language in sections 1208-2.2(b)(1) and (2) was updated to replace the word “waiver” with the word “extension” to correlate the terminology in these sections with the terminology in the referenced section 1208-3.2(d).

Additionally, the typo in the first sentence of section 1208-2.2(b)(2) was corrected.

COMMENT 3: A comment was received requesting that the required training topics (“changes in law, advancements in construction techniques, or detection and remediation of common violations of the uniform code and/or energy code”) included in 1208-3.3(b)(1) be moved into the “suggested subtopics” in 1208-3.3(b)(1)(i) through 1208-3.3(b)(1)(iv).

RESPONSE TO COMMENT 3: Per Chapter 797 of the Laws of 2022 and Chapter 88 of the Laws of 2023, required in-service training for certified building safety inspectors and certified code enforcement officials shall include “topics on changes in law, advancements in construction techniques, or detection and remediation of common violations of the uniform code and/or energy code.” Since the subtopics in 1208-3.3(b)(1)(i) through 1208-3.3(b)(1)(iv) are stated to be “suggested subtopics,” these are not requirements, but merely examples of appropriate training topics. Since the in-service training topics required by the statute are required, not merely suggested, these topics must be included with the other required topics for in-service training.

COMMENT 4: A comment was received requesting that the language of 1208-3.5(d) and (e) be modified to address a potential loophole regarding an individual who was originally certified in accordance with section 1208-5.5, but whose New York State certification has been designated as inactive for a period of three or more years or has been revoked. The comment states that the loophole would allow the individual to avoid taking the basic training class when seeking re-certification and simply rely on them having previously passed the New York State Code Enforcement Principles and Practice Exam.

RESPONSE TO COMMENT 4: Section 1208-3.5(e) addresses revocation of an individual’s New York State certification due to improper behavior related to obtaining the certification through the basic training program. Since such revocation brings the individual’s knowledge of the materials covered in the basic training course into question, the method outlined in section 1208-5.5 is not appropriate for use in regaining New York State certification after revocation. Section 1208-3.5(d) addresses the situation where an individual is designated inactive for 3 or more years. Their initial knowledge at the time of certification being granted is not in question. However, since such individual has not maintained their certification through in-service training, either re-taking basic training or, if such individual has maintained an approved alternative certification with appropriate continuing education, then the use of the method outlined in section 1208-5.5 to obtain re-certification is appropriate, provided they re-take and pass the New York State Code Enforcement Principles and Practice Exam. As such, only the language of Section 1208-3.5(e) has been updated by adding the following prior to the last sentence: “The procedures outlined in section 1208-5.5 of this Part may not be utilized to obtain re-certification after revocation.”

COMMENT 5: A comment was received suggesting that the alternative language of 1208-5.5(e) not be permitted in lieu of the basic training program in order to ensure someone who is certified is following proper NYS standards for administration and enforcement.

RESPONSE TO COMMENT 5: 1208-5.5(e) relies on the Secretary (or designee) to determine which certifications are equivalent to the basic training program, when combined with the New York State Code Enforcement Principles and Practice Exam. Accordingly, an individual who becomes certified through the basic training program or 1208-5.5(e), will have proven an equivalent level of knowledge and abilities; therefore, no change was made.

COMMENT 6: Comments were received requesting that language in sections 1208-5.5(a)(1) and 1208-5.5(b)(1) be revised to indicate that the criteria for this alternative certification process be written as “requirement language” instead of the current possessive language.

RESPONSE TO COMMENT 6: The proposed modification changes

neither the intent nor the clarity of the regulation, therefore no changes were made.

COMMENT 7: Comments were received requesting that language in sections 1208-5.5(a)(1) and 1208-5.5(b)(1) be revised to ensure that the loophole discussed in comment 5 is not continued throughout the regulation allowing an individual who was certified through an alternative means with the ability to recertify.

RESPONSE TO COMMENT 7: The clarifications made in response to comment 5 address this concern.

COMMENT 8: A comment was received stating that section 1208-5.5(c)(2), should be revised to clarify the meaning of "Upon achievement of a passing score on the exam, the department shall issue a certificate."

RESPONSE TO COMMENT 8: The language of the rule was modified as suggested and further modified to say, "Upon achievement of a passing score on the exam, the department shall issue a certificate of completion for the exam, and such individual shall be certified in accordance 1208-3.1(a) or (b) of this Part, as appropriate." This modification identifies the procedures following the satisfactory passing of the exam.

COMMENT 9: A comment was received expressing concern that this rule modification allows "outsiders" to bypass basic training.

RESPONSE TO COMMENT 9: The intent of the rule change is to allow anyone who has undertaken training on building codes equivalent to the basic training program and has shown that they are knowledgeable in New York State-specific requirements to bypass the basic training program. This rule applies to all individuals regardless of whether they are residents of the State.

COMMENT 10: A comment was received expressing the desire for increased pay for code enforcement activities, citing recent increases in family expenses and a limited ability to perform overtime work due to the nature of the job.

RESPONSE TO COMMENT 10: The pay of building safety inspectors and code enforcement officials is outside of the scope of this rule and the authority of the agency.

#### Description of Changes Made in the Rule

The rule now being adopted makes the following non-substantive changes to the rule as proposed in the Notice of Proposed Rule Making:

1. In the last sentence of section 1208-2.2(b)(1), the word "waiver" was replaced with "extension."

2. In section 1208-2.2(b)(2), the first sentence was modified by removing the word "the."

3. In the last sentence of section 1208-2.2(b)(2), the word "waiver" was replaced with "extension."

4. In section 1208-3.2(d), a new paragraph break was added after the sentence "Failure to complete a basic training program within the time period established in this subdivision shall result in the forfeiture of any and all accrued basic code enforcement training credit."

5. In the last paragraph of section 1208-3.2(d), the second sentence was updated to read: "An application for such an extension shall set forth the reason(s) supporting such a grant of an extension, or extensions may be granted at the discretion of the secretary or the secretary's designee."

6. In section 1208-3.5(e), the following sentence was inserted before the last sentence: "The procedures outlined in section 1208-5.5 of this Part may not be utilized to obtain re-certification after revocation."

7. In section 1208-3.5(f), the section symbol was replaced with the word "section."

8. In section 1208-5.5(a)(3), the section was modified to read: "The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list."

9. In section 1208-5.5(b)(3), the section was modified to read: "The department shall maintain a list of approved nationally recognized certifications which may be amended from time to time as deemed necessary by the secretary or their designee, and any conditions on such approved certifications that may be imposed by the secretary or their designee shall be noted on such list."

10. In section 1208-5.5(c)(2) the word "Subpart" replaced the word "Part," and the last sentence was modified to read: "Upon achievement of a passing score on the exam, the department shall issue a certificate of completion for the exam, and such individual shall be certified in accordance with 1208-3.1(a) or (b) of this Part, as appropriate."

## Workers' Compensation Board

### EMERGENCY RULE MAKING

#### Allowing Telemedicine in Some Circumstances, Supersede Previous Emergency Adoption

I.D. No. WCB-17-23-00001-E

Filing No. 306

Filing Date: 2023-04-11

Effective Date: 2023-04-11

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

**Action taken:** Amendment of sections 325-1.8, 329-1.3, 329-4.2, 333.2 and 348.2 of Title 12 NYCRR.

**Statutory authority:** Workers' Compensation Law, sections 117 and 142

**Finding of necessity for emergency rule:** Preservation of public health, public safety and general welfare.

**Specific reasons underlying the finding of necessity:** This amendment is adopted as an emergency measure because the Board wants to avoid health and safety risks that can be avoided through social distancing due to COVID-19, including new variants, by allowing telemedicine in some circumstances, and to supersede the previous emergency adoption addressing this topic. Additionally, the Board has seen these emergency measures work efficiently and effectively to provide care for injured workers and plans to adopt a permanent regulation addressing when telehealth may be used to benefit injured workers and wants to keep the current telemedicine rules in effect during the regulatory process for the permanent telehealth proposal.

**Subject:** Allowing telemedicine in some circumstances, supersede previous emergency adoption.

**Purpose:** To allow telemedicine in some circumstances due to COVID-19 and keep in effect during permanent telehealth proposal process.

**Text of emergency rule:** Section 325-1.8 of Title 12 NYCRR is hereby amended to read as follows:

325-1.8 Emergency medical aid and telemedicine.

(a) In the event of a serious accident requiring immediate emergency medical aid, an ambulance or any physician may be called to give first aid treatment.

(b) *Telemedicine, using two-way audio and visual electronic communication, or treatment via telephone, may be used by authorized providers where medically appropriate for social distancing purposes in accordance with the Department of Health COVID-19 Medicaid Guidance and Guidance issued by the Centers for Medicare and Medicaid Services, or irrespective of purely social distancing considerations, in the clinical judgment of the authorized provider; the potential risk of COVID-19 infection to an individual patient outweighs any real or perceived incremental benefit derived from an in-person versus remote or virtual appointment. The authorized provider shall indicate on their report that such assessment was done by telemedicine using modifier 95 and indicating place of service as 11, or telephonically by indicating place of service as 02. The provider shall also confirm the employee's identity as well as provide basic information about the services the employee is receiving by telephone or telemedicine.*

New subdivisions (c) and (d) of section 329-1.3 of Title 12 NYCRR is hereby added to read as follows:

(c) *When medically appropriate, authorized providers who utilize the Official New York State Workers' Compensation Fee Schedule may, when telemedicine is used in accordance with section 325-1.8 of this Title and any applicable Medical Treatment Guideline, bill using the applicable Evaluation and Management codes (99212-99214) using modifier 95 and indicating 11 as the place of service. Modifiers 1B and 1D are available when services are rendered by telemedicine using two-way audio and visual communication. When services are rendered by telephone only in accordance with section 325-1.8 of this Title, the authorized provider shall indicate 02 as the place of service. Modifiers 1B and 1D are not available when services are rendered by telephone with no visual component.*

(d) *Providers with the rating codes PSY, LCSW, and LCSW-R may bill the following psychotherapy codes in conjunction with Evaluation and Management codes:*

(i) *New patient Evaluation and Management: 99201-99204;*

(ii) *Psychotherapy combination codes and crisis codes: 90832-90834, 90836-90840, 90853;*

A new subdivision (d) of section 329-4.2 of Title 12 NYCRR is hereby added to read as follows:

(d) *When medically appropriate, authorized physical therapists and occupational therapists shall use Common Procedural Technology (CPT) code 99212 using modifier 95 and indicating 11 as the place of service when treatment is rendered by telemedicine using two-way audio and visual communication, and indicating 02 as the place of service when treatment is rendered by telephone only. Treatment in accordance with section 325-1.8 of this Title and using these codes shall be limited to one unit per patient per day, up to two treatments per week during the thirty days following injury, and up to one treatment per week thereafter.*

New subdivisions (c) and (d) of section 333.2 of Title 12 NYCRR is hereby added to read as follows:

(c) *When medically appropriate, authorized providers, including psychologists and licensed clinical social workers, shall use a Common Procedural Technology (CPT) therapy code (90832, 90834, or 90837) for services delivered by telemedicine in accordance with section 325-1.8 of this Title using modifier 95 and indicating 11 as the place of service for therapy by telemedicine using two-way audio and visual communication. Modifiers 1B and 1D are available when services are rendered by telemedicine using two-way audio and visual communication. When services are rendered by telephone only in accordance with section 325-1.8 of this Title, the authorized provider shall indicate 02 as the place of service. Modifiers 1B and 1D are not available when services are rendered by telephone with no visual component. Group therapy: 90853. Group therapy is limited to a maximum of 20 participants and does not require that every participant in the group therapy session be a workers' compensation claimant.*

A new subdivision (c) of section 348.2 of Title 12 NYCRR is hereby amended to read as follows:

(c) *When medically appropriate, authorized chiropractors shall use Common Procedural Technology (CPT) code 99212 using modifier 95 and indicating 11 as the place of service when treatment is rendered by telemedicine using two-way audio and visual communication and indicating 02 as the place of service when treatment is rendered by telephone only. Treatment in accordance with section 325-1.8 of this Title and using these codes shall be limited to one unit per patient per day, up to two treatments per week during the thirty days following injury, and up to one treatment per week thereafter.*

**This notice is intended** to serve only as an emergency adoption, to be valid for 90 days or less. This rule expires July 9, 2023.

**Text of rule and any required statements and analyses may be obtained from:** Heather MacMaster, Workers' Compensation Board, Office of General Counsel, 328 State Street, Schenectady, NY 12305, (518) 486-9564, email: regulations@wcb.ny.gov

#### **Regulatory Impact Statement**

1. Statutory authority: WCL § 117(1) authorizes the Chair of the Workers' Compensation Board (Board) to adopt reasonable rules consistent with, and supplemental to, the provisions of the WCL.

2. Legislative objectives: The emergency adoption allows telemedicine visits in some circumstances and to keep telemedicine in effect during the regulatory process for a permanent proposal regarding telehealth.

3. Needs and benefits: For social distancing purposes to avoid furthering the outbreak of COVID-19, including new variants, the emergency adoption allows telemedicine visits in some circumstances to avoid in person visits to authorized providers when medically appropriate, consistent with guidance issued by the Center for Medicaid and Medicare Services. This regulation will permit physicians, nurse practitioners, physician assistants, psychologists, licensed clinical social workers, chiropractors, physical therapists and occupational therapists to treat using telehealth due to COVID-19, including new variants.

Additionally, the Board has seen these emergency measures work efficiently and effectively to provide care for injured workers and plans to adopt a permanent regulation addressing when telehealth may be used to benefit injured workers and wants to keep the current telemedicine rules in effect during the regulatory process for the permanent telehealth proposal.

4. Costs: The emergency adoption will have no impact on costs.

5. Local government mandates: The proposed amendments do not impose any program, service, duty, or responsibility upon any county, city, town, village, school district, fire district, or other special district.

6. Paperwork: The emergency adoption requires authorized providers to indicate in their report that the services rendered were through telemedicine due to the outbreak of COVID-19, including new variants.

7. Duplication: The emergency adoption does not duplicate other regulatory initiatives.

8. Alternatives: An alternative would be to not file an emergency adoption addressing telemedicine, and not keep it in effect during the public

comment period and regulatory process for a permanent telehealth proposal. However, this poses a health risk to both the authorized providers and the claimants being treated, and social distancing, where medically appropriate, is a better alternative due to the outbreak of COVID-19, including the new variants. Additionally, not keeping telemedicine in effect would cause confusion and could negatively impact injured workers relying on telemedicine in some instances for their care.

9. Federal standards: There are no applicable Federal Standards.

10. Compliance schedule: The emergency adoption takes effect immediately upon filing but does not require telemedicine – it offers it as a tool to assist with social distancing in some circumstances. Any provider rendering services using telemedicine must comply with the emergency adoption, including the reporting requirements.

#### **Regulatory Flexibility Analysis**

A Regulatory Flexibility Analysis is not required because the emergency adoption will not have any adverse economic impact or impose any new reporting, recordkeeping or other compliance requirements on small businesses or local governments. The emergency adoption provides for telemedicine visits in some circumstances due to COVID-19 and to keep telemedicine in effect during the regulatory process for a permanent proposal regarding telehealth.

#### **Rural Area Flexibility Analysis**

A Rural Area Impact Statement is not required because the emergency adoption will not have any impact rural areas. The emergency adoption provides for telemedicine visits in some circumstances due to COVID-19 and to keep telemedicine in effect during the regulatory process for a permanent proposal regarding telehealth.

#### **Job Impact Statement**

A Job Impact Statement is not required because the emergency adoption will not have any impact on jobs or employment opportunities. The emergency adoption provides for telemedicine visits in some circumstances due to COVID-19 and to keep telemedicine in effect during the regulatory process for a permanent proposal regarding telehealth.

**ACTION PENDING INDEX**

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(\*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.

Agency code	Issue number	Year published	Serial number	Action Code
<b>AAM</b>	<b>01</b>	<b>12</b>	<b>0001</b>	<b>P</b>

Action codes: P — proposed rule making; EP — emergency and proposed rule making (expiration date refers to proposed rule); RP — revised rule making

# ADVERTISEMENTS FOR BIDDERS/CONTRACTORS

## SEALED BIDS

REPLACE  
ROOFS  
State Armory  
Troy, Rensselaer County

Sealed bids for Project Nos. 47359-C, comprising a contract for Construction Work, Replace Roofs, State Armory, 137 Glenmore Road, Troy (Rensselaer County), NY will be received by the Office of General Services (OGS), Design & Construction Group (D&C), Division of Contract Management, 35th Fl., Corning Tower, Empire State Plaza, Albany, NY 12242, on behalf of the Division of Military and Naval Affairs, until 2:00 p.m. on Wednesday, May 3, 2023, when they will be publicly opened and read. Each bid must be prepared and submitted in accordance with the Instructions to Bidders and must be accompanied by a bid security (i.e. certified check, bank check, or bid bond) in the amount of \$85,800 for C.

All successful bidders will be required to furnish a Performance Bond and a Labor and Material Bond pursuant to Sections 136 and 137 of the State Finance Law, each for 100% of the amount of the Contract estimated to be between \$2,000,000 and \$3,000,000 for C.

Pursuant to State Finance Law §§ 139-j and 139-k, this solicitation includes and imposes certain restrictions on communications between OGS D&C and a bidder during the procurement process. A bidder is restricted from making contacts from the earliest posting on the OGS website, in a newspaper of general circulation, or in the Contract Reporter, of written notice, advertisement or solicitation of offers, through final award and approval of the contract by OGS D&C and the Office of the State Comptroller ("Restricted Period") to other than designated staff, unless it is a contact that is included among certain statutory exceptions set forth in State Finance Law § 139-j(3)(a). Designated staff are Jessica Cook, Jessica Hoffman, and Pierre Alric in the Division of Contract Management, telephone (518) 474-0203, fax (518) 473-7862. OGS D&C employees are also required to obtain certain information when contacted during the restricted period and to make a determination of the responsibility of the bidder pursuant to these two statutes. Certain findings of non-responsibility can result in rejection for contract award and in the event of two findings within a four-year period, the bidder is debarred from obtaining governmental Procurement Contracts. Bidders responding to this Advertisement must familiarize themselves with the State Finance Law requirements and will be expected to affirm that they understand and agree to comply on the bid form. Further information about these requirements can be found within the project manual or at: <https://ogs.ny.gov/ACPL/>

Pursuant to Public Buildings Law § 8(6), effective January 11, 2020, for any projects where the project design commenced on or after January 1, 2020 and for any contracts over \$5,000 for the work of construction, reconstruction, alteration, repair, or improvement of any State building, a responsible and reliable NYS-certified Minority or Women-Owned Business Enterprise that submits a bid within ten percent of the lowest bid will be deemed the apparent low bidder provided that the bid is \$1,400,000 or less, as adjusted annually for inflation beginning January 1, 2020. If more than one responsible and reliable MWBE firm meets these requirements, the MWBE firm with the lowest bid will be deemed the apparent low bidder.

Project commenced design before January 1, 2020. Not subject to provision.

Project commenced design on or after January 1, 2020. Subject to provision.

The substantial completion date for this project is 297 days after the Agreement is approved by the Comptroller.

As a condition of award, within 48 hours of receipt of the proposed Contract Agreement from the State, the apparent low bidder shall return the Contract Agreement to the State, properly executed, along with the Bonds if required by said Agreement. Low bidders who cannot meet these provisions may be subject to disqualification and forfeiture of the bid security.

The only time prospective bidders will be allowed to visit the job site to take field measurements and examine existing conditions of the project area will be at 11:00 a.m. on April 20, 2023 at 137 Glenmore Road, Troy, NY 12180. Prospective bidders are urged, but not mandated, to visit the site at this time. Prospective bidders or their representatives attending the pre-bid site visit will not be admitted on facility grounds without proper photo identification. Note that parking restrictions and security provisions will apply, and all vehicles will be subject to search. Refer to Document 002218 for any additional requirements for attendance at the pre-bid site visit.

Phone the office of Tyson Gamache (518-474-6726) a minimum of 24 hours in advance of the date to provide the names of those who will attend the pre-bid site visit. Only contractors that schedule a visit at least 24 hours in advance will be allowed to participate in the pre-bid site visit.

Pursuant to New York State Executive Law Article 15-A and the rules and regulations promulgated thereunder, OGS is required to promote opportunities for the maximum feasible participation of New York State-certified Minority and Women-owned Business Enterprises ("MWBEs") and the employment of minority group members and women in the performance of OGS contracts. All bidders are expected to cooperate in implementing this policy. OGS hereby establishes an overall goal of 30% for MWBE participation, 15% for Minority-Owned Business Enterprises ("MBE") participation and 15% for Women-Owned Business Enterprises ("WBE") participation (based on the current availability of qualified MBEs and WBEs). The total contract goal can be obtained by utilizing any combination of MBE and/or WBE participation for subcontracting and supplies acquired under this Contract. Trades with 0% goals are encouraged to make "good faith efforts" to promote and assist in the participation of MWBEs on the Contract for the provision of services and materials.

Article 3 of the Veterans' Services Law provides for more meaningful participation in public procurement by certified Service-Disabled Veteran-Owned Businesses ("SDVOBs"). Bidders are expected to consider SDVOBs in the fulfillment of the requirements of the Contract. Such participation may be as subcontractors or suppliers, as protégés, or in other partnering or supporting roles. OGS hereby establishes overall goals for SDVOBs' participation under this contract as follows: 3% for the C trade contractor, based on the current availability of qualified SDVOBs. Trades with 0% goals are encouraged to make "good faith efforts" to promote and assist in the participation of SDVOBs on the Contract for the provision of services and materials.

The Office of General Services reserves the right to reject any or all bids.

The Bidding and Contract Documents for this Project are available for viewing and downloading from OGS Design & Construction's plan room hosting service, Bid Express. # NOTICE OF AVAILABILITY OF STATE AND FEDERAL FUNDS

Environmental Facilities Corporation  
625 Broadway  
Albany, NY 12207-2997

## MUNICIPALITIES OF NEW YORK STATE

### New York State Clean Water State Revolving Fund for Water Pollution Control and Bipartisan Infrastructure Law

The New York State Environmental Facilities Corporation (EFC) is pleased to announce the availability of \$1.97 billion in interest-free or low-interest rate financing and grant funding through the Clean Water State Revolving Fund (CWSRF). The funding is available through the base CWSRF program and the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law (BIL), a five-year program approved by Congress and signed by the President in November 2021. The funding available to New York State in Federal Fiscal Year (FFY) 2024 is expected as follows:

Program	Amount
CWSRF Base	\$1,655,160,721
CWSRF General Supplemental – FFY 2024	\$292,860,660
CWSRF Emerging Contaminants – FFY 2024	\$23,216,000
TOTAL	\$1,971,237,381

New project listing forms and project updates will be accepted through Friday, June 16, 2023 for municipalities interested in competing for the funding shown above.

Eligible entities seeking funding must:

- List or update their project using the Project Listing and Update System (PLUS), available at <https://plus.efc.ny.gov/>;
- Submit an approvable engineering report consistent with the Engineering Report Outline on EFC's website at [www.efc.ny.gov](http://www.efc.ny.gov); and
- Submit a completed Smart Growth Assessment Form.

These items must be submitted to EFC no later than Friday, June 16, 2023 to have the project eligible to compete for funding. If these items are not received by the Friday, June 16, 2023 deadline, the project will not be eligible for funding in FFY 2024.

Please note funds for the CWSRF General Supplemental and CWSRF Emerging Contaminants programs are subject to additional federal funding requirements.

#### ELIGIBLE PROJECTS:

CWSRF Base and General Supplemental – Municipal water pollution control projects eligible for interest-free or low-interest rate financing and additional subsidy under Section 212 of the Clean Water Act (CWA) include, but are not limited to: wastewater treatment facilities, pumping stations and sewers, combined sewer overflow abatement; stormwater pollution abatement; and other municipally-owned projects or portions of projects that maintain, protect, or improve water quality.

Municipal and non-municipal entities are eligible for CWSRF interest-free or low-interest rate financing and additional subsidy for non-point source projects that protect water quality under CWA Section 319 or implement an approved National Estuary Plan under CWA Section 320. Projects include but are not limited to: green infrastructure; landfill leachate collection, storage and treatment; stormwater

management facilities and equipment; wetland and waterbody restoration; deficient or failing decentralized septic systems; or other non-point source projects to maintain, protect or improve water quality under Section 319.

Not less than \$121,611,630 of the available General Supplemental funding will be provided as additional subsidy in the form of grants or principal forgiveness.

CWSRF Emerging Contaminants – Municipally-owned projects or components of projects that address emerging contaminants, including but not limited to, groundwater or surface water contamination caused by perfluoroalkyl and polyfluoroalkyl substances (PFAS), pharmaceuticals, personal care products, and Microplastics/Nanoplastics. All projects in this category must be otherwise eligible for CWSRF financing.

All funding available through this category will be provided as additional subsidy in the form of grants or principal forgiveness.

#### Background

EFC administers the CWSRF. The CWSRF provides subsidized financial assistance to qualified municipalities to undertake eligible water infrastructure projects. The BIL provides over \$2 billion in funding to New York State over five years for water and wastewater projects. Additional information regarding BIL funding is available on EFC's website at [www.efc.ny.gov](http://www.efc.ny.gov). Potential applicants are also encouraged to review EPA's BIL website at [www.epa.gov/infrastructure](http://www.epa.gov/infrastructure).

Deadline for submittals: In order to be eligible for CWSRF Base, BIL General Supplemental, or BIL Emerging Contaminants funding during FFY 2024 the required information must be submitted by 5:00 p.m., Friday, June 16, 2023.

WEBINAR: EFC will host at least one webinar to present information on available funding opportunities. These events will also provide guidance on how to access available funding. There will also be an opportunity to ask questions. Please check EFC's website at [www.efc.ny.gov](http://www.efc.ny.gov) for webinar dates, times, and registration information.

## MUNICIPALITIES OF NEW YORK STATE

### New York State Drinking Water State Revolving Fund Bipartisan Infrastructure Law

The New York State Environmental Facilities Corporation (EFC) is pleased to announce the availability of \$552 million in interest-free or low-interest rate financing and additional subsidy in the form of grants or principal forgiveness through the Drinking Water State Revolving Fund (DWSRF). The funding is available through the base DWSRF program and the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law (BIL), a five-year program ap-

proved by Congress and signed by the President in November 2021. The funding available to New York State in Federal Fiscal Year (FFY) 2024 is expected as follows:

Program	Amount
DWSRF Base – FFY 2024	\$294,896,152
DWSRF General Supplemental – FFY 2023	\$108,181,700
DWSRF Lead Service Line – FFY 2023	\$113,656,000
DWSRF Emerging Contaminants – FFY 2023	\$35,687,000
<b>TOTAL</b>	<b>\$552,420,852</b>

New project listing forms and project updates will be accepted through Friday, June 16, 2023, for municipalities interested in competing for the FFY 2024 DWSRF Base, FFY 2023 BIL General Supplemental, and FFY 2023 BIL Emerging Contaminants funding shown above.

New project listing forms and project updates will be accepted through Friday, August 25, 2023 for municipalities interested in competing for the FFY 2023 BIL Lead Service Line Replacement (LSLR) funding shown above.

Eligible entities seeking funding must:

- List or update their project by submitting a project listing form to the New York State Department of Health (DOH) at [design@health.ny.gov](mailto:design@health.ny.gov);

- Submit an acceptable engineering report generally consistent with the Drinking Water Engineering Report Outline;

- Submit a completed Smart Growth Assessment Form; and

- DWSRF Project Listing Form and Engineering Report Outline are available at: [www.health.ny.gov/environmental/water/drinking/water](http://www.health.ny.gov/environmental/water/drinking/water).

These items must be submitted to DOH at [design@health.ny.gov](mailto:design@health.ny.gov) no later than Friday, June 16, 2023 for DWSRF Base, General Supplemental, and Emerging Contaminants funding; and by Friday, August 25, 2023 for Lead Service Line Replacement funding for the project to be eligible to compete for funding. If these items are not received prior to the dates indicated, the project will not be eligible for the specified funding in FFY 2024.

Please note the funds are subject to additional federal funding requirements.

**ELIGIBLE PROJECTS:**

DWSRF Base and General Supplemental – Projects must be DWSRF eligible. Municipally-owned and privately-owned community water systems and non-profit, non-community water systems may be eligible for DWSRF subsidized financing or additional subsidy. Projects eligible for DWSRF financing include: construction, rehabilitation, and upgrading of water treatment plants; transmission and distribution mains; storage facilities; pump stations; rehabilitation or development of new drinking water sources; consolidation of water supply services; and capital investments to improve security of drinking water systems.

Not less than \$54,170,030 of the available funding will be provided as additional subsidy in the form of grants. Program details will be provided in the upcoming FFY 2024 Draft IUP.

DWSRF Emerging Contaminants – Projects must be otherwise DWSRF eligible and the primary purpose must be to address emerging contaminants in drinking water, with a focus on perfluoroalkyl and polyfluoroalkyl substances (PFAS).

All funding available through this category will be provided as additional subsidy in the form of grants. Program details will be provided in the upcoming FFY 2024 Draft IUP.

DWSRF Lead Service Line Replacement – Projects must be otherwise DWSRF eligible and be a lead service line replacement (LSLR) project or associated activity directly connected to the identification, planning, design, and replacement of lead service lines. Any project funded under this category involving the replacement of

lead service lines must replace the entire lead service line (public and privately owned portion), not just a portion.

Not less than \$55,691,440 of the available funding will be provided as additional subsidy in the form of grants or principal forgiveness. Program details will be provided in an amendment or supplement to the FFY 2024 IUP.

**Background**

EFC co-administers the DWSRF with DOH. The DWSRF provides subsidized financial assistance to qualified municipalities to undertake eligible water infrastructure projects. The BIL provides over \$2 billion in funding to New York State over five years for water and wastewater projects. ### New York State and Local Retirement Systems

#### Unclaimed Amounts Payable to Beneficiaries

Pursuant to the Retirement and Social Security Law, the New York State and Local Retirement Systems hereby gives public notice of the amounts payable to beneficiaries.

The State Comptroller, pursuant to Sections 109(a) and 409(a) of the Retirement and Social Security Law has received, from the New York State and Local Retirement Systems, a listing of beneficiaries or estates having unclaimed amounts in the Retirement System. A list of the names contained in this notice is on file and open to public inspection at the office of the New York State and Local Retirement Systems located at 110 State St., in the City of Albany, New York.

Set forth in the Appendix to this issue are the names and addresses

(last known) of beneficiaries and estates appearing from the records of the New York State and Local Retirement Systems, entitled to the unclaimed benefits.

At the expiration of six months from the date of publication of this list of beneficiaries and estates, unless previously paid to the claimant, the amounts shall be deemed abandoned and placed in the pension accumulation fund to be used for the purpose of said fund.

Any amounts so deemed abandoned and transferred to the pension accumulation fund, may be claimed by the executor or administrator of the estates or beneficiaries so designated to receive such amounts, by filing a claim with the State Comptroller. In the event such claim is properly made, the State Comptroller shall pay over to the estates or to the person or persons making such claim, the amount without interest.

(\*) Includes Public Asset Fund resources:

Chapter 1 of the Laws of 2002 authorized the conversion of Empire Health Choice, d/b/a Empire Blue Cross and Blue Shield from a not-for-profit corporation to a for-profit corporation. Chapter 1 requires, in part, that upon such conversion, assets representing 95 percent of the fair market value of the not-for-profit corporation be transferred to a fund designated as the "Public Asset Fund" and 5 percent transferred to a Charitable Foundation - as set forth in Section 7317 of the Insurance Law. On December 28, 2005, WellChoice, Inc. (previously known as Empire Blue Cross, Blue Shield) approved a takeover by WellPoint, Inc. This conversion was also subject to the same Chapter 1 requirements of assigning assets representing 95 percent of the fair market value of the not-for-profit corporation be transferred to the "Public Asset Fund". As of March 31, 2023, \$9,770,208.72 (representing the remaining balance of the State's 95 percent share of the fair market value of the not-for-profit corporation plus interest) is on deposit in the sole custody account titled Public Asset Fund. In accordance with Section 4301(j)(4)(F) and (O) of the Insurance Law and at the direction of the Director of the Budget, these funds are available for transfer to HCRA Resources Fund (20800-20849).

(\*) Pursuant to §88 of the State Finance Law, the State Comptroller is authorized to invest and keep invested all moneys, in any fund, held by the State. The Short Term Investment Pool (STIP) represents an accounting mechanism that allows for the separate accounting of individual funds (on deposit in the State's General Checking account) for the purpose of making short term investments. Pursuant to State Finance Law §4(5) the STIP is authorized to temporarily loan to the General Fund-State Operations Account (10050) funds for a period not to exceed the end of the fiscal year. However, it must be noted that certain funds are invested as part of STIP, but are held by the State Comptroller in a fiduciary capacity. Fiduciary fund balances are restricted and may not be used for any State purposes since moneys in such funds are held by the State in a trustee (or fiduciary) capacity or as an agent for individuals, private organizations, or non-State governmental units (e.g. local governments and public authorities). Therefore, Fiduciary fund balances are not available to be temporarily loaned to the General Fund-State Operations Account. Fiduciary fund balances are presented in Schedules 3 and 4 of this report.

(\*\*) Does not include 0% Compensating Balance CDs.

The Division of the Budget (DOB) is responsible for organizing and presenting the above schedule of 'Off Budget Spending'. Such reported disbursements are drawn from unaudited financial data provided by public authorities. Although the Office of the State Comptroller (OSC) has no reason to believe this information to be unreliable, it is important to note that these program disbursements are financed with public authority bond proceeds deposited directly into public authority accounts and all disbursements are made without any oversight by the OSC. Therefore, and pursuant to the provisions of Chapter 60, §16, of the Laws of 2006, this schedule is provided for information only.

(\*) Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 96, Part PFF, Section 1, of the Laws of 2022-23. Such loans are made from the State's Short-term Investment Pool (STIP) and are intended to satisfy temporary cash shortfalls whenever scheduled disbursements exceed available cash resources for the reporting month. The actual cash resources for the reporting month are based on the actual cash resources reported in the "Report of Recipients" approval is approved by the Budget Director. The balances reported here in Appendix F are the actual fund balances as of the close of business on the last day of the reporting month and do not include post-closing adjustments. Please refer to Schedule 1 for a detailed analysis of the reported cash balances of the fund group.

(\*\*) Temporary loans to federal funds are typically reimbursed within 2-3 days. Such loans are made pursuant to federal regulations which require the State to disburse funds prior to making a reimbursement claim from the U.S. Treasury.

(\*\*\*) Per Section 72 of the State Finance Law, the General Fund includes the Local Assistance Fund (10000) and State Purpose Fund (10050).
