## Be a part of the rule making process!

Public comment on proposed rules is encouraged and may be submitted to the agency that is proposing the rule. Address your comments to the agency representative whose name and address is printed in the rule making notice. No special form is required; a handwritten letter will do. Individuals who access the online *Register* ([dos.ny.gov/state-register](http://dos.ny.gov/state-register)) may send public comment via electronic mail to e-mail addresses that may be provided in Notices of Proposed Rule Making. This includes Proposed, Emergency/Proposed, Revised Proposed and Emergency/Revised Proposed rule makings.

To be considered, comments should reach the agency before expiration of the public comment period. The State Administrative Procedure Act provides for a minimum 60-day public comment period after publication in the *Register* for Notices of Proposed Rule Making, and a 45-day public comment period for Notices of Revised Rule Making. If a public hearing is required by statute, public comments are accepted for at least five days after the last such hearing. Agencies are also required to specify in each notice the last date of the public comment period.

When a public comment period would end on a Saturday or Sunday, the agency accepts public comment through the following Monday; when the comment period ends on a public holiday, public comment will be accepted through the next succeeding business day. Agencies cannot adopt a proposed rule until the day after the conclusion of the public comment period.

The Administrative Regulations Review Commission (ARRC) reviews newly proposed regulations to examine issues of compliance with legislative intent, impact on the economy, and impact on affected parties. In addition to sending comments or recommendations to the agency, please do not hesitate to transmit your views to ARRC:

**INFORMATION NOTICE**

**Advanced Notice of Proposed Rule Making  
NYS Triennial Review of Water Quality Standards**

**SUMMARY**

This Advanced Notice of Proposed Rule Making (ANPRM) is issued by the New York State Department of Environmental Conservation (the Department) to solicit early public engagement on the Department's Triennial Review of Water Quality Standards (WQS). Clean Water Act (CWA) section 303(c) and 40 CFR 131.20 include requirements for states to perform a formal regulatory review of WQS every three years, known as the Triennial Review. The Triennial Review is an opportunity for the Department to integrate the best available science and methodology into WQS to protect the waters of the State. Regulations subject to Triennial Review are any that direct the water quality standards, waterbody classification, and antidegradation policies and actions of the State and are predominantly detailed in Parts 700-706 of Title 6 of New York Codes, Rules, and Regulations (NYCRR) : <https://www.dec.ny.gov/regs/2485.html>.

Since the Triennial Review rule making will amend State Regulations, there are requirements for public hearings per the State Administrative Procedure Act (SAPA). The Department is seeking public input through the ANPRM ahead of any rule making proposal or related hearings. The ANPRM will allow NYSDEC to provide a more dynamic response to public input. 40 CFR Part 25 supports utilizing this ANPRM to solicit public input ahead of any rule making proposals.

The Department drafted this ANPRM as a series of questions, the answers to which may assist the Department in determining WQS priorities and needs. These questions are summarized in the “Consolidated Questions and Submittal Instructions” section at the end of this ANPRM. To provide ample opportunity for public participation and input, the Department is allowing 180-days for public input, starting May 8, 2024. Input must be submitted according to the instructions provided in this ANPRM. Feedback provided in response to this ANPRM is not a comment for the purposes of rule making under SAPA but may inform the development of express terms and other documents supporting future rule makings, in the event the Department proceeds with a Notice of Proposed Rule Making.

The Department plans to hold three public information meetings to assist the public in submitting input in response to the ANPRM. Details on time, place, and attending these meetings will be provided on the Department’s website <https://dec.ny.gov/environmental-protection/water/water-quality/standards-classifications/ANPRM-triennial-review-of-water-quality-standards>. The Department anticipates holding at least one public information meeting after the close of the ANPRM, but before any related rule making proposals prompted by the ANPRM, to discuss the feedback and input received during the ANPRM. Details on time, place, and attending these meetings will be provided on the Department’s website <https://dec.ny.gov/environmental-protection/water/water-quality/standards-classifications/ANPRM-triennial-review-of-water-quality-standards>.

**BACKGROUND**

In accordance with the Clean Water Act (CWA), WQS are the regulatory and scientific foundation of protecting the State’s waters from pollution and degradation. New York State Environmental Conservation Law (ECL) Articles 3, 15, and 17 provide statutory authority for adoption of water quality regulations and standards. ECL section 17-0101 specifically declares public policy to “maintain reasonable standards of purity of the waters of the state consistent with public health and public enjoyment thereof, the propagation and protection of fish and wildlife, including birds, mammals and other terrestrial and aquatic life, and the industrial development of the state, and to that end require the use of all known available and reasonable methods to prevent and control the pollution of the waters of the state of New York.”

WQS are set to protect the best uses assigned to a waterbody. To simplify the assignment of best uses to waterbodies, the Department established a classification system for waters of the State. The classification system allows assignment of best uses (i.e., source of drinking water, swimming, fishing, etc.) to waters of the State without listing each waterbody and assigning best uses individually. See the table below for a summary of water Classes and best uses.

Water Class	Best Uses
<b>Fresh Waters</b>	
A, AA, A-S, AA-S	Source of water supply, primary contact recreation (swimming), secondary contact recreation (boating), fishing
B	Primary contact recreation (swimming), secondary contact recreation (boating), fishing
C	Fishing
D	Fishing <sup>1</sup>
<b>Saline Waters</b>	
SA	Shellfishing, primary contact recreation (swimming), secondary contact recreation (boating), fishing <sup>1</sup>
SB	Primary contact recreation (swimming), secondary contact recreation (boating), fishing
SC	Fishing
I	Secondary contact recreation (boating), fishing
SD	Fishing <sup>1</sup>
<b>Ground Waters</b>	
GA (fresh)	Source of water supply

GSA (saline)	Source of mineral water supply, conversion to fresh potable water
GSB (saline)	Receiving water for wastes

WQS are derived per pollutant, per best use, to identify the amount of a pollutant that can be present in the water column and still allow for the safe practice of the best use. WQS can be expressed as either numerical (i.e., minimum, maximum) or narrative (i.e., “none in amounts that will impair...”) criteria. Numeric and narrative WQS are found in regulation at 6 NYCRR Part 703.

WQS, associated with a water through its classification, define the State’s water quality goals for that waterbody.

The WQS “Type” associates the individual WQS, sometimes referred to as criteria, to the best uses they protect. As such, WQS Types have distinct relationships to waterbody classes. The WQS Type also indicates what procedures were used to derive that WQS. The WQS Types used by the Department are detailed in the table below with the associated best uses, location of the derivation procedures in regulation, and applicable classifications.

WQS Type	Type (abbreviation)	Best Uses <sup>2</sup>	Derivation Procedures (6 NYCRR)	Applicable Classes
Aesthetic (Food Source)	E(FS)	Fishing	702.14	A, AA, A-S, AA-S, SA, B, SB, C, SC, I, D, SD
Aesthetic (Water Source)	E(WS)	Source of water supply	702.14	A, AA, A-S, AA-S, GA
Aquatic (Acute)	A(A)	Fishing	702.9, 706	A, AA, A-S, AA-S, SA, B, SB, C, SC, I, D, SD
Aquatic (Chronic)	A(C)	Fishing	702.9, 706	A, AA, A-S, AA-S, SA, B, SB, C, SC, I
Health (Fish Consumption)	H(FC)	Fishing	702.8	A, AA, A-S, AA-S, SA, B, SB, C, SC, I, D, SD
Health (Water Source)	H(WS)	Source of water supply	702.2 - 702.7	A, AA, A-S, AA-S, GA
Wildlife	W	Fishing	702.13	A, AA, A-S, AA-S, SA, B, SB, C, SC, I, D, SD

**Triennial Review Process and Timing**

The Department anticipates it may make amendments to the following State regulations as part of the Triennial Review rule making, which include, but are not limited to:

6 NYCRR

- Part 609: Reclassification of Waters
- Part 700: Definitions, Samples and Tests
- Part 701: Classifications – Surface Waters and Groundwaters
- Part 702: Derivation and Use of Standards and Guidance Values
- Part 703: Surface Water and Groundwater Quality Standards and Groundwater Effluent Limitations
- Part 704: Criteria Governing Thermal Discharges
- Part 705: References
- Part 706: Appendices for Parts 700 – 705

A component of the Triennial Review rule making includes updating definitions, WQS derivation procedures, and other technical requirements of the WQS program detailed in regulation, may occur independently of the ANPRM. These amendments are necessary because USEPA requirements and the best available science for deriving WQS have changed since

the Department’s last Triennial Review. Since the State’s WQS derivation process is detailed in regulation, those procedures in Part 702 must be updated before adopting any new WQS/criteria. The Department cannot propose and adopt new WQS based on derivation procedures not formally vetted through the State rule making process. As such, no updates to WQS/criteria in Part 703 will occur during this portion of the Department’s Triennial Review rule making. The Department anticipates making such updates, using the updated WQS derivation procedures and the feedback of the ANPRM in subsequent portions of the Triennial Review rule making. The Department cannot restrict the public input received through the Triennial ANPRM process, but notes the revisions to Part 702 are largely based on Federal requirements and public input on standard setting procedures may not result in material changes.

Additionally, in Governor Hochul’s 2024 State of the State announcements<sup>3</sup> the Department was tasked with issuing phosphorus guidance values to support efforts to reduce the frequency of harmful algal blooms. Per the State of the State, the guidance values must be proposed and finalized within calendar year 2024. The proposal of these phosphorus guidance values will therefore occur on a schedule independent of the ANPRM and subsequent Triennial Review. The Department will provide additional opportunity for public comment on that guidance in 2024.

The WQS/criteria updates to Part 703 will weigh feedback received through the ANPRM, available and verifiable scientific data, supplemental water quality information<sup>4</sup>, current USEPA 304(a) criteria recommendations, and overall benefit to the State and its residents to determine the regulatory amendments included in the rule proposal.

This ANPRM does not act to solicit requests for waterbody reclassification since the Department already collects such information on a continuous basis. Requests for reclassification can be made by submitting a completed Water Reclassification Request Form (PDF). Certain fresh and saline waters of the state are currently under consideration for reclassification.

**KEY CONCEPTS**

The Department encourages all stakeholders and members of the public to consider the questions posed in this ANPRM and provide input. To facilitate productive feedback, the Department provides the following Regulatory Definitions (per 6 NYCRR 700.1):

- Acute toxic effect means an effect that usually occurs shortly after the administration of either a single dose or multiple doses of a chemical or other toxic pollutant.
  - Aquatic life or aquatic biota means fish, shellfish and those species of wildlife and plants that spend at least part of their life in water.
  - Best usages as specified for each class of water means those uses as determined by the commissioner in accordance with the considerations prescribed by the Environmental Conservation Law.
  - Chronic toxic effect means an effect that is irreversible or progressive or occurs because the rate of injury is greater than the rate of repair during prolonged exposure to a chemical or other toxic pollutant.
  - Oncogenic effect means the induction of tumors that has been demonstrated in:
    - (i) humans;
    - (ii) two mammalian species;
    - (iii) one mammalian species, independently reproduced;
    - (iv) one mammalian species, to an unusual degree with respect to incidence, latency period, site, tumor type or age at onset;
    - (v) one mammalian species, supported by positive results in short-term tests that are indicative of potential oncogenic activity; or
    - (vi) one mammalian species, supported by positive results for another substance for which similar oncogenic effects are anticipated because of similarity of functional groups or metabolic or toxicologic pathways.
  - Pollutant means dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, and industrial, municipal, and agricultural waste discharged into water.
  - Pollution means the presence in the environment of conditions and/or contaminants in quantities of characteristics that are or may be injurious to human, plant, or animal life or to property or that unreasonably interfere with the comfortable enjoyment of life and property throughout such areas of the State as shall be affected thereby.
  - Primary contact recreation means recreational activities where the human body may come in direct contact with raw water to the point of complete body submergence. Primary contact recreation includes, but is not limited to, swimming, diving, water skiing, skin diving and surfing.
  - Secondary contact recreation means recreational activities where contact with the water is minimal and where ingestion of the water is not probable. Secondary contact recreation includes, but is not limited to, fishing and boating.

- Standards mean such measures of purity or quality for any waters in relation to their reasonable and necessary use as may be established by the department pursuant to section 17-0301 of the Environmental Conservation Law.

- Wildlife means wild game and all other animal life existing in a wild state, except fish, shellfish and crustacea.

**Data, views or arguments may be submitted to:** Same as above.

**Public comment will be received until:** 60 days after publication of this notice.

**This rule was not under consideration at the time this agency submitted its Regulatory Agenda for publication in the Register.**

#### **Regulatory Impact Statement**

##### **Statutory Authority:**

The statutory authority for the proposed revisions is set forth in Public Health Law (PHL) sections 201, 206 and 225, as well as Social Services Law (SSL) sections 363-a(2) and 365-a(2). Section 201(1)(l) of the PHL establishes the powers and duties of the New York State Department of Health (Department), which include promoting diagnostic and therapeutic services for maternal health, as well as acting as the single state agency for the provision of the medical assistance program, also known as Medicaid. Section 206 of the PHL requires the Commissioner of Health to establish rules and regulations for the determination of asymptomatic conditions including Rh sensitivity, and establishes the Commissioner's authority to enforce the PHL, the State Sanitary Code and the requirements of the medical assistance program. Section 225 of the PHL sets forth the powers and duties of the Public Health and Health Planning Council (PHHPC), which include the authority to establish, amend and repeal the regulations known as the State Sanitary Code, subject to the approval of the Commissioner of Health. Further, section 225(5)(a) of the PHL allows the State Sanitary Code to address any matter affecting the security of life or health, or the preservation or improvement of public health, in New York State.

Additionally, SSL section 363-a(2) establishes the Department's authority to promulgate regulations needed to implement the medical assistance program, and SSL section 365-a(2) requires the Department to determine the scope of standard coverage under the medical assistance program.

##### **Legislative Objectives:**

The legislative objective of sections 201, 206 and 225 of the PHL are to ensure that the Department of Health, through the Commissioner of Health and PHHPC, protect public health by adopting regulations in the State Sanitary Code (SSC) that effectively promote diagnostic and therapeutic services for maternal health and establish rules for the determination of asymptomatic conditions such as Rh sensitivity. In accordance with that objective, this regulation amends the SSC by revising Title 10 of New York Codes, Rules and Regulations (NYCRR) Part 12 to accord with provisions of the Reproductive Health Act of 2019.

Additionally, SSL section 363-a(2) establishes the Department's authority to promulgate regulations needed to implement the medical assistance program, and SSL section 365-a(2) requires the Department to determine the scope of standard coverage under the medical assistance program.

##### **Needs and Benefits:**

Neither Part 12 of Title 10 nor Part 505 of Title 18 has been modified since the passage of the Reproductive Health Act of 2019, and the provisions subject to amendment in this proposal derived their authority from PHL, section 4164, which was repealed by the Reproductive Health Act. Consequently, the proposed amendments are necessary to reconcile the regulations with the statute in its current form.

The Reproductive Health Act added a new Article 25-A to the PHL that

expanded the types of otherwise qualified health care practitioners who may perform abortions, enshrined a fundamental right to carry a pregnancy to term, give birth to a child, or have an abortion, and explicitly stated that it was "the intent of the legislature to prevent the enforcement of laws or regulations that are not in furtherance of a legitimate state interest in protecting a woman's health that burden abortion access." As such, it is necessary to repeal section 12.20 of Title 10 and the corresponding provisions of subdivision 505.2(e) of Title 18.

What is now compartmentalized as section 12.13 of Title 10 contains two provisions applicable to abortion care that are inconsistent with both current standards of clinical care and recent changes to the abortion provisions in regulations authorized by Article 28 of the PHL. Moreover, it is both legally inaccurate and medically inappropriate that regulations governing abortion care be organized under a heading entitled "Protection of Infants and Children Against Hazards," when in fact these provisions are meant to protect the health and lives of people of childbearing age. For that reason, the proposal will create a new subject heading under Part 12 entitled "Reproductive Healthcare Standards," to clarify the regulation's relevance and better facilitate public access to its contents.

Additionally, the rulemaking will amend subdivision of 505.2(e) of Title 18 to modernize the definition of abortion to expressly include medication and procedural services as deemed appropriate by patient and physician; to clarify that abortion services may be provided by any healthcare practitioner licensed in New York State and acting within their lawful scope of practice; and to clarify that said practitioners should determine a patient's estimated duration of pregnancy in accordance with the requirements of PHL section 2599-bb and evidence-based clinical guidelines.

##### **Costs:**

##### **Costs to Private Regulated Parties:**

There are no anticipated costs to regulated parties, including physicians, licensed midwives and nurse practitioners attending a pregnant person, because the current regulations already require these individuals to take or cause to be taken a sample of blood to determine blood group and Rh type. In addition, the changes to Title 18 modernize and clarify the definition of abortion but make no actual changes to current provision of services or scope of practice. Therefore, there are no anticipated costs to regulated parties.

##### **Cost to Local Government:**

There are no anticipated costs to local governments associated with this regulation.

##### **Cost to the Department of Health:**

There are no anticipated costs to the Department of Health associated with this regulation.

##### **Cost to Other State Agencies:**

There are no anticipated costs to other state agencies associated with this regulation.

##### **Local Government Mandates:**

This regulation imposes no new government mandates.

##### **Paperwork:**

This regulation does not impose any new paperwork requirements.

##### **Duplication:**

This regulation does not duplicate, overlap, or conflict with relevant rules or other legal requirements of the State or federal government.

##### **Alternatives:**

An alternative to these regulatory amendments would be not to make any changes and to keep the regulations as written. However, these amendments are needed to bring the regulations into compliance with Article 25-A of the PHL, and therefore this was not considered a viable alternative.

##### **Federal Standards:**

The proposed regulations do not duplicate or conflict with any federal statutes or regulations.

##### **Compliance Schedule:**

This regulation will be effective immediately upon publication of a Notice of Adoption in the New York State Register. These proposed rules conform current regulation to existing State statutes.

#### **Regulatory Flexibility Analysis**

No Regulatory Flexibility Analysis is required pursuant to section 202-(b)(3)(a) of the State Administrative Procedure Act. The proposed amendment does not impose an adverse economic impact on small businesses or local governments, and it does not impose reporting, recordkeeping or other compliance requirements on small businesses or local governments. There was no small business or local government participation in the development of these regulations. Local government should not be impacted by these proposed regulations.

#### **Rural Area Flexibility Analysis**

No Rural Area Flexibility Analysis is required pursuant to section 202-bb of the State Administration Procedure Act (SAPA). It is apparent from the nature of the proposed amendment that it will not impose any adverse

impact on rural areas, and the rule does not impose any new reporting, recordkeeping or other compliance requirements on public or private entities in rural areas. These provisions apply uniformly throughout New York State, including all rural areas.

#### **Job Impact Statement**

A Job Impact Statement for these amendments is not being submitted because it is apparent from the nature and purposes of the amendments that they will not have a substantial adverse impact on jobs and/or employment opportunities.

## **PROPOSED RULE MAKING NO HEARING(S) SCHEDULED**

### **Adult Home Admission and Reporting Requirements**

**I.D. No.** HLT-19-24-00020-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** Amendment of sections 487.4 and 487.10 of Title 18 NYCRR.

**Statutory authority:** Social Services Law, sections 461 and 461-e(5)

**Subject:** Adult Home Admission and Reporting Requirements.

**Purpose:** To clarify the pre-admission screening process and strengthen the reporting of residents with serious mental illness diagnoses.

**Text of proposed rule:** Subparagraph (ii) of paragraph (3) of subdivision (e) of section 487.4 is amended to read as follows:

Where the [D]epartment's pre-admission screening indicates that the prospective resident may be a person with serious mental illness [or, in the case of a prospective resident for whom recent Medicaid claims data is not available, the operator has advised that an interview and/or medical evaluation indicate the need for a mental health evaluation pursuant to paragraph (3) of subdivision (g) of this section], the operator shall not admit the prospective resident without conducting or obtaining a mental health evaluation, documented on a form prescribed by the [D]epartment and developed in consultation with the Office of Mental Health, within 30 days prior to the date of admission, pursuant to paragraph (1) of subdivision (k) of this section. The operator may admit the prospective resident only when the mental health evaluation concludes the individual: (a) is not a person with serious mental illness; or (b) is a person with serious mental illness, but the individual is a former resident of a transitional adult home and the operator obtains a waiver approved by the [D]epartment pursuant to subdivision (g) of section 487.3 of this Part.

Paragraph (4) of subdivision (e) of section 487.10 is amended, and new paragraph (5) is added, to read as follows:

(e) Facility reports. The operator shall submit to the department:

\* \* \*

(4) For facilities with a certified capacity of 80 beds or more in which twenty percent or more of the resident population are persons with serious mental illness as defined in section 487.2(c) of this Part, *including Transitional Adult Homes as defined in section 487.13 of this Part*, a monthly admissions report identifying all persons admitted to the facility during the prior calendar month.

*For the purpose of calculating the reporting threshold in this subdivision, if the facility has ever reported an individual as having Serious Mental Illness, such facility must continue to report that individual as having Serious Mental Illness until the department or its designee has conducted a mental health evaluation of that individual to confirm a change in status, and communicates written approval to the facility to discontinue reporting such individual as having Serious Mental Illness. Nothing in this paragraph shall require the department, or its designee, to conduct an independent mental health evaluation for an individual who resides in an adult home that is not defined as a transitional adult home as of January 1, 2022.*

(5) For all facilities, a roster of all residents shall be submitted to the department on a quarterly basis in the manner prescribed by the department.

**Text of proposed rule and any required statements and analyses may be obtained from:** Katherine Ceroalo, DOH, Bureau of Program Counsel, Reg. Affairs Unit, Room 2438, ESP Tower Building, Albany, NY 12237, (518) 473-7488, email: regsqna@health.ny.gov

**Data, views or arguments may be submitted to:** Same as above.

**Public comment will be received until:** 60 days after publication of this notice.

*This rule was not under consideration at the time this agency submitted its Regulatory Agenda for publication in the Register.*

#### **Regulatory Impact Statement**

##### **Statutory Authority:**

Social Services Law section 461(1) requires the Department of Health to promulgate regulations establishing general standards applicable to adult care facilities. Social Services Law section 461-e(5) authorizes the Department to promulgate regulations to require an adult care facility to maintain certain written records with respect to the facility's residents and the operation of the facility.

##### **Legislative Objectives:**

The legislative objective of Social Services Law section 461 is to promote the health and well-being of adults residing in adult care facilities. Social Services Law section 461-e is intended to ensure that adult care facilities maintain sufficient records to enable the Department to monitor facilities serving residents.

##### **Needs and Benefits:**

The proposed regulatory changes provide clarity with regard to the pre-admission screening process and the documentation that must be provided quarterly to the Department. These amendments will provide necessary clarification to improve the integrity of data provided by adult homes, which ultimately will benefit residents as the data is used to inform programming and policies aimed at improving the health and safety of adult home residents.

Quarterly, the Department releases a statistical report form with complete instructions, along with a companion guide and slide deck. Facilities whose quarterly census information necessitates additional reporting receive ad hoc instructions regarding submission of the specific information they must submit. Based on data submissions since the end of the public health emergency, the Department and industry representatives determined that there is a need for more clarity in the report itself and a need for more concise and specific reports particularly for transitional adult homes. This need was identified in communications between Adult Home Settlement liaisons and plaintiffs (see docket# 13-cv-04165, 13-cv-04166, EDNY). As the settlement activities wind down, codifying the clarified expectations will drive more reliable data.

##### **Costs:**

Costs for the Implementation of and Continuing Compliance with these Regulations to the Regulated Entity:

The Department anticipates that costs to facilities will be minimal, as the new reporting requirements will be quarterly and can be easily compiled through census information already required of adult homes.

##### **Cost to State and Local Government:**

Two county governments operate adult homes. The Department anticipates that the costs will be the same as for private regulated parties.

##### **Cost to the Department of Health:**

There are no expected additional costs to the Department of Health, as surveillance of these revised requirements will be handled through current surveillance staff and protocols.

##### **Local Government Mandates:**

This amendment does not impose any new programs, services, duties, or responsibilities on local governments, unless they operate an adult home, in which case the compliance requirements will be the same as for private adult home operators.

##### **Paperwork:**

There are no paperwork requirements associated with this regulation.

##### **Duplication:**

These amendments do not conflict with any State or federal rules.

##### **Alternatives:**

An alternative would be to leave existing requirements in place. However, the existing requirements have proven to result in inconsistent results which are not in the best interest of the resident population.

##### **Federal Requirements:**

No applicable federal requirements exist.

##### **Compliance Schedule:**

This proposal will go into effect 90 days after the publication of a Notice of Adoption in the New York State Register.

#### **Regulatory Flexibility Analysis**

##### **Effect of Rule:**

These regulations would require Adult Homes to adhere to updated reporting requirements that will make such requirements clearer and the resulting reports more consistent. Currently, there are two Adult Homes operated by county governments (Chenango and Warren Counties), and there are 396 Adult Homes that have 100 or fewer employees and therefore qualify as small businesses.

##### **Compliance Requirements:**

All Department of Health-regulated Adult Homes must comply with the revised requirements, which include a requirement to 1) continue to qualify, report, and program for a resident with serious mental illness until

such time that the Department issues a written notice to the facility that the such reporting is no longer required for that resident; and 2) provide to the Department a list of residents each quarter.

**Professional Services:**

There are no additional professional services required as a result of this regulation.

**Compliance Costs:**

The Department anticipates that costs will be none or minimal. The Department will provide the reporting vehicle and format used quarterly by Adult Homes.

**Economic and Technological Feasibility:**

The proposed regulation is expected to be financially and technologically feasible. Currently, all Adult Homes are required to provide quarterly statistical reporting, and as the Department will supply the reporting vehicle for the new report, there should not be any insurmountable compliance breach by the Adult Home.

**Minimizing Adverse Impact:**

The Department will work with facilities to provide guidance on changes and respond to questions relating to the new standards.

**Small Business and Local Government Participation:**

All stakeholders, including individual facilities operated by small businesses and local governments, are invited to submit public comments in response to the filing of the proposed regulation. Additionally, the Department plans to issue guidance via a Dear Administrator Letter to alert Adult Homes, including those operated by small businesses and local governments, of the publication of this regulation and the opportunity to provide public comments.

**Cure Period:**

The regulation does not set forth a cure period as quarterly reporting is already required.

**Rural Area Flexibility Analysis**

Although this rule applies uniformly throughout the state, including rural areas, for the purposes of this Rural Area Flexibility Analysis (RAFA), "rural area" means areas of the state defined by Executive Law § 481(7) (SAPA § 102(10)). Per Executive Law § 481(7), rural areas are defined as "counties within the state having less than two hundred thousand population, and the municipalities, individuals, institutions, communities, and programs and such other entities or resources found therein. In counties of two hundred thousand or greater population 'rural areas' means towns with population densities of one hundred fifty persons or less per square mile, and the villages, individuals, institutions, communities, programs and such other entities or resources as are found therein."

The following 44 counties have a population of less than 200,000 based upon the United States Census estimated county populations for 2020:

Allegany County	Greene County	Schoharie County
Broome County	Hamilton County	Schuyler County
Cattaraugus County	Herkimer County	Seneca County
Cayuga County	Jefferson County	St. Lawrence County
Chautauqua County	Lewis County	Steuben County
Chemung County	Livingston County	Sullivan County
Chenango County	Madison County	Tioga County
Clinton County	Montgomery County	Tompkins County
Columbia County	Ontario County	Ulster County
Cortland County	Orleans County	Warren County
Delaware County	Oswego County	Washington County
Essex County	Otsego County	Wayne County
Franklin County	Putnam County	Wyoming County
Fulton County	Rensselaer County	Yates County
Genesee County	Schenectady County	

117 adult homes are located in these rural areas.

The following counties have populations of 200,000 or greater, and towns with population densities of 150 person or fewer per square mile, based upon the United States Census estimated county populations for 2020:

Albany County	Monroe County	Orange County
Dutchess County	Niagara County	Saratoga County
Erie County	Oneida County	Suffolk County
	Onondaga County	

278 Adult Homes are located in these identified areas.

Reporting, Recordkeeping and Other Compliance Requirements; and Professional Services:

All Department of Health-regulated Adult Homes must comply with the revised requirements, including facilities located in rural areas. There are no additional professional services required as a result of this regulation. The proposed regulation requires that Adult Homes provide the Department quarterly a list of its residents through a Department-provided template on a Department-provided forum.

**Costs:**

The Department anticipates that costs will be none or minimal.

**Minimizing Adverse Impact:**

The Department will work with facilities to provide guidance on changes and respond to questions relating to the new standards.

**Rural Area Participation:**

All stakeholders, including individual facilities located in rural areas, are invited to submit public comments in response to the filing of the proposed regulation. Additionally, the Department plans to issue a Dear Administrator Letter to all adult homes, including those located in rural areas, of the publication of this regulation and the opportunity to provide public comments.

**Job Impact Statement**

No Job Impact Statement is required pursuant to section 201-a(2)(a) of the State Administrative Procedure Act (SAPA). It is apparent, from the nature of the proposed amendment, that it will have no impact on jobs and employment opportunities.

### PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

#### Transfer of Certain Street Lighting Facilities

**I.D. No.** PSC-19-24-00001-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** The Commission is considering a petition filed by Central Hudson Gas & Electric Corporation to transfer certain company-owned street lighting facilities located throughout the Village of Millerton, to the Village of Millerton.

**Statutory authority:** Public Service Law, section 70(1)

**Subject:** Transfer of certain street lighting facilities.

**Purpose:** To consider whether the transfer of street lighting facilities is in the public interest.

**Substance of proposed rule:** The Public Service Commission (Commission) is considering a petition filed by Central Hudson Gas & Electric Corporation (Central Hudson or Company) on April 5, 2024, requesting to transfer ownership of its system of street lighting poles, luminaires, lamps, mast arms, electrical connections, and wiring for street lighting installed throughout the Village of Millerton (Village), a municipal corporation and political subdivision of the State of New York, to the Village.

In the Company's petition, it states that these street lighting facilities had an accrued depreciation balance of \$37,828, resulting in a net book value (NBV) of \$80,709. However, based on the Company's provided plant records, the original book cost of the street lighting facilities was approximately \$118,537 as of February 2024. Central Hudson proposes to transfer the street lighting facilities to the Village at the cost of the NBV at the date of closing, plus any additional costs the Company accrues in relation to the sale. Upon the closing date of the sale, the Village will become solely responsible and liable for the operation, maintenance, and condition of the street lighting facilities.

The full text of the petition and the full record of the proceeding may be viewed online at the Department of Public Service web page: [www.dps.ny.gov](http://www.dps.ny.gov). The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

#### Electric Utility Economic Development Program

**I.D. No.** PSC-19-24-00002-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** The Commission is considering the petition filed by Rochester Gas and Electric Corporation requesting a special exemption under one of its Non-Rate Economic Development programs to provide up to \$5.0 million of funding to a new customer.

**Statutory authority:** Public Service Law, sections 5 and 66

**Subject:** Electric utility economic development program.

**Purpose:** To ensure the utility operates its economic development program without undue preference and spending is just and reasonable.

**Substance of proposed rule:** The Public Service Commission is consider-

ing a petition filed by Rochester Gas & Electric Corporation (“RG&E” or the “Company”) on June 23, 2023, requesting a special exemption under one of the Company’s Non-Rate Economic Development programs to allow the Company to provide up to \$5.0 million of funding to a new customer identified in the petition as “Project Izzo.”

The petition seeks to use the Company’s Targeted Financial Assistance Program (“TFA”) to provide the funding to Project Izzo. Under the rate plan adopted by the Order Approving Electric and Gas Rate Plans in Accord with Joint Proposal, with Modifications, issued on November 19, 2020, the TFA has an annual ceiling for funding of \$750,000 for any one year and up to \$1.75 million over a three-year period. For this project the customer is planning a capital investment of approximately \$650 million over a multi-year period to build a new 745,000 square foot dairy processing facility that will require an estimated \$27 million in infrastructure upgrades to meet the load requirement for this project. Subsequent to the receipt of the petition, the Company provided a supplemental filing with additional details about the request for exemption, including but not limited to, the schedule of payout, ratepayer benefits and alignment with the greenhouse gas emission reduction targets under the CLCPA. The Company believes that an investment of this magnitude warrants an exemption to exceed the maximum grant amount for this customer considering both the immediate and long-term benefits to the Company’s ratepayers.

The full text of the petition and full record of the proceeding may be reviewed online at the Department of Public Service web page: [www.dps.ny.gov](http://www.dps.ny.gov). The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

**Statutory authority:** Public Service Law, section 69

**Subject:** Issuance of securities and other forms of indebtedness.

**Purpose:** To provide funding for capital needs, including construction, and refinancing of maturing debt.

**Substance of proposed rule:** The Commission is considering a petition filed by Central Hudson Gas & Electric Corporation (Company) on March 26, 2024, requesting to modify the terms of its previous Commission authorization to issue long-term indebtedness pursuant to Public Service Law Section 69.

In its Order Authorizing Issuance of Securities, issued on November 21, 2023, the Commission stipulated that the terms and conditions of all debt issuances shall be no more restrictive than those of the Company’s existing securities. In this petition the Company requests authority to enter into derivative instruments, such as 1-year to 3-year interest rate caps or similar hedging instruments, for any new variable rate debt issued during the term of the Order Authorizing Issuance of Securities. Central Hudson states this authority is already authorized for existing variable rate debt during the term of the Order Authorizing Issuance of Securities.

**A Debt Financing Arrangement with Respect to an Energy Storage Project**

I.D. No. PSC-19-24-00005-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

**Proposed Action:** The Commission is considering a petition filed by East River ESS, LLC, seeking flexible financing under lightened regulation.

**Statutory authority:** Public Service Law, sections 5, 64, 65, 66 and 69

**Subject:** A debt financing arrangement with respect to an energy storage project.

**Purpose:** To consider a financing arrangement and what regulatory conditions should apply.

**Substance of proposed rule:** The Public Service Commission (Commission) is considering a petition filed by East River ESS, LLC (Petitioner) on April 5, 2024, requesting flexible financing under Section 69 of the Public Service Law.

According to the petition, the Petitioner will design, develop, construct, own, operate, and decommission a proposed battery energy storage facility with up to 100 megawatts of capacity (the Project). The Project, as described in the petition, is planned to be located on land leased from the New York Power Authority at 31-03 20th Avenue, Astoria, New York. The Petitioner seeks authorization to incur debt up to \$250 million to complete development, construction, and operation of the Project (the Financing). The petition states that the requested Financing would serve a statutory purpose and is in the public interest, as the Project would advance the Commission's statewide energy goals established in Case 18-E-0130 – In the Matter of Energy Storage Deployment Program.

In addition, the petition seeks flexibility to modify or refinance this indebtedness, without prior Commission approval, including the identity of the financing entities, payment terms, and the amount financed, up to the \$250 million limit. The Petitioner asserts that approval of such flexibility is consistent with existing Commission precedent regarding lightly regulated entities and is needed for quick modification or refinancing in case of changing market conditions.

The full text of the petition and the full record of the proceeding may be reviewed online at the Department of Public Service web page: [www.dps.ny.gov](http://www.dps.ny.gov). The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

**ACTION PENDING INDEX**

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(\*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.

#### Description:

Request for Applications (RFA) in federal NSGP-UA funding and federal NSGP-S funding is being made available by the NYS Division of Homeland Security and Emergency Services (DHSES) from the U.S. Department of Homeland Security Federal Emergency Management Agency. There is a total of \$137.25 million nationally for the NSGP-UA program and \$137.25 million nationally for the NSGP-S program, with NYS having a target allocation of \$3.99 million. Funds will be awarded competitively based on the submission of applications by eligible nonprofit organizations. If your nonprofit site is not physically located within the NYC urban area, then you may apply to NSGP-S.

Each nonprofit organization may apply for up to \$150,000 per site. Nonprofits with multiple sites may apply for additional sites at up to \$150,000 per site for a maximum of three (3) sites located within the NSGP-UA area and three (3) sites located within the NSGP-S area, for a maximum of six (6) sites total, not to exceed a grand total of \$450,000 per organization. A nonprofit organization with locations in multiple states may apply for up to these application limits within each state.

NSGP provides funding for physical security enhancements and other security-related activities to nonprofit organizations that are at high risk of a terrorist or other extremist attack. The NSGP also seeks to integrate the preparedness activities of nonprofit organizations with broader state and local preparedness efforts.

Due to the competitive nature of this program, organizations who have not previously received funding will receive fifteen (15) bonus points added to their total application score. Additionally, FEMA will add ten (10) additional points to the scores of organizations that are located within a disadvantaged community or population. FEMA will apply the Council on Environmental Quality's Climate and Economic Justice Screening Tool (CEJST) to each applicant using the address of their physical location. **Environmental Facilities Corporation**

625 Broadway  
Albany, NY 12207-2997

**MUNICIPALITIES, PUBLIC BENEFIT CORPORATIONS, PUBLIC AUTHORITIES OR STATE AGENCIES**

**Green Resiliency Grant**

The New York State Environmental Facilities Corporation (EFC) is pleased to announce the availability of \$60 million in grants under the Green Resiliency Grant (GRG) program. This grant funding is made available, in part, through the Clean Water, Clean Air and Green Jobs Environmental Bond Act of 2022 (Bond Act). GRG grants are awarded on a competitive basis to projects that implement green infrastructure practices across New York State, including green roofs, green streets, and permeable pavement.

GRG may fund up to 90 percent of eligible project costs with a maximum grant of \$10 million. GRG projects must have a minimum total project cost of \$1 million and be capable of capturing, treating, or reducing the time of concentration for a minimum of 100,000 cubic feet of stormwater runoff annually. Eligible projects include those that address combined and/or sanitary sewer overflow during extreme weather events and those that combine green infrastructure and nature-based features to ensure climate resilient infrastructure.

**Background**

On March 21, 2024, EFC published for public comment proposed eligibility guidelines for the GRG program designed to implement the historic \$4.2 billion Bond Act. The draft criteria were based on the eligibility criteria historically used for the existing WIIA and IMG programs. The public comment period closed April 19, 2024, and responses to the comments have been posted on the Bond Act website.

EFC administers the Clean Water State Revolving Fund (CWSRF) and co-administers the Drinking Water State Revolving Fund (DWSRF) with the NYS Department of Health. The SRF Programs provide subsidized financial assistance to qualified municipalities to undertake eligible water infrastructure projects. Municipalities, however, do not need to obtain financial assistance from the CWSRF or DWSRF program to receive a GRG grant and do not need to be listed on the CWSRF or DWSRF Intended Use Plan to apply for a GRG grant.

A GRG grant is available only to a municipality, which is defined in NYS Environmental Conservation Law Article 58 to include a county,

city, town, village, district corporation, county or town improvement district, school district, Indian Nation or tribe recognized by the state or the United States with a reservation wholly or partly within the boundaries of New York State, any public benefit corporation or public authority established pursuant to the laws of New York or any agency of the State that is empowered to construct and operate a water quality infrastructure project, and state entities.

Disadvantaged communities will receive no less than 35 percent of the benefit of this funding.

Eligible activities include:

- Restoration of non-instream features recommended through the Resilient NY Program;
- The creation and enhancement of nature-based landscape features such as flood plains, riparian buffers, streams, and wetlands;
- Installation of:
  - o Bioretention and bioswales;
  - o Cisterns;
  - o Downspout disconnection;
  - o Green roofs and green walls;
  - o Permeable pavements or other permeable surfaces;
  - o Stormwater street trees;
  - o Urban forestry programs; and
  - o Stormwater retention, retrofits, and slow-release designs.

In-stream activities being undertaken to implement studies prepared through the Resilient NY Program are not eligible for these grants.

Further information on the GRG program can be found on EFC’s website at: <https://efc.ny.gov/grg>

**Application Due Date:** Applications must be submitted started May 1, 2024 using the online Application Form located on EFC’s website at <https://portal.efc.ny.gov/Identity/Account/Login> and must be submitted by 5:00 p.m., August 16, 2024. Applicants will be required to submit additional documents within the application.

## AMENDMENT OF RULE

## Rules of the Chief Judge

Pursuant to Article VI, § 28(c) of the State Constitution and section 211 of the Judiciary Law, upon consultation with the Administrative Board of the Courts, and with the approval of the Court of Appeals of the State of New York, I hereby amend, effective immediately, sections 24.4(a)(2)(3), 24.6(h)(2), 24.6(m), 24.7(c) and 24.10(a) and add section 24.6(n) of Part 24 of the Rules of the Chief Judge, by adding the underlined material and deleting the bracketed material, as follows:

Section 24.4 Sick leave.

(a)

(2) For non-Family Medical Leave Act (FMLA) approved absences, an employee shall be allowed to charge a maximum of [15] 25 days of sick leave in any one calendar year for absences from work to care for a close family member during a time of illness. For purposes of this section, a close family member shall be the employee's spouse; domestic partner; natural, foster or step child; natural, foster or step parent; or any relative residing with the employee or an individual for whom the employee is the primary caregiver.

(3) [Notwithstanding the 15 day limit set forth in section 24.4(a)(2), a]An employee who is approved for a caregiver leave pursuant to the FMLA shall be allowed to charge [approved FMLA caregiver] absences during the FMLA period to accumulated sick leave. *Sick leave charged during the FMLA period shall not be counted towards the 25 days set forth in subsection 24.4(a)(2) of this section, i.e., these 25 "family sick leave" days remain available for the employee's use before and/or after the FMLA period.*

Section 24.6 Other leaves with pay.

(h) Extraordinary Circumstances.

(2) Employees who are required to *physically report to work* when the court or facility where they report to work is closed *and/or operating virtually* due to extraordinary circumstances shall be credited with compensatory time for the time they worked. *Employees who are directed to work remotely when the court or facility they report to is closed and/or operating virtually shall be credited with compensatory time in the amount of ½ hour for each hour worked.*

(m) [The Chief Administrator of the Courts or his or his designee may grant leaves with pay for reasons not itemized in this Part.] *Paid Parental Leave (PPL). Effective April 1, 2024, PPL provides qualified employees with up to 12 work weeks of fully paid leave to bond with a newborn, adopted or foster child. If both parents are employed by the Court System, each is entitled to PPL of up to 12 work weeks.*

(1) Eligibility. *Any gestational, non-gestational, adoptive or foster parent that has at least six (6) months of cumulative Court System service and works at least a 50% schedule as of the date PPL commences.*

(2) Leave Entitlement and Timing.

i. *PPL is available for use once in a 12-month period, on a rolling basis, regardless of the number of qualifying events that may occur within such 12-month period.*

ii. *PPL cannot be used incrementally or intermittently and must be taken in a continuous block of time.*

iii. *Employees can elect to begin PPL on the date of the qualifying event, or another date thereafter, but in no event will PPL extend beyond seven (7) months from the date of the qualifying event.*

iv. *PPL must be requested no less than 30 calendar days in advance where the need for leave is foreseeable. Requests for PPL must be made on the form designated by the Court System. Approval of PPL is subject to receipt of proof of the qualifying event as soon as is practicable under the circumstances.*

(3) Other Leave Benefits.

i. *Child Care Leave. PPL merely serves to allow employees to be out on full pay, without charge to their accruals, for up to 12 work weeks during an otherwise unpaid Child Care Leave. Accordingly, employees may elect to use PPL at any time during the one (1) year non-discretionary Childcare Leave in subsection 24.7(c) of this Part, subject to the provisions of subsection 24.6(m)(2) of this Part.*

ii. *Family and Medical Leave Act (FMLA). In the event employees have FMLA leave available upon commencement of PPL, such leave will run concurrent with PPL. Employees that exhaust their FMLA entitlement for childbirth/bonding while using PPL may thereafter take leave under FMLA for other FMLA-qualifying events (excluding birth of a child for which PPL was used) during the same FMLA period, provided they are FMLA-eligible and have not already exhausted their FMLA entitlement for such event(s).*

iii. *Sick Leave Bank. Employees that are on PPL are not eligible to apply for Sick Leave Bank time during that same period.*

iv. *Other Leaves of Absence. Employees that experience a qualifying event while they are already out of work on another leave must be cleared to return to work from such leave of absence in order to be eligible for PPL. The timeframes for commencing PPL and for filing an application, as set forth in subsection 24.6(m)(2) of this Part, still apply.*

(4) *Continuing benefits while on paid leave. While using PPL, employees continue to be covered by their existing insurance benefits and all employer contributions continue. Employees continue to have health insurance premiums, retirement contributions and other payroll deductions withheld from their paycheck, as may be applicable. In addition, while on PPL, employees will continue to earn bi-weekly accruals, be paid for holidays and receive retirement service credit.*

(5) *Alleged violations of PPL. Any employee who believes that they have been improperly denied PPL or that an improper designation of PPL has been made may write to the Director of Human Resources, Division of Human Resources, 25 Beaver Street, 7th Floor, New York, NY 10004. The Director or designee will investigate the concern and respond to the employee in writing.*

(6) *No extension of employment. PPL shall not be used to extend employment beyond the point it would otherwise end pursuant to the Rules and/or by operation of law.*

(7) *Qualifying events that occurred between January 1, 2024 and March 31, 2024. If a qualifying event occurred between January 1, 2024 and March 31, 2024, an eligible employee may be entitled to PPL pursuant to an application process to be established by the Chief Administrator of the Courts.*

(n) *The Chief Administrator of the Courts or his or his designee may grant leaves with pay for reasons not itemized in this Part.*

Section 24.7 Leaves without pay.

(c) Leave for child care. A combined confinement and child-care leave of absence without pay shall be granted to an employee [(male or female)] who becomes the parent of a child up to four years of age, either by birth, or by adoption, for a period [or]of up to 12 months, provided that effective April 1, 2024, such leave shall also be available for foster placements and adoptions of children of any age. In one instance per employee only, a period beyond 12 months, but not more than another successive 12-month period, may be granted at the discretion of the administrative authority, subject to the staffing needs of the court or agency.

Section 24.10 Overtime meal allowance.

(a) A meal allowance of \$[6]9 will be paid to any employee required to work at least three hours beyond his or her regularly scheduled workday unless he or she is receiving cash compensation for <sup>97</sup>overtime work.
