EMERGENCY RULE MAKING

Regulations Governing Recreational Fishing for Atlantic Striped Bass

I.D. No. ENV-21-24-00001-E

Filing No. 673

Filing Date: 2024-07-26

Effective Date: 2024-07-26

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

Action taken: Amendment of Parts 10 and 40 of Title 6 NYCRR.

Statutory authority: Environmental Conservation Law, sections 11-0303, 13-0339 and 13-0105

Finding of necessity for emergency rule: Preservation of general welfare.

Specific reasons underlying the finding of necessity: This rule is necessary for New York State to implement and remain in compliance with recent Atlantic States Marine Fisheries Commission (ASMFC) changes related to recreational Atlantic Striped Bass harvest. ASMFC approved Addendum II to Amendment 7 of its fishery management plan (FMP) for Atlantic Striped Bass on January 24, 2024 to reduce fishing harvest and enable stock rebuilding through changes to recreational size limits and filleting requirements. ASMFC approved New York State's approach to implementing the required reduction on March 26, 2024. Pursuant to the FMP, states must implement such changes by May 1, 2024.

The Department of Environmental Conservation is adopting this rule to

protect the general welfare of New York State by complying with ASMFC requirements. Non-compliance could result in a federally imposed closure of New York State's recreational and commercial Atlantic Striped Bass fisheries. Atlantic Striped Bass is one of the most popular species targeted by recreational anglers in New York State, in addition to being a commercially harvested species. Closure of the State's recreational and commercial Atlantic Striped Bass fisheries would have significant economic impacts.

The management measures specified in this Notice of Emergency Adoption are already in effect. The department originally submitted a Notice of Emergency Adoption and Proposed Rule Making to the Department of State on May 1, 2024, and the new regulations became effective that day. The public comment period for this rule ends on July 22, 2024. In order to be promulgated on time, the Notice of Adoption would have had to be filed on July 9, 2024, to allow 15 days to be published in the State Register before the original emergency adoption expired. Since the public comment period ends after this date, it is not possible to file the Notice of Adoption prior to the emergency rule's expiration on July 29, 2024. This amendment is necessary for the State to maintain the current regulations and remain in compliance with ASMFC until a Notice of Adoption, already in progress, can be published and adopted.

Subject: Regulations governing recreational fishing for Atlantic Striped Bass.

Purpose: To amend recreational fishing regulations for Atlantic Striped Bass.

Text of emergency rule: Table A in existing subdivision 10.1(b)(18) is amended to read as follows:

(b) Table A: Sportfishing regulations.

Species	Open Season	Minimum Length	Possession Limit
(18) Striped Bass (in the Hudson River and tributaries north of the George Washington Bridge and all inland waters)	April 1 through November 30	[18" to 28"] 23" to 28" TL (total length see ECL § 13-0339[4])	1

Add Subparagraph (i) to existing Paragraph 10.1(d)(2).

(i) *if filleting striped bass, the rack (remains of fish after fillets have been removed) must be retained and possession of no more than two fillets per legal fish is allowed.*

Part 40 of 6 NYCRR, titled "Marine Fish," is amended as follows:

Subparagraph 40(g)(4)(ii) is amended to read as follows:

(ii) Only fish which are legally possessed may be filleted [;] and fillets are limited to two per legal fish;

This notice is intended to serve only as a notice of emergency adoption. This agency intends to adopt the provisions of this emergency rule as a permanent rule, having previously submitted to the Department of State a notice of proposed rule making, I.D. No. ENV-21-24-00001-EP, Issue of May 22, 2024. The emergency rule will expire September 23, 2024.

Text of rule and any required statements and analyses may be obtained from: ElizaBeth Streifeneder, Department of Environmental Conservation, 21 S. Putt Corners Road, New Paltz, NY 12561, (845) 633-5466, email: elizabeth.streifeneder@dec.ny.gov

Additional matter required by statute: Pursuant to Article 8 of the ECL, the State Environmental Quality Review Act, a Coastal Assessment Form and a Short Environmental Assessment Form with a negative declaration have been prepared, and are on file with the Department.

Regulatory Impact Statement

1. Statutory authority:

The New York State Environmental Conservation Law (ECL) § 13-

0105 directs the Department of Environmental Conservation (department) to manage New York State's marine fishery resources to preserve their long-term health and abundance for future generations while maintaining consistency with interjurisdictional fishery management plans (FMPs). In addition, ECL §§ 11-0303 and 13-0339 authorize the department to establish by regulation the open season, size, catch and possession limits, and manner of taking and landing for Atlantic Striped Bass.

2. Legislative objectives:

It is the objective of the above-cited laws that the department manage marine fisheries to optimize resource use for recreational and commercial harvesters in a manner that is consistent with marine fisheries conservation and management policies and interstate FMPs.

3. Needs and benefits:

Atlantic Striped Bass are managed by the Atlantic States Marine Fisheries Commission (ASMFC). These amendments will ensure that New York maintains compliance with requirements of the Atlantic States Marine Fisheries Commission's (ASMFC) Interstate fishery management plan (FMP) for Atlantic Striped Bass. Specifically, the proposed rule reduces recreational harvest of Atlantic Striped Bass by amending the recreational slot size for Atlantic Striped Bass in the Hudson River and tributaries north of the George Washington Bridge and all inland waters, from 18 to 28 inches to 23 to 28 inches. Additionally, the rule adds new filleting requirements for Atlantic Striped Bass, including rack retention and a possession limit of two fillets per legal fish.

The proposed rule is necessary to comply with the ASMFC FMP for Atlantic Striped Bass, and to protect the general welfare of New York State. Failure to comply with ASMFC FMP requirements may result in the federal closure of New York State's Atlantic Striped Bass fishery. FMPs are designed to promote the long-term sustainability of managed marine species, preserve the State's marine resources, and protect the interests of both commercial and recreational fishermen.

4. Costs:

There are no new costs to state and local governments from this action. The department will incur limited costs associated with both the implementation and administration of these rules, including the costs relating to notifying recreational fishers, party and charter boat operators, and other recreational fishing associated businesses of the new rules.

The proposed more restrictive slot size may reduce fishing opportunities for New York fishers and result in a loss of revenue for party and charter businesses, tackle shops, and other businesses that rely, in part, on the recreational Atlantic Striped Bass fishery. However, failure by New York State to adopt the proposed rule could result in federal closure of New York's Atlantic Striped Bass fishery. Such a closure would significantly reduce fishing opportunities for New York fishers and negatively impact commercial fishers, recreational fishers, and related businesses.

5. Local government mandates:

The proposed rule does not impose any mandates on local governments.

6. Paperwork:

Regulated parties are not expected to experience an increase in paperwork as a result of the proposed regulations.

7. Duplication:

The proposed amendment does not duplicate any state or federal requirement.

8. Alternatives:

The ASMFC Management Board voted to approve Addendum II to Amendment 7 to the FMP for Atlantic Striped Bass on January 24, 2024. The FMP requires all coastwide Atlantic Striped Bass recreational ocean fisheries, including in the Hudson River, to reduce Atlantic Striped Bass harvest by 14.1% by implementing a 28 to 31 inch slot size. The FMP for Atlantic Striped Bass allows the Hudson River to submit alternative measures to the coastwide measure, as long as the reductions reach an equivalent percent to the reductions being achieved by the Marine and Coastal and Delaware fishery slot size of 28 to 31 inches.

Various slot options and slot and season combination options were presented to interested stakeholders during the ASMFC and DEC December 18, 2023 public hearing held in New Paltz, a Hudson River Estuary Management Advisory Committee (HREMAC) meeting on November 2, 2023, and Marine Resources Advisory Council (MRAC) meetings held on January 9, 2024 and February 6, 2024. All options presented met the 14.1% reduction requirement. The option selected for implementation had the most support among those who offered comments and was also best supported by the available data. If the department did not propose alternatives to the Marine and Coastal and Delaware fishery slot size, the Hudson River slot size would have to be amended to also be 28 to 31 inches.

A "no action" alternative would not amend recreational fishing regulations for Atlantic Striped Bass and would fail to keep New York in compliance with ASMFC's FMP requirements for Atlantic Striped Bass and could result in a closure of the fishery.

9. Federal standards:

The amendments to 6 NYCRR Parts 10 and 40 comply with ASMFC's Addendum II to Amendment 7 of the FMP for Atlantic Striped Bass.

10. Compliance schedule:

These regulations are being adopted by emergency rulemaking and therefore will take effect immediately upon filing with Department of State. Regulated parties will be notified of the changes to the regulations through publication in the State Register, appropriate news releases, and through the department's website.

Regulatory Flexibility Analysis

1. Effect of rule:

This rulemaking will implement Atlantic States Marine Fisheries Commission (ASMFC) mandated recreational harvest reductions for Atlantic Striped Bass. Specifically, the proposed rule amends the recreational slot size for Atlantic Striped Bass in the Hudson River and tributaries north of the George Washington Bridge and all inland waters, from 18 to 28 inches to 23 to 28 inches. Additionally, this rulemaking will add filleting requirements to Parts 10 and 40 for Atlantic Striped Bass in both inland waters and the Marine and Coastal District, including a rack retention requirement and a possession limit of two fillets per legal fish.

In 2023, there were 530 licensed party and charter businesses operating in New York State. Although a party and charter boat license is not required in the Hudson River, some party and charter businesses targeting Atlantic Striped Bass may operate in the Hudson River. In the same year, 404,302 people were enrolled in the department's Recreational Marine Fishing Registry, which includes those anglers targeting migratory fish of the sea (diadromous species), such as Atlantic Striped Bass, within the tidal waters of the Hudson River and its tributaries. Preliminary 2023 data from National Oceanic and Atmospheric Administration (NOAA) Fisheries estimates that New York recreational anglers took 4,422,137 trips targeting Atlantic Striped Bass, the large majority of these trips were likely taken in the Marine and Coastal District and not in the Hudson River. The proposed more restrictive slot size may reduce fishing opportunities for New York fishers and result in a loss of revenue for party and charter businesses, tackle shops, and other businesses that rely, in part, on the recreational Atlantic Striped Bass fishery. However, the proposed rule is necessary to comply with the ASFMFC fishery management plan (FMP) for Atlantic Striped Bass and failure by New York State to adopt the proposed rule could result in federal closure of New York's Atlantic Striped Bass fishery. Such a closure would significantly reduce fishing opportunities for New York fishers and negatively impact commercial fishers, recreational fishers, and related businesses. The regulations will not have any direct effects on local governments. The regulations will not have any direct effects on local governments.

2. Compliance requirements:

This rulemaking will not impose new compliance requirements for small businesses and local governments.

3. Professional services:

This rulemaking will not impose any professional service requirements for small businesses and local governments.

4. Compliance costs:

This rulemaking will not impose any new compliance costs for small businesses and local governments.

5. Economic and technological feasibility:

The proposed regulations do not require any expenditure on the part of affected businesses in order to comply with the changes. The proposed regulations may result in loss of revenue for party and charter businesses, marinas, and bait and tackle shops that depend, in part, upon the recreational Atlantic Striped Bass fishery.

6. Minimizing adverse impact:

This regulation is necessary for the department to comply with ASMFC's Addendum II to Amendment 7 to the FMP of Atlantic Striped Bass. The proposed regulations are intended to decrease recreational harvest and aid enforcement to help rebuild the currently overfished Atlantic Striped Bass coastwide stock. These measures will help to avoid the adverse economic and social impacts that would be associated with worsening stock condition, or a closure of the fishery for non-compliance. A moratorium on the harvest of Atlantic Striped Bass would have an adverse impact on New York's recreational and commercial Atlantic Striped Bass fishery and supporting industries that is significantly worse than the proposed size limit change and additions to filleting requirements. Ultimately, the maintenance of long-term sustainable fisheries will have a positive effect on the fishery and other industries that the fishery supports.

7. Small business and local government participation:

New York State marine recreational fishers and related small businesses had an opportunity to provide input on recreational fishing measures for Atlantic Striped Bass during two in-person public hearings held by ASMFC and DEC staff, one in Kings Park on December 4, 2023 and one in New Paltz on December 18, 2023. All NY stakeholders were invited to attend and voice opinions on the Addendum II options and the Hudson River recreational slot size alternative. The need for Hudson River Atlantic Striped Bass regulation changes in response to the new addendum was presented to the Hudson River Estuary Management Advisory Committee

(HREMAC) on November 2, 2023, which was open to the public with the opportunity to provide comments. On January 9, 2024 and February 6, 2024 the Marine Resources Advisory Council (MRAC) was notified and allowed opportunity for input on the Hudson River alternatives and filleting requirements proposed in this rulemaking.

The department notified the public of the proposed rule and comment period through the department’s Environmental Notice Bulletin, the “DEC Delivers” Saltwater Fishing and Boating Newsletter, and the department’s website. In addition, the department sent direct notice by email to party and charter boat license holders.

8. For rules that either establish or modify a violation or penalties associated with a violation:

Pursuant to SAPA 202-b(1-a)(b), no such cure period is included in this rule because of the potential adverse impact on the resource. Cure periods for the illegal taking of fish or wildlife are neither desirable nor recommended. Immediate compliance is required to ensure the general welfare of the public and that the resource is protected.

9. Initial review of the rule, pursuant to SAPA § 207 as amended by L. 2012, ch. 462:

The department will conduct an initial review of the proposed rule within three years, as required by SAPA § 207.

Rural Area Flexibility Analysis

1. Types and estimated numbers of rural areas:

There are no rural areas within, or directly adjacent to, the marine and coastal district. Four counties along the tidal Hudson River are in the rural area category: Columbia, Greene, Putnam, and Ulster counties. The proposed slot size limit regulations will affect Hudson River anglers in rural areas and may also have an indirect effect on supporting industries while the filleting provisions affect all individuals who participate in the Atlantic Striped Bass fishery.

2. Reporting, recordkeeping and other compliance requirements; and professional services:

There are no new reporting or recordkeeping requirements associated with this rulemaking. Furthermore, the rulemaking will not require the use of professional services for compliance.

3. Costs:

There will be no initial capital or annual costs to comply with the new regulations.

4. Minimizing adverse impact:

This regulation is necessary for the department to comply with the Atlantic States Marine Fisheries Commission’s (ASMFC) Addendum II to Amendment 7 of the fishery management plan (FMP) for Atlantic Striped Bass. The proposed regulations to the slot size are intended to decrease recreational harvest to help rebuild the currently overfished Atlantic Striped Bass coastwide stock. Additional requirements to the filleting allowances will help enforcement with halting poaching activities. These measures will help to avoid the adverse economic and social impacts that would be associated with worsening stock condition, or a federal closure of the fishery for non-compliance. A moratorium on the harvest of Atlantic Striped Bass would have an adverse impact on New York’s recreational and commercial Atlantic Striped Bass fishery and supporting industries that is significantly worse than the proposed reduction in size. Ultimately, the maintenance of long-term sustainable fisheries will have a positive effect for the fishery and other industries the fishery supports.

5. Rural area participation:

All NY stakeholders were invited to attend and voice opinions on the Addendum II options and the Hudson River recreational slot size alternative during two in-person public hearings held by ASMFC and DEC staff, one in Kings Park on December 4, 2023 and one in New Paltz on December 18, 2023. Additionally, ASMFC and the department have published press releases, social media posts, electronic newsletters, responded to news outlets, and have received direct communication via telephone and email from the concerned public.

In the Hudson Region, the meeting in New Paltz on December 18, 2023 specifically addressed the Hudson River alternatives that would have an impact of rural areas. The need for Hudson River striped bass regulation changes in response to the new addendum was presented to the Hudson River Estuary Management Advisory Committee (HREMAC) on November 2, 2023, which was open to the public with the opportunity to provide comments. Additionally, on January 9, 2024 and February 6, 2024 the Marine Resources Advisory Council (MRAC) was notified and allowed opportunity for input on the Hudson River alternatives and filleting requirements proposed in this rulemaking. All NY stakeholders including rural area participants are invited to attend these meetings.

Upon publication of this proposed rule in the State Register on May 22, 2024, a 60-day public comment period was in effect from May 23 to July 22, 2024. The department notified the public of the proposed rule and comment period through the department’s Environmental Notice Bulletin, the “DEC Delivers” Saltwater Fishing and Boating Newsletter, and the department’s website. In addition, the department sent direct notice by email to party and charter boat license holders.

6. Initial review of the rule, pursuant to SAPA § 207 as amended by L. 2012, ch. 462:

The department will conduct an initial review of the proposed rule within three years, as required by SAPA section 207.

Job Impact Statement

The current 6 NYCRR sections 10.1 and 40.1 describe open seasons, size, and catch limits for “inland sportfishing” and “marine fish,” respectively. The proposed rulemaking amends 6 NYCRR sections 10.1 and 40.1 to modify recreational harvest restrictions for Atlantic Striped Bass. Specifically, these amendments establish a more restrictive slot size limit for Atlantic Striped Bass in the Hudson River north of the George Washington Bridge. Additionally, the rule adds new filleting requirements for Atlantic Striped Bass in inland waters and the Marine and Coastal District, including a rack retention requirement and a possession limit of two fillets per legal fish. These proposed rules will apply solely to recreational anglers. A Job Impact Statement is not submitted with this proposal because the proposal would have no substantial adverse impact on existing or future jobs or employment opportunities.

PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

Customer Required Transformers and Associated Equipment

I.D. No. PSC-33-24-00001-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering a proposal filed by Consolidated Edison Company of New York, Inc. to modify its tariff schedule, P.S.C. No. 10 — Electricity, regarding customer responsibility for required transformers and associated equipment.

Statutory authority: Public Service Law, sections 65 and 66

Subject: Customer required transformers and associated equipment.

Purpose: To establish provisions to ensure safe and reliable service for all customers.

Substance of proposed rule: The Commission is considering a proposal filed by Consolidated Edison Company of New York, Inc. (Con Edison or the Company) on June 25, 2024, to amend its electric tariff schedule, P.S.C. No. 10 – Electricity.

Con Edison proposes to modify General Rule 5.6, Transformers and Associated Equipment, to discontinue installing transformers in the public right-of-way necessary solely for the adequate supply of service to a customer. Under the proposed tariff amendment, customers would be required to provide suitable space within customer buildings or premises for transformers required to serve those customers.

While the Company would continue to furnish transformers and associated equipment, customers applying for new or additional service, or existing customers that require a dedicated transformer(s) to provide service, would be responsible to install and make connections at the customers’ expense. The Company states that the main drivers supporting its proposed tariff amendment are: 1) public policy/public interest goals; 2) avoidance of future costs by reducing customer-specific installation costs that are currently borne by all customers; and 3) reduction of maintenance and replacement of transformers that are exposed to the elements when facilities are installed in the public right-of-way. The proposed amendment has an effective date of November 1, 2024.

The full text of the proposal and the full record of the proceeding may be reviewed online at the Department of Public Service web page: www.dps.ny.gov. The Commission may adopt, reject, or modify in whole or in part, the action proposed and may also resolve related matters.

Proposed Transfer of Water Utility's Capital Stock

I.D. No. PSC-33-24-00002-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering a petition filed by Somerdel Water Works Corporation for the transfer of the stock of Somerdel from the estate of the estate of James Jacobson and Mitchell Miller to the Green Briar Homeowners Association.

Statutory authority: Public Service Law, sections 4(1), 5(1)(f), 89-c(1), 89-h(1) and (3)

Subject: Proposed transfer of water utility's capital stock.

Purpose: To determine if the proposed transfer is in the public interest.

Substance of proposed rule: The Commission is considering a petition filed by Somerdel Water Works Corporation (Somerdel or the Company) on July 18, 2024, for authority to transfer the Company from the estate of James Jacobson and Mitchell Miller to the Green Briar Homeowners Association (Association).

The Association purchased 100 percent of the stock of the Company from the previous owner for \$483,907, but states it was unaware that the transfer required Commission approval. The Commission is already considering a proposal filed by the Company on April 2, 2024 to amend its water tariff, P.S.C. No. 2 – Water, to increase its total annual revenues by approximately \$48,294 or 35 percent. Somerdel asserts that the transfer in ownership is in the public interest because members of the Association comprise 99 percent of the Company customer base, and thus there is a strong incentive to continue the provision of safe and reliable service at just rates. Additionally, through the acquisition, Somerdel implemented cost reductions through balance sheet adjustments and tax benefits. The Commission is also reviewing the Company's operations and procedures, and may direct modifications or improvements as deemed necessary.

The full text of the petition and the full record of the proceeding may be reviewed online at the Department of Public Service web page: www.dps.ny.gov. The Commission may adopt, reject, or modify, in whole or in part, the action proposed and may resolve related matters.

ACTION PENDING INDEX

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.

Agency code	Issue number	Year published	Serial number	Action Code
