Department of Corrections and Community Supervision

PROPOSED RULE MAKING NO HEARING(S) SCHEDULED

Contraband Drug Testing

I.D. No. CCS-41-24-00001-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: Amendment of sections 1010.1, 1010.2, 1010.3, 1010.4, 1010.5, 1010.6, 1010.7; repeal of section 1010.8 of Title 7 NYCRR.

Statutory authority: Corrections Law, section 112

Subject: Contraband Drug Testing.

Purpose: To further clarify the process and procedure for the testing of suspected contraband drugs.

Text of proposed rule: Amend section 1010.1, Policy, as follows:

[An attempt shall be made] *The Department of Corrections and Community Supervision will utilize its resources to identify, whenever possible, any substances which are found and suspected of being contraband drugs and to hold individuals responsible for possessing or introducing contraband drugs into a correctional facility.*

Amend section 1010.2, Description, as follows:

[This regulation outlines the procedures to be followed by each facility in the testing of suspected contraband drugs.] The department [currently] utilizes a two-step testing [systems] *process of a substance suspected of containing a contraband drug: a presumptive field test or presumptive visual identification of pharmaceutical drugs and a confirmatory test conducted by an accredited forensic laboratory.* [, the Safariland NIK® poly testing system, and the Sirchie NARK® II drug testing system.]

Amend section 1010.3, Background, as follows:

[The possession by anyone of contraband drugs presents a serious threat to the safety and security of a correctional facility. The importation of and trafficking in contraband drugs provides an opportunity for the demoralization of inmates and the corruption of correctional staff. The accurate identification of suspected contraband drugs and the use of appropriate disciplinary sanctions for the possession of contraband drugs can assist facility administrators in detecting and suppressing this threat.] *The possession, importation of, and trafficking in contraband drugs presents a serious threat to the safety and security of the department's correctional facilities and negatively impacts the incarcerated population and correctional staff. Contraband drugs within a correctional facility also undermines the rehabilitation of incarcerated individuals provided by the department. The accurate identification of suspected contraband drugs, the utilization of appropriate disciplinary measures, and criminal prosecutions for the possession of contraband drugs can assist the department in detecting and suppressing these threats. Further, the department is devoted to holding incarcerated individuals, visitors, volunteers, staff, and others accountable for violating departmental rules and criminal laws related to the possession of illicit drugs or the introduction of contraband drugs into a facility.*

Amend section 1010.4, Procedure, as follows:

When a substance is found which is suspected of being a contraband drug, the following steps shall be taken *in accordance with department Directive #4938, "Contraband Drug Testing"*.

(a) *Secure the substance in an evidence container.* [Place the substance in a sealed container and label it with the following information:

- (1) date and time found;
- (2) place location where found; and
- (3) name and badge number of the officer, security supervisor, executive team member with peace officer status or name and title of the employee (if civilian) finding the substance.]

(b) [Initiate] *Initiating a request for test of suspected contraband drugs.* [see section 1010.8a of this Part] to include details of circumstances leading to request. Each person handling the suspected substance shall make an appropriate notation on the form to document the action taken as well as the chain of custody of the substance until it is identified or, if applicable, placed in control of the Office of Special Investigations' narcotics staff or a police agency or the State Police laboratory.]

(c) *Submit written documentation by the employee recovering the suspected drug contraband which describes the circumstances of events resulting in the seizure of the contraband drugs.*

([c]d) *Store evidence with Form #2080 and written documentation.* [If the substance is not to be identified immediately, it shall be stored in secure evidence drop box or the secure evidence locker in accordance with Directive #4910A, "Contraband/Evidence – Handling, Storage, and Disposition."]

([d]e) [The substance shall be inspected at the facility pharmacy for possible identification, or if appropriate pharmacy staff are not available, with the assistance of nursing staff.] *Preliminarily identifying substance by an investigator with the department's office of special investigations (OSI). All field testing of a substance shall be completed by trained personnel and following the manufacturer's instructions listed on the field test kit box.*

(e) If the substance has not been conclusively identified at the facility pharmacy, it shall be tested by use of the narcotics identification kit (NIK®) manufactured by Public Safety, Inc. Always begin NIK® testing with Test A and continue from test to test until a positive or negative result is obtained. Tests E, L, M, N, P, Q and R, and Bath Salts Test are exceptions to this rule and are designed as stand alone tests (see section 1010.8[c] of this Part, NIK® Tests list), or the narcotics identification kit (NARK® II) manufactured by Sirchie Fingerprint Laboratories. Always begin testing with manufacturers recommended test kit (see section 1010.8[d] of this Part NARK® II Tests list).

(f) The individual performing the test shall have been appropriately trained in the use of the testing materials and shall follow the procedures recommended by the manufacturer. The testing sequence followed and the results obtained shall be noted on the contraband test procedure form (see section 1010.8[b] of this Part.)

(f) *Submitting a suspected contraband drug to an independent forensic laboratory. Any substance that was preliminarily identified as a controlled substance or marijuana by the OSI investigator through a presumptive field test or visual identification of a pharmaceutical shall be submitted by OSI to a forensic laboratory for confirmatory testing if there is a disciplinary action or criminal prosecution contemplated. Any substance that has tested inconclusive but is still believed to be a suspected drug by the OSI investigator, upon consultation with an OSI supervisor, may be submitted by OSI to an independent forensic laboratory for confirmatory testing. The evidence along with the appropriate submission form shall then be submitted to the relevant laboratory for confirmatory testing.*

(g) *Disposal. Any suspected contraband drug, regardless of any test results, will be disposed of by OSI. If a substance is determined to not be a contraband drug, the OSI investigator shall return the contraband to the facility's evidence control supervisor for appropriate handling and disposition, in accordance with Directive #4910A and commencement of disciplinary action against an incarcerated individual (Directive #4932), if applicable. If no individual is associated with the substance, the OSI investigator shall secure it as property for subsequent destruction.*

([g] Any substance remaining after testing at the facility may, but need not, be forwarded to a State Police laboratory for further testing.)

Amend section 1010.5, Use of results, as follows:

In a subsequent disciplinary hearing, the positive result of a test of suspected contraband drugs may be used as evidence *of the identity and nature of the suspected substance (e.g., controlled substance, marijuana, etc.) as proof that the suspected substance is what the test result indicates. The certified laboratory report of a positive result of a confirmatory test by a forensic laboratory is the only basis to initiate a disciplinary proceeding against an incarcerated individual. The certified laboratory report shall also be admissible evidence in a subsequent disciplinary hearing.* [In addition to the misbehavior report, the inmate shall be served with the following documents and the record of the hearing must include:

(a) the request for test of Suspected Contraband Drugs; form, see section 1010.8(a) of this Part;

(b) the contraband test procedure form, see section 1010.8(b) of this Part;

(c) the test report prepared by an outside agency subsequent to testing of the substance; if any;

(d) a statement of the scientific principals and validity of the testing materials and procedures used (for the Public Safety, Inc. NIK® System, see section 1010.8[c] of this Part) for the NARK® II System, see section 1010.89(d); and

(e) a photocopy of the individual test instructions for each test used.]

Amend section 1010.6, Leftover drug substances, as follows:

Substances remaining after testing and/or disciplinary proceedings should be disposed of in accordance with [NYSDOCS Departmental] Directive #4910A, "Contraband/Evidence-Handling, Storage, and Disposition."

Amend section 1010.7, Positive test reporting, as follows:

A positive *confirmatory* test by an *accredited forensic laboratory* for [suspected] contraband drugs must be reported as an Unusual Incident in accordance with [Directive] *departmental Directives #4938 and #4004, "Unusual Incident Report."* [,] when any one of the following conditions

apply: A positive test result for cocaine, heroin, or marijuana either associated with an incarcerated individual, even if no perpetrator is identified.

Any positive test result in which an inmate has been identified as a perpetrator of the incident.- Any positive test result which results in the arrest of any individual, i.e., visitor, volunteer, contractor, employee, etc., by the department's Office of Special Investigations or any outside police agency.]

Section 1010.8 is repealed.

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering a proposal filed by Southside Water Inc. to increase its annual base revenues by \$110,103 or 148.3 percent and to increase its charges for restoration of service and willful termination of service.

Statutory authority: Public Service Law, sections 4(1), 5(1)(f), 89-(b)(1) and 89-(c)(10)

Subject: Minor rate filing.

Purpose: To ensure safe and adequate service at just and reasonable rates charged to customers without undue preferences.

Substance of proposed rule: The Commission is considering a proposal filed by Southside Water Inc. (Southside or the Company) on July 12, 2024, to amend its tariff schedule, P.S.C. No. 1 – Water, to increase its total annual water revenues by approximately \$110,103 or 148.3 percent. The Company provides metered water service in the Lettiere Development, Town of Watertown, Jefferson County.

Southside states the proposed rate increase is necessary to cover

current and projected operating costs and required maintenance, including a main replacement plan to replace aging pipes. The Company's last rate increase became effective on June 1, 2010. The Company's owner states he has used \$6,000 of his personal funds to cover Southside's normal operating costs. The Company proposes to increase its restoration of service charges to \$100 during business hours, \$150 outside business hours Monday through Friday, and \$200 on weekends and holidays. The Company proposes to increase its charge to perform willful termination of service to \$100. The company proposes to revise leaf number five to state that mains, services (up to the curb stop) and other water system facilities will be maintained and replaced by the Company, as opposed to services up to the property line as shown in the effective tariff. Finally, the Company also requests a waiver of the newspaper publication requirements as it will notify its customers directly by mail. Additionally, the Commission is also reviewing the Company's operations and procedures and may direct modifications or improvements as deemed necessary. The proposed amendments have an initial effective date of January 1, 2025.

Notice of Intent to Submeter Electricity and Waiver Request

I.D. No. PSC-41-24-00025-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering the notice of intent of

Housing is a Human Right LLC to submeter electricity at 364 West 54th Street, New York, New York, and request for waiver of the energy audit requirements in 16 NYCRR 96.5(k)(3).

Statutory authority: Public Service Law, sections 30, 32-48, 52, 53, 65(1), 66(1), (2), (3), (4), (12) and (14)

Subject: Notice of intent to submeter electricity and waiver request.

Purpose: To ensure adequate submetering equipment, consumer protections and energy efficiency protections are in place.

Substance of proposed rule: The Public Service Commission (Commission) is considering the notice of intent filed by Housing is a Human Right LLC (Owner) on September 5, 2024, seeking authority to submeter electricity at a new rental building, with both fair market and affordable units, located at 364 West 54th Street, New York, New York, located in the service territory of Consolidated Edison Company of New York, Inc. (Con Edison).

The Commission is also considering the Owner's request for waiver of 16 NYCRR § 96.5(k)(3), which requires proof that an energy audit has been conducted when 20 percent or more of the residents receive income-based housing assistance.

In its notice of intent, the Owner requests authorization to take electric service from Con Edison and then distribute and meter that electricity to its tenants. Once approved by the Commission, submetering of electricity to residential residents is allowed so long as it complies with the protections and requirements of the Commission's regulations in 16 NYCRR Part 96. Further, the Owner states that, because the buildings are new construction, it must comply with the current New York City Energy Conservation Construction Code, which provides strict energy conservation requirements for new and renovated buildings, including the design and construction of energy-efficient building envelopes, mechanical, lighting and power systems. Given these requirements, the Owner states that an energy audit is not necessary in this case.

A Process for Considering Specific Meter Socket Adapter Devices

I.D. No. PSC-41-24-00026-P

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following proposed rule:

Proposed Action: The Commission is considering the petition filed by ConnectDER, Inc. and Tesla, Inc. seeking the establishment of a statewide process for meter socket adapter models for use in distributed energy resources.

Statutory authority: Public Service Law, sections 5, 65, 66 and 66-p

Subject: A process for considering specific meter socket adapter devices.

Purpose: To provide rules that ensure safe and adequate service at just and reasonable rates.

Substance of proposed rule: The Commission is considering a petition

filed by ConnectDER, Inc. and Tesla, Inc. (together, the Petitioners) on August 30, 2024, seeking the establishment of a statewide process for meter socket adapter models for residential use in distributed energy resources (the Petition).

The Petitioners explain that meter socket adapters (MSAs) are an enabling technology that can lower the costs of residential solar, battery storage, and electric vehicle charger projects by allowing residential customers to bypass main panel upgrades while not affecting the ability of utilities to meter electricity. The Petitioners also note that MSAs can reduce the installation time for residential clean energy systems, facilitating the deployment of more systems in a shorter period of time. According to the Petitioners, the technology benefits of MSAs make rooftop solar a more viable option for more customers, including those with lower incomes. The Petitioners propose a standardized statewide process for approving the use of MSAs by residential customers and provide suggested language for such a policy.

ACTION PENDING INDEX

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.

Agency code	Issue number	Year published	Serial number	Action Code
AAM	01	12	0001	P
