Introduction and Recommendation

I received an application (Exhibit A) for the repair of 30 hazardous monuments located in the Clarence Fillmore Cemetery of the Town of Clarence, Erie County. The application was submitted by Christopher Converse, Vice President of the Forest Lawn Cemetery Group. Included with this application were estimates from Western New York Cemetery Services (Exhibit 4) totaling $36,724, Milano Stone & Restoration (Exhibit 4) totaling $37,928, M&S Enterprises (Exhibit 4) totaling $89,030, and SBZ& Galle Stones (Exhibit 4) totaling $57,223. Also included was an invoice for a legal notice to lot owners (Exhibit 5) that was run for three consecutive weeks in the Clarence Bee for $265.12. The ad included first and last names as well as section numbers.

I recommend approval of this application.

The Monuments

I visited the cemetery on May 15th, 2025, and found that all 30 monuments were either loose on their foundations or tipping and appeared to pose a hazard to cemetery visitors and employees. The cemetery has had no response to the legal advertisement that it placed, and has no funds dedicated to the restoration of monuments. Mr. Converse checked cemetery records and found no contact information for the last known lot owners. It is the Division's understanding that the cemetery has determined that the lot owners cannot be

located. Based on the advanced age of the monuments in question, it is assumed the foundations were laid privately by either the families or by monument contractors. The most recent monument is dated 1925.

Western New York Cemetery Services proposes to remove 30 monuments from the existing foundations; dig out the existing foundations; place new foundations made of solid concrete poured to a depth of forty-two inches with the dimensions being equivalent to the length and width of the monument; and replace the monument, resealing all joints with setting compound or epoxy. They will provide a 20-year warranty.

Milano Stone and Restoration proposes to remove 30 monuments from the existing foundations, dig out 30 existing foundations and place new foundations made of solid concrete poured to a depth of forty-two inches with dimensions being equivalent to the length and width of the monument, and replace the monuments, resealing all joints with setting compound or epoxy. They will provide a 1-year warranty.

M & S Enterprises proposes to remove 30 monuments from the existing foundations, dig out 30 existing foundations and place new foundations made of solid concrete poured to a depth of 42-inches with dimensions being equivalent to the length and width of the monument, and replace the monuments, resealing all joints with setting compound or epoxy. They will provide a 5-year warranty.

SBZ & Galle Stones proposes to remove 30 monuments from the existing foundations, dig out 30 existing foundations and place new foundations, they did not give specifications or warranty information.

Recommendation

The cemetery is current with its payments to the vandalism fund and with the filing of its annual reports. Previous disbursements were used appropriately, and all documents are in order, this is a legitimate claim for $36,989.12. I recommend that this application be approved.

Application for Repair or Removal of Dilapidated or Disrepaired Monuments that Create a Dangerous Condition

The following language has been added to the vandalism regulations to establish procedures under which cemetery corporations may apply for funds to repair or replace monuments not owned by the cemetery but which create a dangerous condition because of disrepair.

19 NYCRR, Part 200
§200.11, Subds. (i)-(k) State Cemetery vandalism restoration, monument repair or removal and administration fund.

(i) *Application for repair or removal of dilapidated or disrepaired monuments that create a dangerous condition.* (1) An application for payment by the Fund for the repair or removal of monuments or other markers not owned by the cemetery corporation that have become dilapidated or are in disrepair so as to create a dangerous condition shall include the following:

(i) a description of the damaged monuments or markers, including photographs, and a statement that the monuments or markers are so badly out of repair or dilapidated as to create a dangerous condition;

(ii) a copy of bids submitted by at least two contractors for the cost of repairs, or removal and replacement;

(iii) proof that the cemetery corporation has given not less than sixty day notice to the last known owner to repair or remove the monument or other marker and that said owner has failed to do so within the time prescribed in said notice. Such notice shall be addressed to the last known owner or owners and to all persons having or claiming an interest in or to the burial lot on which the monument or marker is located. In the event that the last known owner or owners cannot be found, proof that notice was given by publishing the same once each week for three consecutive weeks in a newspaper published or circulated in the county in which the cemetery is located. The notice shall be effective on the date of mailing such notice by registered or certified mail, or the date of the third publication in the newspaper; and

(iv) a notarized statement signed by a cemetery corporation officer that the cemetery corporation has not been able to obtain sufficient funds from the family of the deceased (include copies of letters or newspaper advertisements); and that the proposed costs of the repairs or removals and replacements are fair and reasonable.

(2) Within 90 days of receipt of a complete application, the Cemetery Board shall make a determination, based upon the following factors:

(i) whether the monuments or markers are so badly out of repair or dilapidated as to create a dangerous condition;

(ii) whether due notice has been given to the last known owner to repair or remove the monument or other marker and the said owner has failed to do so within the time prescribed in said notice;

(iii) danger to visiting families;

(iv) appropriateness of prior use of payments from the fund;

(v) compliance with Not-for-Profit Corporation Law Article 15 and Cemetery Board rules and regulations;

(vi) priority of application based upon previous allocations; and

(vii) availability of monies within the Fund.

(j) *Use of disbursements for repair or removal of dilapidated or disrepaired monuments that create a dangerous condition.* (1) The cemetery corporation must apply all disbursements made by the Cemetery Board to the repair or removal and replacement of monuments or other markers as described in the application.

(2) Any funds remaining after the repairs or removals and replacements have been performed must be returned to the Cemetery Board for redeposit into the Fund.

(k) *Final report.* Within 90 days of its receipt of disbursements, the cemetery corporation shall make a report to the Cemetery Board setting forth the repairs or removals and replacements made and by whom, the amount of funds expended, and the amount of funds to be returned to the Cemetery Board, if any. RE: The Clarence Fillmore Cemetery Dilapidated Stone mailing notification

Dear Mr. Polishook,

The Clarence Fillmore, located in the Town of Clarence, in Erie County has identified at least 30 stones that are in hazardous condition and in danger of tipping over. The Cemetery was chartered back in 1883 and many of these stones are older.

While the Cemetery holds some records, including mailing addresses, we do not have any mailing addresses for the stones listed in our current dilapidated stones application. As a result, we are unable to reach out to any of these families by mail. Notification was placed in the local paper for three consecutive weeks as outlined by the Division of Cemeteries.

Please let me know if you have any questions,
